

ALPHABETICAL INDEX

TO THE

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

[The fossils referred to are described; and those of which the names are printed in italics are also figured.]

- Abnormal conditions of Secondary deposits, Mr. C. Moore on, 449, 481.
Actæonina Jenkinsiana, 154.
— *Morrisiana*, 153.
— *Sharpeana*, 154.
Adventure and Medina Banks, chart showing the, 293.
Africa and Sicily, former connexion of, 293.
Africa, Prof. T. H. Huxley on Dinosaurian Reptiles from South, 1.
Africa, Mr. E. Tate on Secondary fossils from South, 139.
Alaria coronata, 152.
— *fusiformis*, 542.
— *rudis*, 542.
Alps and the Himalayas, Mr. H. B. Medlicott on the, 322.
Amberleya alpina, 544.
— *apicalis*, 555.
— *grandis*, 555.
— *turrita*, 556.
Ammonites angulatus in Great Britain, zone of, 305; in Ireland, zone of, 302, 306.
Ammonites Bucklandi in Ireland, zone of, 303; in Somersetshire, zone of, 497; in South Wales, zone of, 531.
Ammonites planorbis in Ireland, zone of, 299; in Somersetshire, zone of, 467.
Ammonites plicomphalus, 251.
— *subanceps*, 150.
Ampullaria (?) *ignobilis*, 153.
Analyses of chalk and chalk-marl, 389; clays, 390; consolidated blocks from the Drift, 113; rocks from the Malvern Hills, 353; variegated strata, Mr. G. Maw on, 114.
Andes, Mr. W. Wheelwright on the discovery of coal on the eastern slope of the, 197.
Anniversary Address of the President, xxix-lxxiv. See also Smyth, W. W., Esq.
Annual Report, i.
Arca (Cucullea?) Jonesi, 161.
Argyll, Duke of, on a Posttertiary Lignite, or Peat-Bed, in the district of Kintyre, Argyllshire (Abstract), 196.
Ash, analyses of volcanic, 353.
Asplenites lobata, 146.
Astarte Longlandsiana, 158.
— *Pinchiniana*, 157.
Aulophyllum, Dr. P. Martin Duncan and Mr. James Thomson on, 327.
Aulophyllum Edwardsi, 329.
Australia, Rev. W. B. Clarke on marine fossiliferous Secondary formations in, 7.
Avicula nuda, 540.
Award of the balance of the Wollaston Donation-fund, xxviii; Medal, xxvii.
Aylesbury, section across the head of the vale of, 402.
Baggy Point, 604.
Barbary, Mr. G. B. Stacey on the geology of Benghazi, 384.
Barle, valley of the, 589.
Barnstaple, 601.
Basaltic dyke in the Mendip Hills, 451.
Batheaston, section at, 458.
Bath, Liassic deposits near, 495.
Bears, Mr. G. Busk on the dentition of fossil, 342.
Beaufort beds, South Africa, 143.
Bedminster, section at, 500.

INDEX TO THE PROCEEDINGS.

- Beer Crowcombe section, 467.
 Belchford, Lincolnshire, section of Drift near, 234.
 Belemnites acutus in Ireland, zone of, 304.
Belemnites Africanus, 151.
 — elongatus?, 539.
 — minimus, 251.
Belinurus Regina, 37.
 Benghazi, Barbary, Mr. G. B. Stacey on the geology of, 384.
Berenicea antipodum, 162.
 Binbrook, Lincolnshire, section from Wellingham House to, 243.
 Blackwater, section across the valley of the, 402, 415.
 Bone-caves of Malta, 283.
Bos longifrons, 176.
 Boulder-clay in Norfolk, Mr. F. W. Harmer on the existence of a third, 87.
 Brachiopoda from the Devonian rocks, 648, 656, 666; Lower Lias, 539.
 Brazil, Mr. E. Thornton on a coal-field in the Province of St. Catherine's, 386.
 Brendon Hills, 593.
 Brick-earths of Crayford and Grays, section showing the relations of the, to the Thames gravel, 409; the Thames valley, Mr. W. Boyd Dawkins on the Lower, 91.
 Bridgend, section at, 512; zone of *Ammonites angulatus* near, 307.
 Brill, Buckinghamshire, Purbeck beds at, 197.
 Bristol, Lower Lias near, 310; sections of Liassic deposits near, 500.
 Bristow, H. W., Esq., on the Lower Lias or Lias Conglomerate of a part of Glamorganshire, 199.
 British fossil Oxen, Mr. W. Boyd Dawkins on the, 176.
 Broadfield Down, Rhætic beds at, 504.
 Brocastle, fossils from, 524; Infralias of, 13, 23; section at, 521.
 Brodie, Rev. P. B., on the Drift in a part of Warwickshire, and on the evidence of Glacial action which it affords, 208; on the presence of the Purbeck Beds at Brill in Buckinghamshire; and on the Superior Estuarine Sands there and at certain places in Oxfordshire and Wiltshire, 197.
 Buckingham, section of the Glacial beds near, 398.
 Buckinghamshire, Purbeck beds at Brill, 197.
 Burton, F. M., Esq., on the Rhætic beds near Gainsborough, 315.
 Bush Down, section from the Drewsteignton valley to, 420.
 Bushman River, South Africa, 149.
 Busk, G., Esq., on certain points in the dentition of fossil Bears, and on the relation of *Ursus prisceus* to *U. ferox* (Abstract), 342.
 Bye-law passed at a Special General Meeting, 322.
 Cambrian rocks of St. David's, Mr. J. W. Salter and Mr. H. Hicks on a new *Lingulella* from the red Lower, 339.
 Camel Hill railway-cutting, section at, 461.
 Camerton, section at, 471.
 Cam, section across the valley of the, 402.
 Canada, new specimens of *Eozoon* from, 257.
 Canada West, Laurentian rocks in the county of Hastings, 256.
 Cannington Park limestone, 579.
 Cannington Park, section from Wills Neck to, 584.
 Canterbury, N. Z., Dr. Julius Haast on the geology of, 342.
 Carboniferous and Devonian Brachiopoda, 659.
 Carboniferous fossils, 669.
 Carboniferous Limestone, abnormal Secondary deposits upon the, 481; of the Mendip Hills, 451.
 Carboniferous rocks of the valley of the Teign, 419.
Cardita nuculoides, 162.
 Carpenter, Dr. P. P., and Dr. J. W. Dawson on a new Pulmonate Mollusk [*Zonites (Conulus) prisceus*] from the Coal-formation of Nova Scotia, 330.
 Carpenter, Dr. W. B., notes on Fossils recently obtained from the Laurentian rocks of Canada, 257.
 Cataract, geological description of the First, 40, 115.
 Caves of Malta, Capt. T. A. B. Spratt on the, 283.
Cerithium nodulosum, 543.
 — *pellucidum*, 542.
 — *pentacosta*, 542.
 — *planicostatum*, 542.
 — *spiratum*, 543.
 — Tylori, 313.
 Chalk and chalk-marl, analyses of, 389.
 Chalk, derivation of White Tertiary clays from, 388.
 Chalk of Lincolnshire, 235.

INDEX TO THE PROCEEDINGS.

- allacombe, 604.
 ara liassica, 538.
 arter House Liassic lead-mine, 491.
 art showing the position of the
 Adventure and Medina Banks, connect-
 ing Sicily with Africa, 293.
 eiotherian footprint from the
 Keuper Sandstone of Daresbury,
 Cheshire, Prof. W. C. Williamson
 on a, 56.
 emical analyses of consolidated
 blocks from the Drift, 113; varie-
 gated strata, 114.
 emical geology of the Malvern Hills,
 the Rev. J. H. Timins on the,
 352.
 emnitzia Africana, 153.
 eshire, Cheirotherian footprint from
 the Keuper Sandstone of Daresbury,
 56.
 illesford beds to the Fluvio-marine
 Crag, the Rev. O. Fisher on the
 relation of the, 175.
 iton radiatum, 543.
 laris pustulifera, 163.
 arke, G., Esq., on the geological
 features of Mauritius (Abridged),
 185.
 arke, Rev. W. B., on marine fossil-
 iferous Secondary formations in
 Australia, 7.
 yhanger to Whitfield, section from,
 593.
 ays of the Lower Tertiaries, Mr. G.
 Maw on the sources of the materials
 composing the White, 387.
 iffs and caves of Malta, sketch of
 some of the, 285.
 iffs and Escarpments, 265.
 al-basins of Somersetshire and South
 Wales, Mr. C. Moore on abnormal
 conditions of Secondary deposits
 when connected with the, 207,
 449.
 al-field in the Province of St. Cath-
 erine's, Brazil, Mr. E. Thornton on
 a, 386.
 al-formation of Nova Scotia, Dr. J.
 W. Dawson on a new Pulmonate
 Mollusk from the, 330.
 al on the eastern slope of the Andes,
 Mr. W. Wheelwright on the dis-
 covery of, 197.
 ast of Sweden, sea-water-level marks
 on the, 191.
 ddenham, section near, 110.
 llingwood, Dr. C., on the sulphur-
 springs of Northern Formosa, 382.
 mbe Martin, 604.
 mpton Dundon, section at, 457.
 Conglomerates of the Mendip Hills,
 455.
 Consolidated blocks in the Drift of
 Suffolk, 110.
 Corals from the Devonian rocks, 647,
 654, 664.
 Corals of the Infralias of South Wales,
 Dr. P. Martin Duncan on the, 12.
 Corbula? Rockiana, 159.
 Cornwall, fossils of North, 669.
 Cowbridge, Liassic beds at, 517.
 Crag, relation of the Chillesford beds
 to the Fluvio-marine, 175.
 Crania liassica, 539.
 Crassatella complicata, 160.
 Crayford, Brick-earth of, 408; section
 at Stoneham's Pit, 96.
 Crendi bone-cave, 284.
 Cretaceous rocks of Sinai, Echinoder-
 mata from the, 38.
 Croydon Hill to Yard, section from,
 594.
 Crustacea allied to Eurypterus, 28.
 Crustacean bed of the Lias, 465.
 Cucullæa (Macrodon) Atherstonei, 161.
 — Kraussii, 161.
 Curvature of slaty laminae, 323.
 Cyclophyllum, a new genus of the
 Cyathophyllidæ, Dr. P. Martin
 Duncan and Mr. James Thomson
 on, 327.
 Cyclophyllum Bowerbanki, 328.
 — fungites, 329.
 Cyclopteris Jenkinsiana, 146.
 Cypricardia Niveniana, 160.
 — Winwoodii, 541.
 Cyprina Borchersii, 161.
 Daresbury, Cheshire, section from
 Weston Point to, 56 (plate).
 Dartmoor to Piddleton Down, section
 from, 420.
 Dawkins, W. B., Esq., on the age of the
 Lower Brick-earth of the Thames
 Valley, 91; on the British fossil
 Oxen, Part II. *Bos longifrons*,
 Owen, 176; on the dentition of
Rhinoceros leptorhinus, Owen, 213.
 Dawson, Dr. J. W., on fossils recently
 obtained from the Laurentian rocks
 of Canada, and on objections to the
 organic nature of *Eozoon*, with
 notes by Dr. W. B. Carpenter, 257;
 on the discovery of a new Pulmonate
 Mollusk [*Zonites (Conulus) prisceus*]
 in the Coal-formation of Nova
 Scotia, with a description of the
 species by Dr. P. P. Carpenter, 330.
Delphinula nuda, 543.
 — *reflexilabrum*, 544.
 Dentition of fossil Bears, 342; *Rhi-*

INDEX TO THE PROCEEDINGS.

- noceros leptorhinus*, Mr. W. Boyd Dawkins on the, 213.
- Denudation, Mr. W. Whitaker on sub-aërial, 265; of the Mendip Hills, Mr. C. Moore on the, 454.
- Devon, Devonian fossils of North, 372, 635; Mr. R. Etheridge on the physical structure of North, 251, 568.
- Devonian fauna, stratigraphical value of the species comprising the, 662.
- Devonian fossils, palæontological value of the, 251, 612; stratigraphical considerations on the, 677.
- Devonian rocks of Great Britain, table showing the entire fauna and flora of the, 616-634; the Mendip Hills, 451.
- Devonshire, relative distribution of fossils throughout the rocks of North, 372; subdivisions of the rocks of North, 372, 568.
- Dictyopterus? simplex*, 141.
- Dinosaurian Reptiles from the Stormberg Mountains, 1.
- Discina Davidsoni*, 540.
- *Holdeni*, 314.
- Discohelix cornucopia*, 551.
- *fimbriatus*, 552.
- Donations to the Library, ix, 58, 120, 267, 430; Museum, vii.
- Dorsetshire, zone of Ammonites angulatus in, 311.
- Drewsteignton valley to Bush Down, section from the, 420.
- Drift in a part of Warwickshire, the Rev. P. B. Brodie on the, 208; pit between Belchford and Scamblesby, 234; of Suffolk, Mr. G. Maw on the occurrence of consolidated blocks in the, 110; the North of England, Mr. J. Curry on the, 40.
- Dulverton, 586.
- Duncan, Dr. P. Martin on some Echinodermata from the Cretaceous rocks of Sinai, 38; on the Madreporaria of the Infraalias of South Wales, 12.
- Duncan, Dr. P. Martin, and J. Thomson, Esq., on Cyclophyllum, a new genus of the Cyathophyllidæ, with remarks on the genus Aulophyllum, 327.
- Dunster, 585.
- Ecca beds, South Africa, 142.
- Echinodermata from the Cretaceous rocks of Sinai, Dr. P. Martin Duncan on, 38.
- Egypt, Mr. Hawkshaw on the geology of the First Cataract, 40.
- Elgin, new specimen of Telerpeton from, 77.
- England, Drift of the north of, 40; Mr. S. V. Wood on land-glaciation during the earlier part of the Glacial period in, 84; on the Postglacial deposits of the south-east of, 394.
- Eozoon*, Dr. J. W. Dawson on objections to the organic nature of, 261; Dr. W. B. Carpenter on, 257; Sir W. E. Logan on new specimens of, 253.
- Erith, section at White's Pit, 97.
- Eruptive rocks, analyses of, 355.
- Escarpments, 265.
- Etheridge, R., Esq., on the physical structure of West Somerset and North Devon, and on the palæontological value of the Devonian fossils, 251, 568.
- Eurypteridæ, relation of the Xiphosura to the, 28.
- Eurypterus remipes*, 37.
- Euskelesaurus Brownii, 4.
- Ewenny, Infraalias of, 13, 23; section at, 520.
- Exapinurus Schrenkii*, 37.
- Faults in Lincolnshire, 248.
- Faunas, relation of Præglacial and Postglacial, 106.
- Felstones, analyses of, 358.
- Felstone of the Lias, 466.
- Fisher, Rev. O., on the relation of the Chillesford Beds to the Fluvio-marine Crag (Abstract), 175.
- Flint Implements from Thetford, Norfolk, 45.
- Flower, J. W., Esq., on some Flint Implements lately found in the Valley of the Little Ouse River, at Thetford, Norfolk, 45.
- Fluvio-marine Crag, relation of the Chillesford beds to the, 175.
- Fontaine-étoupe-Four, Lias at, 476.
- Footprint of *Cheirotherium*, 56.
- Foraminifera-zone of the Lias, 473.
- Foreign Devonian fossils compared with English, 616-634.
- Foreland, North, 596.
- Formosa, Dr. C. Collingwood on the sulphur-springs of Northern, 382.
- Fossil British Oxen, Mr. W. Boyd Dawkins on, 176; Crustacea, Mr. Henry Woodward on, 28.
- Fossiliferous deposits of North Devon, 313.
- Fossils from Australia, 7; Brocastle, 524; Charter House lead-mine, 494; Elgin, 77; Holwell, 486; Llanbethian, 519; Munger, 475; Sinai, 38; South Africa, 139; Stout's Hill and Keynsham, 503; Weston, Bath,

INDEX TO THE PROCEEDINGS.

- 498; Whatley, 480; the Ammonites-Bucklandi beds in South Wales, 532; Hunstanton series in Lincolnshire, 235; Infralias of South Wales, 12; Laurentian rocks of Canada, 257; Liassic deposits of Somersetshire and South Wales, 557-566; Lower Brick-earths, 100, 101, 107; Lower Cambrian rocks, 339; Lower Lias, 538; Shepton Mallet railway-section, 509; Sutton Stone, 306, 529; Tealby series, 246; Upper Ludlow sandstone, 333; White Lias, 465; zone of Ammonites angulatus, 311; A. planorbis, 301; Belemnites acutus, 304; of North Cornwall, 669; the Devonian rocks, Mr. R. Etheridge on the, 251, 612; stratigraphical considerations on the, 677.
- Fossils throughout the North Devon series, Mr. Townshend M. Hall on the relative distribution of, 371.
- France, Infralias of, 19.
- Freshwater fossils from Charter House, 493.
- Fucoides clavatus, 163.
- Fullesby to near South Ormsby, Lincolnshire, section from, 247.
- Fusus Jernynsii*, 545.
— *Terquemi*, 544.
- Gainsborough, Mr. F. M. Burton on the Rhætic beds near, 315; zone of Ammonites angulatus near, 306.
- Geelhoutboom series, South Africa, plants of the, 144.
- Geology of Benghazi, Barbary, 384; Lincolnshire, 227; the Malvern Hills, the Rev. J. H. Timins on the chemical, 352; Mauritius, 185; North Devon and West Somerset, 251, 568; the First Cataract, Upper Egypt, 40, 115; Princes Islands in the Sea of Marmora, 381; Province of Canterbury, N. Z., Dr. Julius Haast on the, 342; Quantock Hills, 581; Valleys of the upper part of the River Teign and its feeders, Mr. G. Wareing Ormerod on the, 185, 418.
- Glacial action afforded by the Drift in a part of Warwickshire, the Rev. P. B. Brodie on the evidence of, 208.
- Glacial and Postglacial deposits of the valley of the Thames, 396.
- Glacial period in England, evidence of Land-glaciation during the earlier part of the, 84; in New Zealand, deposits of the, 346.
- Glamorganshire, Mr. H. W. Bristow on the Lower Lias or Lias-conglomerate of a part of, 199; Mr. C. Moore on the Liassic deposits of, 512; zone of Ammonites angulatus in, 307.
- Glossopteris Browniana*, 140.
— *Sutherlandi*, 140.
- Gloucestershire, zone of Ammonites angulatus in, 307.
- Gold in New Brunswick, Mr. W. S. Shea on recent discoveries of, 197.
- Goldsoncot, 594.
- Granite, Mr. G. Maw on the supposed derivation of White Tertiary clays from, 392.
- Granite of the valley of the Teign, 419.
- Grantia antiqua*, 538.
- Gravels of the valley of the Teign, 419.
- Grays, Brick-earth of, 408.
- Grays Thurrock, section at Mr. Pearson's Pit, 94.
- Gurney Slade, Liassic dykes at, 491.
- Haast, Dr. J., on the Geology of the Province of Canterbury, N. Z., principally with reference to the deposits of the Glacial Epoch at the western base of the Southern Alps, 342.
- Hall, T. M., Esq., on the relative distribution of fossils throughout the North Devon series, 371.
- Hamites Africanus*, 150.
- Hangman grits, 604.
- Hapsford Mills, section at, 490.
- Harmer, F. W., Esq., on the existence of a Third Boulder-clay in Norfolk (Abridged), 87.
- Hastings, Canada West, Laurentian rocks in the county of, 256.
- Hatch Beauchamp, section at, 468.
- Havering to the North Downs, section from, 398.
- Hawkshaw, J. C., Esq., on the geology of the First Cataract, Upper Egypt, 40, 115.
- Heddon's Mouth, 598, 600.
- Helesborough, 607.
- Helix Dawsoni*, 545.
- Hemiaspis limuloides*, 37.
- Hicks, H., Esq., and J. W. Salter, Esq., on a new Lingulella from the red Lower Cambrian rocks of St. David's, 339.
- Himalayas, Mr. H. B. Medlicott on the Alps and the, 322.
- Hollybush sandstone, eruptive rocks of the, 355.
- Holwell, Carboniferous Limestone and Liassic dykes at, 483.
- Hornblendië rocks, analyses of, 363.

INDEX TO THE PROCEEDINGS.

- Hunstanton Limestone in Lincolnshire, 229; beds above the, 235; beds below the, 242.
- Huxley, Prof. T. H., on some remains of large Dinosaurian Reptiles from the Stormberg Mountains, South Africa, 1; on a New Specimen of *Telerpeton Elginense*, 77.
- Hydrobia, sp., 545.
- Ilford, section at Uphill Pit, 92.
- Ilfracombe, 604, 608.
- Infralias, Mr. C. Moore on the use of the term, 533; of Luxembourg and France, 19; South Wales, Madreporaria of the, 12.
- Insect and Crustacean beds of the Lias, 465.
- Ireland; Mr. R. Tate on the Lower Lias of the north-east of, 297.
- Isastræa Richardsoni, 162.
- Jones, Prof. T. R., on the Secondary deposits of South Africa, 142, 149, 171.
- Judd, J. W., Esq., on the strata which form the base of the Lincolnshire Wolds, 227.
- Jukes, J. B., Esq., on the grouping of the rocks of North Devon and West Somerset (Title only), 7.
- Jurassic fossils from Australia, 8; South Africa, 150.
- Karoo beds, fossil Plants from the, 140.
- Keuper sandstone, Cheirotherian footprint from the, 56.
- Keuper, sections of, 468.
- Keynsham, Lower Lias at, 502.
- King's Sutton to the Glacial beds beyond Buckingham, section from, 398.
- Kintyre, Argyllshire, Posttertiary lignite in the district of, 196.
- Kirkham, J. W., Esq., section from Weston Point to Daresbury, Cheshire (Plate), 56.
- Koonap beds, South Africa, 142.
- Lake-district, Drift of the, 40.
- Laleston Quarry, Ostrea-bed at, 519.
- Laminae, terminal curvature of slaty, 323.
- Langan Lead-mine, 533.
- Laurentian rocks of Canada, Dr. J. W. Dawson on fossils from the, 257; the county of Hastings, Canada West, 256.
- Lava, analyses of, 353, 358.
- Lead-mine at Charter House, 491; Langan, 533.
- Lea, section across the valley of the, 398.
- Lee, 610.
- "Lethe" Caverns, Barbary, section of the, 385.
- Lias-conglomerate of a part of Glamorganshire, Mr. H. W. Bristow on the, 199.
- Lias of the North-east of Ireland, Mr. Ralph Tate on the, 297.
- Liassic deposits near Bath, 495; of Somersetshire, 459; the South Wales District, 511.
- Liassic dykes at Gurney Slade, 491; Holwell, 483.
- Liassic lead-vein at Charter House, 491; Langan, 533.
- Library, Donations to the, ix, 58, 120, 267, 430.
- Lignite in the district of Kintyre, Argyllshire, the Duke of Argyll on a Posttertiary, 196.
- Lima densicosta*, 541.
- *Destongchampsii*, 541.
- *neglecta*, 156.
- *obliquissima*, 156.
- *scrobiculata*, 541.
- Limestone of Cannington Park, 579.
- Limulus polyphemus, 37.
- Lincolnshire Wolds, Mr. J. W. Judd on the strata which form the base of the, 227.
- Lincolnshire, zone of Ammonites angulatus in, 306.
- Lingula from Sloly quarry, note on the species of, 381.
- Lingulella ferruginea*, 340.
- —, var. *ovalis*, 341.
- Lingulella* from the red Lower Cambrian rocks of St. David's, Mr. J. W. Salter and Mr. H. Hicks on a new, 339.
- List of fossils associated with *Rhyncheros leptorhinus*, 225; from Bridgend, 517; Brocastle, 525; Camerton, 473; Holwell, 486; Llanbethian, 519; Munger, 475; South Africa, 148, 166, 170; Stout's Hill and Keynsham, 503; the Ammonites-Bucklandi beds in South Wales, 532; Charter House lead-mine, 494; Hunstanton series in Lincolnshire, 235; Lower Lias of Somersetshire and South Wales, 557; Shepton Mallet railway-section, 509; Sutton Stone, 309, 530; Tealby series, 246; Weston, Bath, 497; Whatley, 480; Windsor Hill, 509; zone of Ammonites angulatus, 311; Infralias Corals, 22; Mammalia from the Lower Brick-earths, 101, 107; Shells from the Lower Brick-earths, 100; the constituents of the Drift in a part of Warwickshire, 212.

INDEX TO THE PROCEEDINGS.

- Litcham, Mr. S. V. Wood, jun., on a section at, 84.
- Little-Ouse Valley, section across the, 46; map of the, 46.
- Littorina circularis*, 545.
- *ovalis*, 545.
- Llanbethian quarries, near Cowbridge, section in the, 518.
- Lod Huish, 594.
- Logan, Sir W. E., on new specimens of *Eozoon*, 253.
- Long Lake, Canada, specimens of *Eozoon* from, 260.
- Louth, Lincolnshire, section at, 241.
- Lower Brick-earths of the Thames Valley, 91; Cambrian rocks, new Lingulella from the, 339; Devonian fossils of West Somerset and North Devon, 635; rocks of North Devon, 594; Lias, fossils from the, 539; near Bristol, 310; of a part of Glamorgan-shire, 199, 307, 512; Somersetshire, 465; the north-east of Ireland, 297; Tertiaries, white clays of the, 387.
- Lucina crassa, 251.
- Ludlow sandstone, tracts of Pteraspis (?) in the Upper, 333.
- Lumachello, 21.
- Luxembourg, Infralias of, 19.
- Lynn, River, North Devon, 596.
- Lynton, 594.
- Mackintosh, D., Esq., on some striking instances of the terminal curvature of slaty laminae in West Somerset, 323.
- Madoc, specimens of *Eozoon* from, 261.
- Madreporaria of the Infralias of South Wales, 12.
- Maghlaek bone-cave, 284.
- Main Down, section across, 593.
- Maldon, section across the valley of the Blackwater at, 415.
- Malta, Capt. T. A. B. Spratt on the Bone-caves of, 283.
- Malvern Hills, the Rev. J. H. Timins on the chemical geology of the, 352.
- Mammalia from the Lower Brick-earths, 101, 107.
- Map of the First Cataract, Upper Egypt, 115; fossiliferous deposits of North Devon, 373; valley of the Little Ouse, 46; valleys of the Upper portion of the River Teign and its feeders, 421; Western slopes of the Southern Alps, Canterbury, New Zealand, showing the present and Postpliocene glaciations, 349; West Somerset and North Devon, 580; showing the extent of the Rhaetic beds near Gainsborough, 321.
- Marks on the coast of Sweden, 191.
- Marston Road section, 482.
- Marmora, geology of the Princes Islands in the Sea of, 381.
- Marton, Lincolnshire, zone of Ammonites angulatus at, 306.
- Mauritius, Mr. G. Clark on the geological features of, 185.
- Maw, G., Esq., on some chemical analyses of variegated strata (Abstract), 114; on the occurrence of consolidated blocks in the Drift of Suffolk, 110; on the sources of the materials composing the white clays of the Lower Tertiaries, 387.
- Medina and Adventure Banks, chart showing the, 293.
- Medlicott, H. B., Esq., on the Alps and the Himalayas (Abstract), 322.
- Medway, section across the valley of the, 406, 412.
- Melania acuta*, 546.
- *Dunravenensis*, 546.
- *nodulo-carinata*, 546.
- Melliha cavern, Malta, 290.
- Mells, Middle Lias at, 480.
- Mendip Hills, geology of the, 451; section across the, 452.
- Microlestes quarry, 487.
- Middle Devonian fossils of North Devon and West Somerset, 640; of South Devon, 643; rocks of North Devon, 601; Lias at Mells, 480; of Somersetshire, 474.
- Minehead, 585.
- Mollusk from the Coal-formation of Nova Scotia, Dr. J. W. Dawson on a new Pulmonate, 330.
- Moore C., Esq., on Abnormal Conditions of Secondary Deposits when connected with the Somersetshire and South Wales Coal-basin, and on the age of the Sutton and South-erndown Series, 207, 449.
- Moraine-accumulations in New Zealand, 346.
- Morte Bay, 610.
- Munger Road Quarry, section in, 474.
- Museum, donations to the, vii.
- Mytilus Jonesi*, 157.
- *Rubidgei*, 157.
- *Stowianus*, 157.
- Nerinea acuminata*, 546.
- *Horneri*, 547.
- *Mendipensis*, 547.
- *rudis*, 547.
- Neritopsis cancellatus*, 548.
- *exigua*, 547.
- *levis*, 547.
- Nettlecombe, 593.

INDEX TO THE PROCEEDINGS.

- New Brunswick, recent discoveries of gold in, 197.
- New Zealand, Dr. Julius Haast on the geology of the Province of Canterbury, 342.
- Nile, section of the valley of the, 117.
- Norfolk, a third Boulder-clay in, 87; flint implements from Thetford, 45.
- North Devon, Mr. R. Etheridge on the physical structure of, 251, 568; series, Mr. Townshend M. Hall on the relative distribution of fossils throughout the, 371.
- North Downs, section from Havering to the, 398.
- North Hill to Pixton Park, West Somerset, section from, 590.
- Norwich, sections across the Yare Valley above and below, 89.
- Nova Scotia, Dr. J. W. Dawson on a new Pulmonate Mollusk from the Coal-formation of, 330.
- Old Red Sandstone of the Mendip Hills, 451.
- Opis triangularis*, 541.
- Ormerod, G. W., Esq., on the geology of the valleys of the upper part of the River Teign and its feeders (Abridged), 185, 418.
- Orosaurus, 5.
- Ostrea-bed of the Lias, 466; in South Wales, 518.
- Ostrea imbricata, 154.
- (*Exogyra*) *Jonesiana*, 154.
- Ouse, section across the valley of the, 398.
- Oxen, Mr. W. Boyd Dawkins on the British fossil, 176.
- Oxfordshire, estuarine sands in, 197.
- Palæontological value of the Devonian fossils, 251, 612.
- Palæozamia* (*Pterophyllum*) *Africana*, 145.
- (*Podozamites*) *Morrisii*, 145.
- (*Otozamites*) *recta*, 144.
- *Rubidgei*, 145.
- Palæozoic rocks of Great Britain, table showing the present census of species in the, 615.
- Patella caperata*, 152.
- *ornata*, 548.
- Peat-bed in the district of Kintyre, Argyllshire, the Duke of Argyll on a Posttertiary, 196.
- Pecopteris Africana*, 146.
- *Atherstonei*, 145.
- *Rubidgei*, 146.
- Pecten cinctus, 250.
- *palosus*, 541.
- *projectus*, 155.
- Pecten Rollei*, 541.
- *Rubidgeanus*, 155.
- *verticillus*, 541.
- Penarth, Rhætic and Liassic deposits at, 512.
- Petherwin fossils, 669.
- Phasianella ? *Sharpei*, 153.
- *turbinata*, 550.
- Phyllothea* ?, sp., 141.
- Piddleton Down, section from Dartmoor to, 420.
- Pinch's Well, near Bath, 495.
- Pinna Sharpei*, 158.
- Pixton Park, West Somerset, section from, 590.
- Planorbis Mendipensis*, 548.
- Placunopsis imbricata*, 154.
- *Rubidgeana*, 155.
- *subjurensis*, 155.
- *undulata*, 155.
- Plan of the Zebbug bone-cave, 289.
- Plants from the Geelhoutboom series, South Africa, 144; Karoo beds, South Africa, 140.
- Pleuratella prima*, 549.
- Pleurotomaria *Brycei*, 313.
- *Buchi*, 550.
- *Mendipensis*, 550.
- Pollicipes rhomboidalis*, 539.
- Porlock, 585, 594.
- Postglacial deposits of the south-east of England, Mr. S. V. Wood on the, 394.
- Postpliocene period in New Zealand, marine accumulations of the, 346.
- Preglacial and Postglacial faunas, 106.
- Prestwichia* (*Limulus*) *rotundata*, 37.
- Princes Islands in the Sea of Marmora, Mr. W. R. Swan on the geology of the, 381.
- Proserpina Lyelli*, 549.
- Pseudoniscus aculeatus*, 37.
- Pteraspis (?), Mr. J. W. Salter on some tracks of, 333.
- Pterocheilus primus*, 549.
- Purbeck beds at Brill, Buckinghamshire, the Rev. P. B. Brodie on the, 197.
- Pyrula liassica*, 550.
- Quantock Hills, geology of the, 581.
- Report, Annual, i; of the Library and Museum Committee, ii.
- Reptiles from the Stormberg Mountains, South Africa, Prof. T. H. Huxley on Dinosaurian, 1.
- Rhætic and Liassic deposits at Penarth, 512.
- Rhætic Beds at Broadfield Down, 504; near Gainsborough, Mr. F. M. Burton on the, 315; of Somersetshire, 459.

INDEX TO THE PROCEEDINGS.

- Rhinoceros Etruscus, 215.
 — *leptorhinus*, 215.
 — *megarhinus*, 214.
 — *tichorhinus*, 213.
 Richmond Park, section across, 406.
Rimula elegans, 551.
 — *liasina*, 551.
Rubidgea Mackayi, 141.
 Ruishton, section of Keuper at, 468.
 Salter, J. W., Esq., and H. Hicks, Esq., on a new *Lingulella* from the red Lower Cambrian Rocks of St. David's, 339.
 Salter, J. W., Esq., on some tracks of *Pteraspis* (?) in the Upper Ludlow Sandstone, 330.
 Sandrock bed, 467.
 Sarsen stone, analysis of, 113.
 Saurian bed of the Lias, 466.
 Scamblesby, Lincolnshire, section of Drift near, 234.
 Secondary deposits, Mr. C. Moore on abnormal conditions of, 207, 449; in Australia, 7; fossils from South Africa, 139.
 Section across the head of the vale of Aylesbury, 402; Isle of Sheppy, from Higham to Stodmarsh, 412; Mendip Hills, 452; valley of the Blackwater, 402, 415; Cam, 402; Lea, 398; Little Ouse, 46; Medway, 406, 412; Ouse, near Buckingham, 398; Yare, above and below Norwich, 89; West Somerset, 590; at Bedminster, 500; Bridgend, 513; Brocastle, 521; Camel Hill railway-cutting, 461; Camerton, 471; Compton Dundon, 457; Hapsford Mills, 490; Hatch Beauchamp, 468; Heddon's Mouth, 600; Holwell, 484; Litcham lime-kiln, 86; Louth, Lincolnshire, 241; Mr. Pearson's Pit, Gray's Thurrock, 94; Pinch's Well, near Bath, 496; Speeton, 241; Stoneham's Pit, Crayford, 96; Trowse Junction, Norfolk, 88; Uphall Pit, Ilford, 92; White's Pit, Erith, 97; Willsbridge railway-cutting, 499; Woodabay, 599; from Chopping's Hill Farm to Crowfield Street, near Coddenham, Suffolk, 110; Clayhanger to Whitfield, 593; Croydon Hill to Yard, 594; Dartmoor to Piddleton Down, 420; Fulleby to near South Ormsby, Lincolnshire, 247; Havering across the Thames valley to the North Downs, 398; Petersham to Cheam railway-station, 406; the Drewsteignton valley to Bush Down, 420; Willingham House to Binbrook, Lincolnshire, 243; Wills Neck across the Quantock Hills to Cannington Park, 584; in a quarry at Wheddon Cross, 587; Munger Road Quarry, 474; the Llanbethian quarries, near Cowbridge, 518; the Vallis, 488; near Shepton Mallet, 505; of a chalk-pit at Tetford Hill, Lincolnshire, 240; coal-shaft at Mells, 481; curved laminae near Wiveliscombe, 324; Drift in a pit between Belchford and Scamblesby, 234; Keuper at Ruishton, 468; Laurentian rocks in the County of Hastings, Canada West, 256; Lias and Carboniferous Limestone at Whatley, 478; Litcham Hill, 85; the Lias-conglomerate as exposed on the Glamorganshire coast, 202; Rhætic beds near Gainsborough, 315, 317; Valley of the Nile eastward of the First Cataract, 117; showing the position of the Thames gravel between Stratford and Purfleet, 409; relations of the Crayford and Grays Brick-earths to the Thames gravel, 409; of the Middle and Upper Glacial deposits to the valley of the Thames, 396.
 Selkirk, Earl of, on some sea-water level marks on the coast of Sweden, 191.
Serpula filaria, 163.
 — (*Vermilia*) *Pinchiniana*, 163.
 — *plicatilis*, 163.
 — *stranguata*, 539.
 Shales, analyses of, 357.
 Shea, W. S., Esq., on recent discoveries of Gold in New Brunswick (Abstract), 197.
 Shells from South Africa, 150; the Devonian rocks, 648, 666; Lower Brick-earths, 100; Lower Cambrian rocks, 339; Lower Lias, 539.
 Sheppy, section across the isle of, 412.
 Shepton Mallet, fossils from, 509; section in a railway-cutting west of, 505.
 Sicily and Africa, former connexion of, 293.
 Sinai, Echinodermata from the Cretaceous rocks of, 38.
 Sketches of parts of the skeleton of *Telerpeton Elginense*, 77.
 Sketch of some of the cliffs and caves of Malta, 285.
 Sloly Quarry, North Devon, note on the species of *Lingula* from, 381.

INDEX TO THE PROCEEDINGS.

- Smyth, W. W., Esq. (President), Address on presenting the Wollaston Medal to G. Poulett Scrope, Esq., xxvii; address on handing to Sir R. I. Murchison for Mr. W. H. Baily the balance of the Wollaston Donation-fund, xxviii; Anniversary Address, February 15, 1867, xxix; *Obituary notices of deceased Fellows*.—Mr. William Hopkins, xxix; Dr. William Whewell, xxxii; Dr. John Lee, xxxv; Mr. George Rennie, xxxv; Professor Henry Darwin Rogers, xxxvii; Mr. Percival Norton Johnson, xxxix; Mr. Charles Maclaren, xli; Mr. George W. Featherstonhaugh, xliii; Mr. Alexander Bryson, xlv; Mr. Parkin Jeffcock, xlv; Mr. James Smith, xlv; Marquis Lorenzo Pareto, xlvii; Dr. Albert Oppel, xlviii; Dr. Nils von Nordenskiöld, xlix; Dr. Charles Théophile Gaudin, l; Don Casiano de Prado, l; Dr. Jaques Amand Eudes-Deslongchamps, lii; extension of geological science, liv; Geological Survey of Great Britain, liv; of Canada, lvi; Lawrence's translation of Cotta, lvi; Zinkel's 'Lehrbuch der Petrographie,' lvii; Haughton's 'Manual of Geology,' lvii; Mohr's 'Geschichte der Erde,' lviii; Bischof's Chemical Geology, lviii; origin of crystalline rocks, lx; origin of serpentine, lxi; *Eozoon Canadense*, lxiv; Daubrée's researches on meteorites, lxvi.
- Snodland, section from the mouth of the Thames to near. 406.
- Solarium lunatum*, 552.
- Somerset, Mr. D. Mackintosh on terminal curvature of slaty laminae in West, 323; Mr. R. Etheridge on the physical structure of West, 579.
- Somersetshire and South Wales coal-basins, Mr. C. Moore on Secondary deposits connected with the, 207, 449.
- South Africa, Mr. R. Tate on Secondary fossils from, 139.
- South Devon, Middle Devonian fossils of, 643.
- Southern Alps, New Zealand, geological structure of the, 343.
- Southern-down series, 15, 23, 199, 207, 307, 526.
- South Ormsby, Lincolnshire, section from Fulletby to near, 247.
- South Wales coal-basin, Mr. C. Moore on Secondary deposits connected with the, 207, 449, 511.
- South Wales, Madreporaria of the Infralias of, 12.
- Special General Meeting, new bye-law passed at a, 322.
- Speeton, section at, 241.
- Sphenopteris antipodum*, 146.
- Spirifer-bank of the Lias, 473.
- Sponge from the Lower Lias, 538.
- Spratt, Capt. T. A. B., on the bone-caves near Crendi, Zebbug, and Meliha, in the Island of Malta, 283.
- Stacey, G. B., Esq., on the geology of Benghazi, Barbary, and an account of the Subsidences in its vicinity, 384.
- St. Catherine's, Brazil, coal-field in the Province of, 386.
- St. David's, Mr. J. W. Salter and Mr. H. Hicks on a new *Lingulella* from, 339.
- Stormberg beds, South Africa, 143.
- Stormberg Mountains, South Africa, Dinosaurian Reptiles from the, 1.
- Stormy quarry, Liassic beds at, 520.
- Stout's Hill, Lower Lias at, 502.
- Strata, analyses of variegated, 114.
- Strata which form the base of the Lincolnshire Wolds, 227.
- Stratigraphical considerations on the Devonian fossils, 677; value of the species comprising the Devonian fauna, 662.
- Structure of North Devon and West Somerset, 579.
- Subaerial Denudation, Mr. W. Whitaker on, 265.
- Subsidences in the neighbourhood of Benghazi, Barbary, 384.
- Succession of rocks in North Devon and West Somerset, 579.
- Suffolk, consolidated blocks in the Drift of, 110.
- Sulphur-springs of Northern Formosa, Dr. C. Collingwood on the, 382.
- Sunday's River, South Africa, 149; Jurassic fossils from, 150.
- Sutton Stone, 15, 23, 199, 207, 307, 526.
- Swan, W. R., Esq., on the geology of the Princes Islands in the Sea of Marmora (Abstract), 381.
- Sweden, the Earl of Selkirk on some sea-water-level marks on the coast of, 191.
- Table of comparison between the British and Foreign Devonian Brachiopoda, showing also their range to the Carboniferous, 658; of the British Devonian Cœlenterata with those of the Rhine, Belgium, and France, 654; fossils from the Liassic deposits

INDEX TO THE PROCEEDINGS.

- of Somersetshire and South Wales, 557-566; measurements of the teeth of *Rhinoceros leptorhinus*, 234; species common to the Carboniferous and Devonian formations, 674; occurring in the Lower Devonian rocks of North Devon, and those found in the same group on the Rhine, in Belgium, and in France, 636; Lower, Middle, and Upper Devonian series of North Devon and Petherwin (in North Cornwall), showing those species that pass into the Carboniferous in any area, 669; Middle Devonian rocks of South Devon compared with those of North Devon and Europe, and with the Carboniferous generally, 643; the distribution of *Infralias* Corals, 22; species in the Middle Devonian or Ilfracombe group in North Devon and West Somerset, 640; throughout the various fossiliferous groups in North Devon, 375-380; fossils of the zone of *Ammonites planorbis*, 301; *Belemnites acutus*, 304; showing the entire fauna and flora of the Old Red Sandstone and Devonian rocks of Great Britain, and their comparison with those of the Rhenish-Prussian, Belgian, and French series, 616-634; groupings of the Palæozoic rocks of North Devon and their equivalents in South Devon, Cornwall, South Wales, Scotland, South Ireland, and the three European areas, 698; present census of species in the Palæozoic rocks of Great Britain, 615; relation of the Mammals of the Lower Brick-earths to the Præglacial and Postglacial fauna, 107; species common to the Middle Devonian rocks of North Devon, South Devon, and West Somerset, 650.
- Tate, R., Esq., on some Secondary Fossils from South Africa, 139; on the fossiliferous development of the Zone of *Ammonites angulatus*, Schloth., in Great Britain, 305; on the Lower Lias of the North-east of Ireland, 297.
- Tealby series of Lincolnshire, 244.
- Teign, Mr. G. Wareing Ormerod on the geology of the upper part of the valley of the, 185, 418.
- Telerpeton Elginense*, Prof. T. H. Huxley on a new specimen of, 77.
- Terrestrial fossils from Charter House, 493.
- Tertiaries, Mr. G. Maw on the sources of the materials composing the white clays of the Lower, 387.
- Tetford Hill, Lincolnshire, section of a chalk-pit at, 240.
- Thames, Glacial and Postglacial deposits of the valley of the, 396.
- Thames gravel, sections showing the position and relations of the, 409; valley, Mr. W. Boyd Dawkins on the Lower Brick-earths of the, 91.
- Thetford, Norfolk, flint implements from, 45.
- Thickness of Secondary beds within and beyond the Somersetshire coal-basin, 477.
- Thomson, J., Esq., and Dr. P. M. Duncan on *Cyclophyllum*, a new genus of the *Cyathophyllida*, with remarks on the genus *Aulophyllum*, 327.
- Thornton, E., Esq., on the existence of a large coal-field in the Province of St. Catherine's, Brazil, 386.
- Timins, Rev. J. H., on the chemical geology of the Malvern Hills, 352.
- Tin-grounds of the valley of the Teign, 419.
- Tracks of Pteraspis?*, 333.
- Trap-rocks, analyses of intrusive, 364; from the Herefordshire Beacon, analyses of bedded, 358.
- Trias of the Mendip Hills, 457.
- Trigonia Cassiope*, 158.
 — *Goldfussi*, 159.
 — *vau*, 159.
 — *ventricosa*, 159.
- Trilobites from the Devonian rocks, 648, 666.
- Trochotoma Brocastellensis*, 552.
 — *Lycettii*, 552.
- Trochus apicalis*, 553.
 — *Deslongchampsii*, 553.
 — *Eliza*, 554.
 — *gradatus*, 553.
 — *Holwellensis*, 554.
 — *Langanensis*, 553.
 — *latilabrus?*, 554.
- Trowse Junction, Norfolk, section at, 88.
- Tudor, Canada West, specimen of *Eozoon* from, 257.
- Turbo Brocastellensis*, 555.
 — *Burtoni*, 314.
 — *nodulo-carinatus*, 555.
 — *reticulatus*, 556.
 — *solidus*, 554.
 — *Stowianus*, 153.
 — *tumidus*, 556.
 — *Turritella Housei*, 556.
 — *Rubidgeana*, 152.

INDEX TO THE PROCEEDINGS.

- Uitenhage series, South Africa, fossils from the, 144; List of the fossils of the, 169.
- Unconformity at the base of the Hunstanton Limestone, 242.
- Uphall Pit, Ilford, section at, 92.
- Upheaval of the Mendip Hills, date of the, 453.
- Upper Lias of Somersetshire, 474.
- Ursus ferox, relation of *U. priscus* to, 342.
- Valley of the Little Ouse, map of the, 46; section across the, 46; Teign, geology of the upper part of the, 185, 418; Thames, Glacial and Post-glacial deposits of the, 396.
- Vallis, sections in the, 488.
- Valvata anomala*, 556.
— *pygmaea*, 557.
- Variiegated strata, analyses of, 114.
- Veins, analyses of felspathic, 362.
- Vennor, H. G., Esq., on a section of Laurentian rocks in the county of Hastings, Canada West, 256.
- Vertical section of the Lias-conglomerate as exposed on the Glamorgan-shire coast, 202.
- Vertigo Murchisonæ*, 557.
- Volcanic ash, analyses of, 353.
- Warwickshire, the Rev. P. B. Brodie on the Drift in a part of, 208; zone of *Ammonites angulatus* in, 306.
- Waterloo, Larne, section at, 298.
- Welton-le-Marsh, section at, 230.
- Wentworth and Long Lake, Canada, specimens of *Eozoon* from, 260.
- West Challacombe, 604.
- Weston, Bath, fossils from, 497.
- Whately, Lias at, 476.
- Wheddon Cross, section in a quarry at, 587.
- Wheelwright, W., Esq., on the Discovery of Coal on the Eastern Slope of the Andes (Abstract), 197.
- Whitaker, W., Esq., on Subaërial Denudation, and on Cliffs and Escarpments of the Chalk and Tertiary Strata (Abstract), 265.
- White Lias at Broadfield Down, 504; of Somersetshire, 459; clays of the Lower Tertiaries, 387.
- Whitfield, section from Clayhanger to, 593.
- Wickham, brick-earth at, 98.
- Williamson, Prof. W. C., on a Cheirotherian footprint from the base of the Keuper Sandstone of Daresbury, Cheshire, 56.
- Willingham House to Binbrook, Lincolnshire, section from, 243.
- Willsbridge, section at, 498.
- Wills Neck to Cannington Park, section from, 584.
- Wiltshire, estuarine sands in, 197.
- Windsor Hill, fossils from, 509; section at, 508.
- Withycombe by Dunster, 593.
- Wiveliscombe, 591; sections of curved laminae near, 324.
- Wolds of Lincolnshire, 227.
- Wollaston Donation-fund, award of the, xxviii; Medal, award of the, xxvii.
- Woodabay, section at, 599.
- Wood, S. V., jun., Esq., on a section at Litcham affording evidence of land-glaciation during the earlier part of the Glacial Period in England, 84; on the structure of the Postglacial deposits of the South-east of England, 394.
- Woodward, H., Esq., on some points in the structure of the *Xiphosura*, having reference to their relationship with the *Eurypterida*, 28.
- Wyley, Mr., on the nomenclature of the South African rocks, 172.
- Xiphosura, Mr. Henry Woodward on the structure of the, 28.
- Yard, 594.
- Yare valley above and below Norwich, sections across the, 89.
- Zebbug bone-cave, 287; plan of the, 289.
- Zellania obesa*, 540.
- Zone of *Ammonites angulatus* in Great Britain, Mr. R. Tate on the, 305; in Ireland, 302, 306; Bucklandi, 303, 497, 531; planorbis, 299, 467; *Belemnites acutus*, 304.
- Zones of zoological life, value of, 510.
- Zonites (Conulus) priscus*, 330.
- Zwartkop River, South Africa, 149; Jurassic fossils from, 150.

THE END.
