The Geological Society

The Geological Society of London was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship of more than 9000. The Society confers Chartered status on suitably qualified Fellows, and over 2000 of the Fellowship carry the title 'CGeol'. An alternative chartership status is available in the form of the designation 'Chartered Scientist'. Existing Chartered Geologists may also obtain the equivalent European title, 'European Geologist' (EurGeol). One fifth of the Society's fellowship lives outside the UK.

To find out about the Society and how you can join, please see our website at www.geolsoc.org.uk. E-mail enquiries and requests for application packs should be directed to: enquiries@geolsoc.org.uk. For information about the Society's meetings, consult Events on the website. To find out more about the Society's Corporate Affiliates Scheme, write to: enquiries@geolsoc.org.uk

The Geological Society Publishing House (Bath, UK), produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop (accessible from www.geolsoc.org.uk) offers secure book purchasing with your credit or debit card.
