

ALPHABETICAL INDEX

TO THE

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

[The fossils referred to are described, and those of which the names are printed in italics are also figured.]

- ABBOTS LANGLEY, Herts, flint implement found at, 367.
- Acanthocladia anceps, 307.
- Analysis of the lignite from the Valley of the Souri River, 409.
- Anatina* ? *præcursor*, 507.
- ? *Suessi*, 507.
- Andes, Mr. J. W. Salter on the fossils from the, 62.
- Anemites Acadica from Nova Scotia, 5.
- Anniversary Address of the President, xxxi–lxxii. See also Horner, L., Esq.
- Annual Report, i.
- Anthraxipalæmon dubius*, 532.
- *Grossarti*, 530.
- Arca* ? *Brownii*, 69.
- *Lycettii*, 501.
- Archæoteuthis Dunensis (Roemer), Prof. T. H. Huxley on, 163.
- Ardsheal Peninsula, Highlands of Scotland, 266.
- Arisaig in the Highlands, 203.
- Ashdown Sand, 277.
- Assynt in the Highlands, 96.
- Astacoderma bicuspidatum*, 549.
- *declinatum*, 550.
- *planum*, 551.
- *remiforme*, 551.
- *serratum*, 550.
- *spinosum*, 550.
- *terminale*, 549.
- *triangulare*, 550.
- *undulatum*, 550.
- Australia, the Rev. W. B. Clarke on the plant-bearing beds of, 354.
- Avicula contorta*, 499.
- Avicula contorta* zone, Mr. C. Moore on the, 483.
- Avicula solitaria*, 499.
- Award of the Wollaston Donation-Fund, xxx; Medal, xxvii.
- Axinus cloacinus*, 502.
- *concentricus*, 502.
- *depressus*, 502.
- *dubius*, 305.
- *elongatus*, 502.
- Ballahulish in the Highlands, 266.
- Banavie in the Highlands, 203.
- Barkoi and Mahadewa Hills, India, 347.
- Batheaston and Paulton, sections at, 492, 493.
- Bann Taobhliath, 193.
- Bedford, flint implements found near, 366; section across the Valley of the Ouse at, 364.
- Bedwins (Wiltshire), a reconstructed bed on the top of the chalk near the, 527.
- Beer-Crowcombe, Rhætic and Liassic beds at, 485, 489.
- Bellerophon, from Illampu, 70.
- Bengal, plant-beds of, 347; reptilian remains from, 362.
- Ben-y-Gloe Mountains, Highlands of Scotland, 263.
- Berks, reconstructed bed of chalk in, 527.
- Beyrichia Forbesi*, 67.
- Biddenham (Beds), flint implements found at, 366.
- Blair Athol, 222, 262.
- Blairgowrie, 226.
- Bolivia and Southern Peru, Mr. D. Forbes on the geology of, 7.
- Boliviana bipennis*, 72.
- *Melocactus*, 71.
- *proboscidea*, 71.
- Bone arrow-head from the Montagne du Ker, 470.

INDEX TO THE PROCEEDINGS.

- Bone-caves on the Montagne du Ker at Massat, M. Alfred Fontan on two, 468.
- Bone-caves in Languedoc, M. Lartet on the, 473.
- Boracic-acid deposits of Bolivia and Peru, 13.
- Borrodale, in Scotland, section at, 204.
- Boulder on the plains south of Carlton, sketch of, 396.
- Boulders in West Rosewarne Mine, 517.
- Breadalbane Forest, 215.
- Brodie, the Rev. P. B., on the distribution of the corals in the Lias, 151.
- Brodsworth, Yorkshire, 313.
- Bronn, Prof. H. G., award of the Wollaston Medal to, xxvii.
- Brotherton, Permian beds of, 289, 316.
- Bunbury, Sir C. J. F., Bart., notes on a collection of fossil plants from Nágpur, Central India, 325.
- Bute, the older rocks in, 136.
- Caledonian Canal, or Great Glen, Lower Silurian rocks east of the, 205.
- California, terraces in, 404.
- Callender, Highlands of Scotland, 258.
- Carabidæ in the Rhaetic beds, 513.
- Carboniferous rocks of Peru and Bolivia, 48.
- Cardiomorpha Pallasii, 304.
- Cardium Rhaeticum*, 503.
- Carlton, boulder on the plains of, 396.
- Carpolite from the coal-formation of Cape Breton, 525.
- Cascade Range, North America, 444.
- Central India, Sir C. J. F. Bunbury on a collection of fossil plants from, 325.
- Cerithium constrictum*, 508.
- *cylindricum*, 508.
- *decoratum*, 508.
- *Rhaeticum*, 508.
- Chalk-rock, or topmost bed of the lower chalk, Mr. W. Whitaker on the, 166.
- Chemnitzia Henrici*?, 509.
- *nitida*, 510.
- Roessleri, 301.
- Chiton Loftusianus, 302.
- *Rhaeticus*, 511.
- Chuquiaguillo River, gold-washings on the, 21.
- Cladophlebis*, 332.
- Clarke, the Rev. W. B., on the relative positions of certain plants in the coal-bearing beds of Australia, 354.
- Coal at Vancouver Island, 433.
- Coal-bearing beds of Australia, the Rev. W. B. Clarke on the, 354.
- Coalbrook-dale coal-field, Mr. M. W. T. Scott on the "Symon fault" in the, 457.
- Coal-measures, Crustacea from the British, 528.
- Conodonts in the Ludlow bone-bed, 543, 551.
- Contin in the Highlands, 201.
- Corals in the Lias, the Rev. P. B. Brodie on the, 151.
- Corbicula fluminalis* geologically considered, Mr. J. G. Jeffreys on the, 473.
- Corocoro copper-mines, 41.
- Coromandel coast, Mr. J. W. Dykes on the increase of land on the, 553.
- Corry Hourachan in the Highlands of Scotland, section at, 187.
- Council, Report of the, i.
- Craig-an-Knochan in the Highlands, sections at, 101, 180.
- Cretaceous strata in North America, 411, 413.
- of Vancouver Island and the Gulf of Georgia, 428.
- Crustacea, Mr. J. W. Salter on some of the higher, from the British coal-measures, 528.
- Cruziana Cucurbita*, 71.
- *Unduavi*, 71.
- Ctenodonta (Nucula)*, from Millepaya, 69.
- Cucullella*, from Illampu, 69.
- Cupriferous rocks of Bolivia, 43.
- Cylindrites elongatus*, 509.
- *fusiformis*, 509.
- *ovalis*, 509.
- *oviformis*, 509.
- Cypris Liassica?, 512.
- Cyrena fluminalis*, Mr. Prestwich on the occurrence of, near Hull, 446.
- , Mr. J. G. Jeffreys on the, 473.
- Cythere (Bairdia) ampla*, 308.
- *plebeia*, 308.
- *Schaurothiana*, 308.
- (Cytherideis) Jonesiana, 308.
- Dalmally in the Highlands, 217.
- Dalnacardoch in the Highlands, 221.
- Daubrée, M., award of the Donation-fund to, xxx.
- Dawson, Dr. J. W., on a Carpolite (*Trigonocarpum Hookeri*) from the coal-formation of Cape Breton, 525; on an erect Sigillaria from the South Joggins, Nova Scotia, 522; on an undescribed fossil fern from the lower coal-measures of Nova Scotia, 5.
- Dentalium Sorbyi, 302.
- Denudation of soft strata, the Rev. O. Fisher on the, 1.

ALPHABETICAL INDEX

TO THE

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

[The fossils referred to are described, and those of which the names are printed in italics are also figured.]

- ABBOTS LANGLEY, Herts, flint implement found at, 367.
- Acanthocladia anceps, 307.
- Analysis of the lignite from the Valley of the Sour River, 409.
- Anatina* ? *præcursor*, 507.
- ? *Suessi*, 507.
- Andes, Mr. J. W. Salter on the fossils from the, 62.
- Aneimites Acadica from Nova Scotia, 5.
- Anniversary Address of the President, xxxi-lxxii. See also Horner, L., Esq.
- Annual Report, i.
- Anthrapalæmon dubius*, 532.
- *Grossarti*, 530.
- Arca* ? *Brownii*, 69.
- *Lycettii*, 501.
- Archæoteuthis Dunensis (Roemer), Prof. T. H. Huxley on, 163.
- Ardsheal Peninsula, Highlands of Scotland, 266.
- Arisaig in the Highlands, 203.
- Ashdown Sand, 277.
- Assynt in the Highlands, 96.
- Astacoderma bicuspidatum*, 549.
- *declinatum*, 550.
- *planum*, 551.
- *remiforme*, 551.
- *serratum*, 550.
- *spinosum*, 550.
- *terminale*, 549.
- *triangulare*, 550.
- *undulatum*, 550.
- Australia, the Rev. W. B. Clarke on the plant-bearing beds of, 354.
- Avicula contorta*, 499.
- Avicula contorta* zone, Mr. C. Moore on the, 483.
- Avicula solitaria*, 499.
- Award of the Wollaston Donation-Fund, xxx ; Medal, xxvii.
- Azinus cloacinus*, 502.
- *concentricus*, 502.
- *depressus*, 502.
- *dubius*, 305.
- *elongatus*, 502.
- Ballahulish in the Highlands, 266.
- Banavie in the Highlands, 203.
- Barkoi and Mahadewa Hills, India, 347.
- Batheaston and Paulton, sections at, 492, 493.
- Beann Taobhliath, 193.
- Bedford, flint implements found near, 366 ; section across the Valley of the Ouse at, 364.
- Bedwins (Wiltshire), a reconstructed bed on the top of the chalk near the, 527.
- Beer-Crowcombe, Rhætic and Liassic beds at, 485, 489.
- Bellerophon, from Illampu, 70.
- Bengal, plant-beds of, 347 ; reptilian remains from, 362.
- Ben-y-Gloe Mountains, Highlands of Scotland, 263.
- Berks, reconstructed bed of chalk in, 527.
- Beyrichia Forbesi*, 67.
- Biddenham (Beds), flint implements found at, 366.
- Blair Athol, 222, 262.
- Blairgowrie, 226.
- Bolivia and Southern Peru, Mr. D. Forbes on the geology of, 7.
- Boliviana bipennis*, 72.
- *Melocactus*, 71.
- *proboscidea*, 71.
- Bone arrow-head from the Montagne du Ker, 470.

INDEX TO THE PROCEEDINGS.

- Bone-caves on the Montagne du Ker at Massat, M. Alfred Fontan on two, 468.
- Bone-caves in Languedoc, M. Lartet on the, 473.
- Boracic-acid deposits of Bolivia and Peru, 13.
- Borrodale, in Scotland, section at, 204.
- Boulder on the plains south of Carlton, sketch of, 396.
- Boulders in West Rosewarne Mine, 517.
- Breadalbane Forest, 215.
- Brodie, the Rev. P. B., on the distribution of the corals in the Lias, 151.
- Brodsworth, Yorkshire, 313.
- Bronn, Prof. H. G., award of the Wollaston Medal to, xxvii.
- Brotherton, Permian beds of, 289, 316.
- Bunbury, Sir C. J. F., Bart., notes on a collection of fossil plants from Nágpur, Central India, 325.
- Bute, the older rocks in, 136.
- Caledonian Canal, or Great Glen, Lower Silurian rocks east of the, 205.
- California, terraces in, 404.
- Callender, Highlands of Scotland, 258.
- Carabidæ in the Rhætic beds, 513.
- Carboniferous rocks of Peru and Bolivia, 48.
- Cardiomorpha Pallasi, 304.
- Cardium Rhæticum*, 503.
- Carlton, boulder on the plains of, 396.
- Carpolite from the coal-formation of Cape Breton, 525.
- Cascade Range, North America, 444.
- Central India, Sir C. J. F. Bunbury on a collection of fossil plants from, 325.
- Cerithium constrictum*, 508.
- *cylindricum*, 508.
- *decoratum*, 508.
- *Rhæticum*, 508.
- Chalk-rock, or topmost bed of the lower chalk, Mr. W. Whitaker on the, 166.
- Chemnitzia Henrici*?, 509.
- *nitida*, 510.
- Roessleri, 301.
- Chiton Loftusianus, 302.
- *Rhæticus*, 511.
- Chuquiaguillo River, gold-washings on the, 21.
- Cladophlebis*, 332.
- Clarke, the Rev. W. B., on the relative positions of certain plants in the coal-bearing beds of Australia, 354.
- Coal at Vancouver Island, 433.
- Coal-bearing beds of Australia, the Rev. W. B. Clarke on the, 354.
- Coalbrook-dale coal-field, Mr. M. W. T. Scott on the "Symon fault" in the, 457.
- Coal-measures, Crustacea from the British, 528.
- Conodonts in the Ludlow bone-bed, 543, 551.
- Contin in the Highlands, 201.
- Corals in the Lias, the Rev. P. B. Brodie on the, 151.
- Corbicula fluminalis* geologically considered, Mr. J. G. Jeffreys on the, 473.
- Corocoro copper-mines, 41.
- Coromandel coast, Mr. J. W. Dykes on the increase of land on the, 553.
- Corry Hourachan in the Highlands of Scotland, section at, 187.
- Council, Report of the, i.
- Craig-an-Knochan in the Highlands, sections at, 101, 180.
- Cretaceous strata in North America, 411, 413.
- of Vancouver Island and the Gulf of Georgia, 428.
- Crustacea, Mr. J. W. Salter on some of the higher, from the British coal-measures, 528.
- Cruziana Cucurbita*, 71.
- *Unduavi*, 71.
- Ctenodonta (Nucula)*, from Millepaya, 69.
- Cucullella*, from Illampu, 69.
- Cupriferous rocks of Bolivia, 43.
- Cylindrites elongatus*, 509.
- *fusiformis*, 509.
- *ovalis*, 509.
- *oviformis*, 509.
- Cypris Liassica?, 512.
- Cyrena fluminalis*, Mr. Prestwich on the occurrence of, near Hull, 446.
- , Mr. J. G. Jeffreys on the, 473.
- Cythere (Bairdia) ampla, 308.
- plebeia, 308.
- Schauthothiana, 308.
- (Cytherideis) Jonesiana, 308.
- Dalmally in the Highlands, 217.
- Dalnacardoch in the Highlands, 221.
- Daubrée, M., award of the Donation-fund to, xxx.
- Dawson, Dr. J. W., on a Carpolite (*Trigonocarpum Hookeri*) from the coal-formation of Cape Breton, 525; on an erect *Sigillaria* from the South Joggins, Nova Scotia, 522; on an undescribed fossil fern from the lower coal-measures of Nova Scotia, 5.
- Dentalium Sorbyi, 302.
- Denudation of soft strata, the Rev. O. Fisher on the, 1.

INDEX TO THE PROCEEDINGS.

- Devonian rocks of Peru and Bolivia, 51;
of the Rocky Mountains, 442.
- Diagram of a restored *Pteraspis*, 165.
- Diluvial formations of Bolivia and Peru, 9, 17.
- Dioritic rocks of Bolivia and Peru, 29.
- Discina Townshendi, 499.
- Dolomite at Warnsworth Quarry, near Doncaster, 291.
- Donations to the Library, xii, 114, 241, 369, 556; Museum, x.
- Doncaster, the small-grained dolomite near, 291.
- Donegal, the metamorphic rocks in the county of, 268.
- Drew, F., Esq., on the succession of rocks in the Hastings Sand in the northern portion of the Wealden Area, 271.
- Drift of the Pacific coast, Vancouver Island, North America, 406.
- Dulwich, Mr. C. Rickman on the sections at, 6.
- Dunkeld and Blair Athol, 262.
- Dun Tolleah Hills in the Highlands of Scotland, sectional view of the, 196.
- Durham, Permian beds of, compared with those of South Yorkshire, 296, 316.
- Durine limestone, 86.
- Dykes, J. W., Esq., on the increase of land on the Coromandel coast, 553.
- Earthquake at Mendoza, the occurrence of an, 553.
- Elevations and depressions of the earth in North America, 381.
- Elphin and Craig-a-Chnochan, 101.
- Estheria minuta, 512.
- Everest, Rev. R., on the lines of deepest water around the British Isles, 534.
- Favosites* (?) from Oruro, 66.
- Fern*?, *rhizome* of *a*, from Mangali, 340.
- Fisher, the Rev. O., on the denudation of soft strata, 1.
- Fitzgerald River in Western Australia, section of the strata on the, 481.
- Flint implements in beds of post-pliocene gravel and clay, Mr. J. Prestwich on, 362.
- Foliation and stratification of the crystalline rocks of the Highlands, 232.
- Fontan, M. A., on two bone-caves in the Montagne du Ker at Massat, in the department of the Ariège, 468.
- Forbes, D., Esq., on the geology of Bolivia and Southern Peru, 7.
- Forfar and Kincardine, the Rev. H. Mitchell on the Old Red Sandstone of, 145.
- Forfarshire, Mr. J. Powrie on the Old Red Sandstone of, 534.
- Fort Edmonton, Rocky Mountains, sections near, 424.
- Fossil fern from the lower coal-measures of Nova Scotia, Dr. J. W. Dawson on, 5.
- Fossil flora of New South Wales, 343, 349, 354; of Central India and Bengal, 325, 350.
- Fossil plants from Nâgpur, Central India, 325.
- Fossils at Dulwich and Peckham, 6; at Kelsey Hill, near Hull, list of, by Mr. J. G. Jeffreys, 447; found in the Worcester and Hereford railway cuttings, Mr. Salter on the, 161; from the Andes, 62; Ludlow bone-bed, 549; Western Australia, 482; of the chalk-rock, 167; Indian plant-bearing sandstones and coal-fields, 342, 349; Rhætic beds, 498.
- Frant, section in the Ashdown sand at Riverdale, near, 286.
- Frome, Rhætic fossils found near, 499.
- Gairloch in the Highlands, 102.
- Geikie, A., Esq., and Sir R. I. Murchison on the altered rocks of the Western Islands of Scotland, and the north-western and central Highlands, 171.
- Geology of Bolivia and Southern Peru, 7; the country between Lake Superior and the Pacific Ocean, Dr. Hector on the, 388.
- Georgia, the Gulf of, cretaceous strata of Vancouver Island and, 428.
- Gervillia antiqua*, 303.
- *keratophaga*, 304.
- *ornata*, 500.
- *præcursor*, 500.
- Gesner, Dr., on elevations and depressions of the earth in North America, 381.
- Glasven in the Highlands, 95.
- Glen Beg in the Highlands, 226; Coe, 215, 266; Lyon, 219, 239, 260, 265; Orchy, 216; Shee, 226; Spean, 213; Tilt, 222.
- Glossopteris*?, 333.
- *Browniana*, var. *Australasica*, 329.
- —, var. *Indica*, 326.
- *leptoneura*, 330.
- *musæfolia*, 329.
- *stricta*, 331.
- Gloucestershire and Warwickshire, sections of the White Lias in, 494.

INDEX TO THE PROCEEDINGS.

- Gold-washings on the River Chuquia-
guillo, near La Paz, 12.
- Grampians, eastern flanks of the, 227.
— to the Firth of Tay, section from
the, 536.
- Granite boulders in West Rosewarne
Mine, Cornwall, Mr. H. C. Salmon
on large, 517.
- Gravelly deposits of Bolivia and Peru,
17.
- Great Glen, the, or Caledonian Canal,
205.
- Greenstone of Knapdale, 140.
- Gregory, F. T., Esq., on the geology
of a part of Western Australia, 475.
- Grinstead Clay, 280.
- Hamilton, W. J., Esq., reply on receiv-
ing for Prof. Bronn the Wollas-
ton Medal, xxix.
- Hampole, Yorkshire, 312.
- Hand Hills, Rocky Mountains, section
from the Red Deer River to the, 418.
- Harkness, Prof. R., on the rocks of
portions of the Highlands of Scot-
land south of the Caledonian Canal ;
and on their equivalents in the north
of Ireland, 256.
- Harley, J., Esq., on the Ludlow Bone-
bed and its Crustacean remains, 542.
- Hastings Sand, Mr. F. Drew on the,
271.
- Hector, Dr. J., on the geology of the
country between Lake Superior and
the Pacific Ocean, visited by the
Government Exploring Expedition
under the command of Capt. J.
Palliser (1857-1860), 388.
- Heights of mountains in Bolivia and
Peru, 8.
- Highlands of Scotland, Mr. T. F.
Jamieson on the south-western,
133 ; Prof. Harkness on the rocks
of portions of, 256 ; Sir R. I. Mur-
chison and Mr. A. Geikie on the
altered rocks of the, 171.
- Hislop, the Rev. S., on the age of the
fossiliferous thin-bedded sandstone
and coal of the Province of Nágpur,
India, 346.
- Homalonotus*, from Illampu, 66.
— *Linæes*, 66.
- Horner, L., Esq., vote of thanks to,
533.
- Horner, L., Esq. (President), address
on presenting the Wollaston-medal
to Mr. W. J. Hamilton for Prof.
Bronn, xxvii ; and to Sir R. Mur-
chison on handing to him the residue
of the Wollaston-fund for M.
Daubrée, xxx ; anniversary address,
February 15, 1861, xxx ; *Notices of
deceased Fellows* : The Rev. Prof.
Baden Powell, xxxi ; Mr. P. J.
Martin, xxxii ; Prof. Dr. J. F. L.
Hausmann, xxxiv ; national geo-
logical survey, xxxiv ; Mr. Darwin
'On the Origin of Species,' xxxix ;
and the criticism thereon by Prof.
Huxley, xxxix ; chemical geology,
xl ; experiments by Sir James
Hall, xli ; and by Dr. Gustav
Rose, xlii ; Prof. Hausmann on
some products obtained from smelt-
ing-furnaces by condensation of
steam, xlii ; 'Lehrbuch der chemi-
schen und physikalischen Geol-
ogie,' by Prof. Gustav Bischof,
xlv ; Becquerel on the formation
of minerals by the agency of water,
xlv ; Scheerer on the plutonic
nature of granite, xlv ; Elie de
Beaumont's 'Sur les émanations
volcaniques et métallifères,' xlv ;
M. Daubrée's observations and
synthetic experiments on the agency
of water in effecting changes in
rocks, xlv and liii ; metamorphism
as defined by Sir Charles Lyell,
xlix ; Coquand's 'Traité des
Roches' referred to, xlix ; M. Delesse
on normal or general, and abnormal
or special metamorphism, l ; Dau-
brée, Bunsen, and Naumann on me-
tamorphic rocks, liv ; relation of
gneiss and granite, lvi ; evidence of
the early existence of the human
race, lx ; discoveries of implements
of human workmanship associated
with bones of extinct quadrupeds,
by Dr. Falconer, Mr. Prestwich,
M. Boucher de Perthes, M. Gaudry,
M. Buteux, M. Beaudoin, M. de
Verneuil, M. E. Collomb, M. Lartet,
Mr. John Evans, Mr. Flower, and
M. de Vibraye, lxi ; observations
made by M. Elie de Beaumont, Prof.
Phillips, the President, M. Lartet,
and M. le Vicomte d'Archiac, lxiii ;
by Dr. Falconer, Baron Anca, and
Capt. Spratt, lxvi ; modern dis-
coveries in ethnology and philology,
lxvii ; questionable authority for
the date "4004 B.C." inserted in
the Bible, lxviii ; conclusion, lxx ;
and appendix, on the antiquity of
man, from the evidence of language,
lxxi.
- Horsham, Weald-clay at, 284.
- Hull, Cyrena fluminalis in sand and
gravel near, 446.

INDEX TO THE PROCEEDINGS.

- Human teeth found in the upper cavern of the Montagne du Ker, 470.
- Huxley, Prof. T. H., on a new species of *Macrauchenia*, 73; on *Pteraspis Dunensis*, 163; on some reptilian remains from north-western Bengal, 362.
- Ilminster, Lias and Rhætic beds at, 485.
- Increase of land on the Coromandel coast, 553.
- Ireland (North of), Prof. Harkness on the rocks of, 256; Permian fossils of, 322.
- Irwin River, Western Australia, the coal-seams on the, 481.
- Islay and Jura, the older rocks of, 206, 207.
- Jamieson, T. F., Esq., on the structure of the south-west Highlands of Scotland, 133.
- Jeffreys, J. G., Esq., on the *Corbicula* (or *Cyrena*) *fluminalis*, geologically considered, 473; list of the fossils at Kelsey Hill, near Hull, by, 447.
- Joass, the Rev. J. M., on the occurrence of Old Red Sandstone fishes at Edderton, Ross-shire, 553.
- Jura, Scotland, the rocks of, 140, 207.
- Kelsey Hill, near Hull, the *Cyrena fluminalis* at, 447.
- Kent, flint implements found in, 365.
- Kincardineshire, the Rev. H. Mitchell on the Old Red Sandstone of, 145.
- Kirkby, W., Esq., on the Permian rocks of South Yorkshire; and on their palæontological relations, 287.
- Kirkbya Permiana, 308.
- Knap and North Curry, sections at, 486.
- Knapdale, the geology of, 138.
- Knorria*? (*Conifer*?), 340.
- Kotá on the Pranhítá, India, 348.
- Lacustrine deposit under the river Sourí, 409.
- Lake Superior and the Pacific Ocean, Dr. J. Hector on the geology of the country between, 388.
- Lake Titicaca, the carboniferous basin of, 49.
- Lambert, A., Esq., and the Rev. W. S. Symonds on the sections of the Malvern and Ledbury Tunnels, 152.
- Lancashire, Permian fossils of, compared with those of South Yorkshire, 320.
- Languedoc, bone-caves in, 468.
- La Roche Percée, in the valley of the Sourí River, 408.
- Lartet, M. E., on the bone-caves at Massat, Languedoc, 473.
- Laurentian gneiss of the Hebrides and north-western Highlands, 172.
- Leda speluncaria, 306.
- Titci, 503.
- Ledbury Tunnel, sections in, 154, 159.
- Lewis, Cambrian conglomerate of the, 175; gneiss of the, 172.
- Lias, the corals of the, 151.
- Library Committee, report of the, ii.
- Lignite at La Roche Percée, in the valley of the Sourí River, 408; of the Red Deer River and Saskatchewan, 418, 421.
- Lima præcursor*, 500.
- Lines of deepest water around the British Isles, the Rev. R. Everest on the, 534.

- Mangali, India, plant-beds of, 347; plants from, 340.
- Marine shells in sand and gravel near Hull, 446.
- Massat, bone-caves at, 468.
- Mendoza, South America, the occurrence of an earthquake at, 553.
- Metamorphic rocks of the county of Donegal, 268.

INDEX TO THE PROCEEDINGS.

- Mexican frontier, section of cretaceous strata on, 413.
Miliola pusilla, 308.
 Mineral-veins of Bolivia and Peru, 31, 60.
 Mitchell, the Rev. H., on the position of the beds of the Old Red Sandstone developed in the counties of Forfar and Kincardine, Scotland, 145.
Modiola minima, 505.
 Montagne du Ker, with the upper and lower caverns, 470.
 Montivaltia from Beer-Crowcombe, 511.
 Moore, C., Esq., on the zones of the Lower Lias and the *Avicula* contourta zone, 483.
 Moorhouse, Yorkshire, 312.
 Murchison, Sir R. I., appendix to the paper on the altered rocks of the Western Islands and Highlands of Scotland, 228; reply on receiving for M. Daubrée the Donation-fund, xxx.
 Murchison, Sir R. I., and A. Geikie, Esq., on the coincidence between stratification and foliation in the crystalline rocks of the Scottish Highlands, 232; on the altered rocks of the Western Islands of Scotland, and the north-western and central Highlands, 171.
 Murray, C., Esq., notice of the occurrence of an earthquake in Mendoza, Argentine Confederation, South America, 553.
 Museum Committee, report of the, ii.
Myacites striato-granulata, 506.
Myalina Hausmanni, 304.
Myoconcha costata, 304.
Myophoria postera, 507.
 Nágpur, Central India, notes by Sir C. J. F. Bumbury on a collection of fossil plants from, 325; the Rev. S. Hislop on the age of the fossiliferous thin-bedded sandstone and coal of the province of, 346.
Naiadita acuminata?, 512.
 Nanaimo, geology of, 431.
Natica minima?, 302.
 — *Oppellii*, 510.
Nautilus Freieslebeni, 297.
 New Brunswick, terraces near Woodstock, 385.
 New Jersey, the cretaceous rocks of, 413.
 New South Wales, fossil flora of, 343, 349, 354.
 Nicol, Prof. J., on the structure of the north-western Highlands, and the relations of the gneiss, red sandstone, and quartzite of Sutherland and Ross-shire, 85.
 Nitrate of soda of Bolivia and Peru, 14.
Næggerathia? (*Cyclopteris?*) *Hislopii*, 334.
 North America, Dr. A. Gesner on elevations and depressions of the earth in, 381; Dr. J. Hector on the geology of a part of, 388.
 North Curry and Knap, sections at, 486.
 Nova Scotia, a fossil fern from the lower coal-measures of, 5; an erect *Sigillaria* from the South Joggins, 522.
 Old Red Sandstone at Edderton, Ross-shire, discovery by Rev. J. M. Joass of fossil fishes in the, 553.
 — of Forfar and Kincardine, the Rev. H. Mitchell on the, 145.
 — of Forfarshire, Mr. Powrie on the, 534.
 Oolitic rocks of Bolivia and Peru, 32.
Orthis Aymara, 68.
Orthis, from Millepaya, 69; from Oruro, 64.
Ostrea fimbriata, 501.
 — *interstriata*, 501.
Palæocrangon socialis, 533.
 Palæozoic rocks of the eastern axis, North America, 436; Rocky Mountains, 442.
Patella or *Pileopsis*(?) from Millepaya, 70.
 Paull Cliff, near Hull, section at, 452, 453.
Pecopteris?, 331.
Pecten Valoniensis, 501.
 Permian fossils of Lancashire, 320; of Ireland, 322.
 Permian or Triassic rocks of Bolivia and Peru, 36.
 Permian rocks and fossils of South Yorkshire, Mr. W. Kirkby on the, 287.
 — strata of Durham and South Yorkshire, tabular view of the, 298.
 Peru (Southern), Mr. D. Forbes on the geology of Bolivia (with 3 plates), 7.
Phacops (Cryphæus) Pentlandii, 65.
 — *latifrons*, 65.
Phyllothea Indica, 335.

INDEX TO THE PROCEEDINGS.

- Pibsbury, Somersetshire, section at, 490, 491.
- Pickburn, Yorkshire, 313.
- Placunopsis alpina*, 500.
- Plan of the Valley of Massat, 469.
- Playfair, Capt. R. L., on the outburst of a volcano near Edd, on the African coast of the Red Sea, 552.
- Pleurophorus angulatus*, 503.
- *elongatus*, 502.
- Pollicipes Rhæticus*, 512.
- Pontefract sandstone, 295.
- Powrie, J., Esq., on the Old Red Sandstone rocks of Forfarshire, 534.
- Prairie-country (North America), general physical features of, 390.
- Prestwich, J., Esq., on some further discoveries of flint implements in beds of post-pliocene gravel and clay, 362; on the occurrence of *Cyrena fluminalis*, together with marine shells of recent species, in beds of sand and gravel near Hull, 446.
- Pteraspis, diagram of a restored, 165.
- Dunensis, Prof. T. H. Huxley on, 163.
- Pteromya Crowcombea*, 506.
- *simplex*, 506.
- Punjab, Mr. J. D. Smithe on the gravel and boulders of the, 163.
- Quoich Lodge, in the Highlands, section at, 203.
- Rájmahál Hills, India, plant-beds of, 349.
- Reconstructed bed on the top of the Chalk, Mr. Whitaker on a, 527.
- Reculvers to Whitstable Bay, Kent, coast-section from, 364; flint implements found at, 365.
- Red Deer River to the Hand Hills, section from the, 418.
- Report, Annual, i; of the Council, i; Library and Museum Committee, ii.
- Reptilian remains from North-western Bengal, Prof. Huxley on some, 362.
- Retepora Ehrenbergi, 307.
- Rhætic beds of the South of England, 483.
- Rickman, C., Esq., on the sections of strata exposed in the excavations at Dulwich, with notices of the fossils found there and at Peckham, 6.
- Rissoa Leighi*, 300.
- Rocky Mountains, geology of the, 440.
- Ross-shire, Laurentian gneiss of, 176.
- Rothliegendes of Pontefract, 295.
- Saline formations of Bolivia and Peru, 13.
- Salmon, H. C., Esq., on the occurrence of large granite boulders at a great depth, in West Rosewarne Mine, Gwincar, Cornwall, 517.
- Salter, J. W., Esq., on some of the higher Crustacea from the British coal-measures, 528; on the fossils found in the Worcester and Hereford Railway cuttings, 161; on the fossils from the High Andes collected by D. Forbes, Esq., 62.
- Saltford, section of the White Lias at, 492.
- Sandstone and Coal of Nágpur, India, the Rev. S. Hislop on the age of the, 346.
- Sargodon tomicus*, Plate xv. fig. 1, 498.
- Saskatchewan River, sections on the, 421, 424.
- Schiehallien, Perthshire, 221.
- Scotland, Mr. T. F. Jamieson on the structure of the South-west Highlands of, 133; Sir R. I. Murchison and Mr. A. Geikie on the altered rocks of the Highlands of, 171; the Rev. H. Mitchell on the Old Red of a part of, 145; Mr. J. Powrie on the Old Red of a part of, 534.
- Scott, M. W. T., Esq., on the "Symon fault" in the Coalbrook-dale coal-field, 457.
- Scur Dhu, in the Highlands, section of, 194.
- Section across Loch Maree at Letter-Ewe, 177; the valley of the Lark, Suffolk, 364; Ouse, near Bedford, 364; along Bow River, Rocky Mountains, 442; Dead-man River, Rocky Mountains, 427; the North side of Loch Broom, 184; at Corry Hourachan, in the Highlands of Scotland, 187; at Craig-an-Knochan, 180; Loch Maree, 191; Loch Ned, 188; Paul Cliff, near Hull, 452; Pibsbury, Somersetshire, 490, 491; Shepton-Mallet, Somersetshire, 515; Stoke St. Mary, near Taunton, 489, 490; Strath-Kennort, in the Highlands, 182; Street, Somersetshire, 489; Westbury-on-Severn, 493; from Ben-y-Gloe Mountains and Strath Ardlie, 263; Callender to Loch Earn, 258; Dunkeld to Blair Athol, 262; Glen Coe to Ballalulish, 266; Glen Lyon to Loch Treig, 265; Jura to Rothesay, 135; Loch Earn to Loch Tay, 260; Loch Tay to Glen Lyon, 260; Loch Torridon across Loch Maree, 191; Malin Head to Inishowen, North of Ire-

- land, 268; Reculvers to Whitstable Bay, in Kent, 364; Skye to the south end of the Great Glen, in the Highlands of Scotland, 206; the Missouri, westward, 413; Red Deer River to the Hand Hills, 418; in Ledbury Tunnel, showing the fault, 159; Sleat, 201; the Ashdown Sand, at Riverhall, near Frant, 286; near Elphin, N.W. Highlands, 101; Erriboll House, 92; Loch Carron, 106; Loch Ailsh, 100; in the Loch Torridon and Loch Carron country, 104; of a gravel-pit at Biddenham, Beds, 367; Assynt, N.W. Highlands, 96; Ben Eay and Leagach, 105; Camas-an-duin, Loch Erriboll, 88; crataceous strata on the Mexican frontier, 413; Driumm-an-tenigh, Loch Erriboll, 89; Glasven, 95; Schiehallien, Perthshire, 221; Scur Dhu, 194; Sutherland and Ross, 86; the Ardsheal Peninsula, 266; Carboniferous basin of Lake Titicaca, 49; "Chalk-rock" in Surrey, 169; Wiltshire, 167; coal-seams on the Irwin River, Western Australia, 481; Corocoro copper-mines, 41; Cretaceous System as developed in British North America, 412; Cretaceous rocks of New Jersey, 413; Dieu Tolleah Hills, Highlands, 196; Durine District, 87; east side of Lough Foyle, Donegal, 268; exterior range of the Rocky Mountains, 427; Island of Islay, 206; Seil, 212; Old Red Sandstone in Forfarshire, 536; Permian strata in South Yorkshire, 290; right bank of the Saskatchewan River, 421; strata in the Coalbrookdale Coal-field, 464; terraces near Woodstock, New Brunswick, 385; Tertiary Lignite group in the Valley of the Souris River, 408; Tunbridge Wells Sand, near Strawberry Hill, 286; the Wealden Formation on the north side of the Weald, 276; White Lias at Saltford, 492; Steven's Hill, Long Sutton, 491; on Loch Maree, N.W. Highlands, 104; the Fitzgerald River in Western Australia, 481; North Saskatchewan, 410; South Saskatchewan, 395; south side of Loch More, N.W. Highlands, 93; Worcester and Hereford Railroad, including the Malvern and Ledbury Tunnels, 154; through Sleat in Skye, 200.
- Sections across Western Australia, 481; at Batheaston and Paulton, near Bath, 492, 493; Dulwich, 6; Ilminster and Beer-Crowcombe, 485; Kelsey Hill, near Hull, 447, 454; North Curry and Knap, 486; the stations along the Holderness Railway, 456; in the Malvern Tunnel, 156, 157; West Rosewarne Mine, Cornwall, 518; near Hedon, between Hull and Kelsey Hill, 455; of White Lias at Lyme Regis, 494; in Gloucestershire and Warwickshire, 494; on the Saskatchewan River, North America, 421, 424, 426.
- Seil, section of the Island of, 212.
- Selwyn, Capt., sections in the Malvern Tunnel by, 156, 157.
- Shepton-Mallet, section at, 515.
- Sigillaria Brownii, from the South Joggins, Nova Scotia, 522.
- Silurian rocks of Bolivia and Peru, 53; British North America, 439; of the Highlands, 134, 180.
- Sketch of a boulder on the plains south of Carlton, 396.
- Sketch of the gold-washings on the River Chuquiaguillo, near La Paz, 21.
- Skye, older rocks of, 107, 199.
- Sleat (Skye), section in, 201.
- Smith, J. D., Esq., on the gravel and boulders of the Punjab, 163.
- Somersetshire, sections of White Lias in, 489, 490, 491, 492, 493.
- South Joggins, Nova Scotia, Dr. J. W. Dawson on an erect Sigillaria from the, 522.
- South-west Highlands of Scotland, Mr. T. F. Jamieson on the structure of the, 133.
- South Yorkshire, tabular view of the Permian strata of Durham and, 298.
- Spittal of Glenshee, 226, 235.
- Squaloraia, 499.
- Stems of plants*, 340.
- Stenopora Mackrothi, 307.
- Steven's Hill, Long Sutton, section of White Lias at, 491.
- Stoke St. Mary, near Taunton, section at, 489, 490.
- Straparollus Perminus, 302.
- *Suessii*, 511.
- Strath Ardle, Highlands of Scotland, 263.
- Strath-Kennort, section of south side of, 182.
- Stratification and foliation in the crystalline rocks of the Scottish Highlands, Sir R. I. Murchison and Mr. Geikie on the coincidence between, 232.
- Street, Somersetshire, section at, 489.

INDEX TO THE PROCEEDINGS.

- Suffolk, discovery of flint implements in gravel at Rampart Hill and Horne in, 363.
- Superficial deposits in the country between Lake Superior and the Pacific Ocean, 392.
- Symonds, the Rev. W. S., and A. Lambert, Esq., on the sections of the Malvern and Ledbury Tunnels (Worcester and Hereford Railway) and the intervening line of railroad, 152.
- “Symon fault” in the Coalbrook-dale coal-field, Mr. M. W. T. Scott on the, 457.
- Table of British “Rhetic” fossils, 513; fossils occurring in the Lower Old Red Sandstone, 146; heights of mountains in Bolivia and Peru, 8; the Old Red Sandstone of Scotland, 149; the Permian fossils of Durham and South Yorkshire, 310, 318; the Permian strata of Durham and South Yorkshire, 298.
- Teniopteris danaoides*?, 332.
- Tentaculites Scienczii*, 67.
- *supremus*, 67.
- Terebratula elongata*, 306.
- Terrace-deposits of the Rocky Mountains, age of the, 405.
- Terraces in California, 404; the valley of Kicking-horse River, Rocky Mountains, 402; of the Lake Superior Basin, 393.
- Tertiaries on the eastern slope of the Missouri Côteau, North America, 407.
- Tertiary formations of Peru, 9.
- Thamnisus dubius*, 307.
- Tilehurst, Berks, reconstructed bed on the top of the Chalk at, 527.
- Tongue, sandstone and quartzite of, 92.
- Tookey, Mr. C., analysis of the Lignite from the valley of the Souris River by, 409.
- Triassic or Permian rocks of Bolivia and Peru, 36.
- Trigonocarpum Hookeri*, from the coal-formation of Cape Breton, 525.
- Trochus nudus*, 510.
- *Waltonii*, 510.
- Tunbridge Wells, Weald-clay near, 273.
- Tunbridge Wells Sand, 274, 279, 280.
- Turbo Helicinus, 297.
- Turritella Altenburgensis*, 300.
- Tyndrum in the Highlands, 218.
- Valleys of Essex, the Rev. O. Fisher on the, 1.
- Vancouver Island and the Gulf of Georgia, Cretaceous strata of, 428; Drift of, 406.
- Vertebraria*?, 338.
- Volborth, Dr. A., on Conodonts in the Ludlow Bone-bed, 551.
- Volcanic rocks of Bolivia and Peru, 22.
- Volcano near Edd, the outburst of a, 552.
- Vote of thanks to L. Horner, Esq., 533.
- Wadhurst Clay, 275, 279.
- Warnsworth Quarry, near Doncaster, the small-grained dolomite at, 291.
- Weald Clay, Hastings Sand, and Ashburnham beds, Mr. F. Drew on the, 272.
- Wealden area, Mr. F. Drew on the succession of beds in the Hastings Sand in the northern portion of the, 271.
- Westbury-on-Severn, section at, 493.
- Western Australia, Mr. F. T. Gregory on the geology of a part of, 475.
- Western Islands of Scotland, Sir R. I. Murchison and Mr. A. Geikie on the altered rocks of the, 171.
- Whitaker, W., Esq., on a reconstructed bed on the top of the Chalk, and underlying the Woolwich and Reading beds, 527; on the Chalk-rock, the topmost bed of the Lower Chalk, in Berkshire, Oxfordshire, Buckinghamshire, &c., 166.
- White Lias in Gloucestershire and Warwickshire, 495; in Somersetshire, 486.
- Whitstable Bay, coast-section from Reculvers to, 364.
- Wollaston Donation-fund, award of the, xxx; Medal, xxvii.
- Woodstock, New Brunswick, terraces near, 385.
- Yuccites*?, 341.
- Zones of the Lower Lias and the Avicula contorta zone, Mr. C. Moore on the, 483.

THE END.
