Discussion

Volume 158     Part 5     September 2001     ISSN 0016-7649

In this issue:
Terrestrial ecosystem recovery at K-T boundary
Detrital monazite ages in the Pennine Basin
Alpine Fault, New Zealand
Detachment faulting, Troodos Ophiolite, Cyprus
Out of sequence thrusting, western Turkey
Sequence stratigraphy and orbital forcing
Sediment recycling in a continental margin

Dating of authigenic K-feldspar
Exhumation and emplacement of the Lizard Peridotite
Clunes tonalite and the Great Glen Fault
High-resolution trace element variation in speleothems
Chemical and fluid control of hornblende K-Ar ages
Genesis of Antarctic granitoids
Gravity evidence for diapirc ascent
