

## Errata

### Carbon-isotope stratigraphy recorded by the Cenomanian–Turonian Oceanic Anoxic Event: correlation and implications based on three key localities

Volume 161, Part 4, p.713

H. TSIKOS *ET AL.*

The carbon-isotope values for organic carbon from the Eastbourne section in Figure 2 were inadvertently plotted incorrectly. The correct figure is reproduced left.

### Microbial silicification in Iodine Pool, Waimangu geothermal area, North Island, New Zealand: implications for recognition and identification of ancient silicified microbes

Volume 161, Part 6, p. 985

B. JONES *ET AL.*

The last sentence of the caption for Figure 2 should have been deleted in the proof-correction process. It relates to an older version of the figure.

### Grenvillian massif-type anorthosites in the Sierras Pampeanas

Volume 162, Part 1, p. 9

C. CASQUET *ET AL.*

The year is wrong in the catchline at the top of the page, it should be 2005

### Volcanic rock-mass strength properties from Snowdonia and Tenerife: implications for volcanic edifice strength

Volume 161, Part 6, pp. 940 and 941

M. E. THOMAS, N. PETFORD & E. N. BROMHEAD

Equations 1 and 4 should read as follows

$$\sigma_1 = \sigma_3 + (m\sigma_c\sigma_3 + s\sigma_c^2)^{1/2} \quad (1)$$

$$\sigma_{cm} = (s\sigma_c^2)^{1/2} \quad (4)$$

In the original paper, the  $\sigma_c$  function is missing the squared operator in both equations.
