Specials

Wells, M. R., Allison, P. A., Proctor, M. D., Pain, C. C., Hampson, G. J. & de Oliveira, C. R. E. Large sea, small tides: the Late Carboniferous seaway of NW Europe 417

Hartley, A. J., Cheung, G., Briatton, J. & Mathew, A. E. 150 million years of climatic stability: evidence from the Atacama Desert, northern Chile 421

Stoker, M. S. & Bradwell, T. The Minch palaeo-ice stream: NW sector of the British-Irish Ice Sheet 425

Pitman, I. K., Roberts, S., Tighe, D. A. H. & Crow, D. Detecting hydrothermal graphite deposition during metamorphism and gold mineralization 429

Papers

Konopásek, J. & Schulmann, K. Contrasting Early Carboniferous field geotherms: evidence for accretion of thickened orogenic root and subducted Saxothuringian crust (Central European Variscides) 463

De Paola, N., Holdsworth, R. E. & McCaffrey, K. J. W. The influence and lithology and pre-existing structures on source-scale faulting patterns in transtensional rift zones 471

Buckley, E., Sugden, V., Tong, H. & Körner, A. First dinosaur from the Shan-Thai Block of SE Asia: a Jurassic sauropod from the southern peninsula of Thailand 481

Park, B., Guello, H., Carrasco, J.C. & Pérez-Toribio, F. J. Volcanic and morphological evolution of La Gomera (Canary Islands), based on new K–Ar ages and magnetostratigraphy: implications for oceanic island evolution 501

Wade, B. P., Hazlitt, M. & Barnetson, K. M. Neotectonic and geochemical constraints on provenance of sedimentary rocks in the eastern Officer Basin, Australia: implications for the duration of the intracratonic Petermann Orogeny 513

Quada, S., Ricklefs, S. & Rana, D. Depositional architecture and transtensive–regressive cycles within Liassic backstepping carbonate ramps in the Basque–Cantabrian Basin, northern Spain 531

Flowerdew, M. J., Dais, J. S. & Whitehouse, M. J. 470 Ma granitoid magmatism associated with the Gneissic Orogeny in the Slindjothem Division, NW Ireland 562
