JOURNAL OF THE GEOLOGICAL SOCIETY

Volume 165, Part 1, January 2008

Specials

Stone, P. Richards, P. C., Kimbell, G. S., Esser, R. P. & Reeves, D. Cretaceous dykes discovered in the Falkland Islands: implications for regional tectonics in the South Atlantic

Research articles

Piqué, L., Monte, C., Vaselli, O., Tassi, F., Gazi-Papanastassiou, K. & Papanastassiou, D. Scent of a myth: tectonics, geochemistry and geomythology at Delphi (Greece)

Le Heron, D. P. & Craig, J. First-order reconstructions of a Late Ordovician Saharan ice sheet

Esmirrède, E. V., Lykke-Andersen, H. & Sylvy, F. Interaction between bottom currents and slope failure in the Late Cretaceous of the southern Danish Central Graben, North Sea

Sherlock, S. C., Jones, K. A. & Park, R. G. Grenville-age pseudotachylite in the Lewissian: laserprobe 40Ar/39Ar ages from the Gairloch region of Scotland (UK)

Musumeci, G., Mazzarini, F. & Barsella, M. Pliocene coastal shortening on the Tyrrhenian side of the northern Apennines: evidence from the Gavarrino antiform (southern Tuscany, Italy)

Bates, K. T., Harvy, F., Manning, P. L., Hoogstrate, D., Vila, B., Ons, O., Galbraith, A., Gaubert, R. L. High-resolution LiDAR and photogrammetric survey of the Fumanya dinosaur tracksite (Catalonia): implications for the conservation and interpretation of geological heritage sites

Olivier, P., Gluezza, G., Paquette, J.L., Muñoz Sáez, C. Structure and U-Pb dating of the Saint-Anne pluton and the Ansignan chamotte (Agly massif): a cross-section from the upper to the middle crust of the Variscan Eastern Pyrenees

Konopásek, J., Kohler, J., Tašmanová, L. & Ulrich, S. K. Neoproterozoic igneous complex emplaced along major tectonic boundary in the Kaoko Belt (NW Namibia): ion probe and laser ablation ICP-MS dating of magmatic and metamorphic zircons

Talukder, A. R., Bialas, J., Klaeschen, D., Brueckmann, W., Rester, T. & Peterson, J. Tectonic framework of the mud mounds, associated BSRs and submarine landslides off shore Nicaragua pacific margin

Jay, A. E. & Widdowson, M. Stratigraphy, structure and volcanology of the SE Deccan continental flood basalt province: implications for eruptive extent and volumes

(continues on inside back cover)

Published by the Geological Society of London

Cover image: Caledonian augen granite with mafic schlieren, Bettyhill, North Scotland

Geological Society Internet site: www.geolsoc.org.uk
JGS online submission: http://jgs.allentrack.net
Abstracted and/or indexed in Current Contents, Science Citation Index, GeoArchive, GeoRef, Geobase, Petrobase, Abstracts, Geological Abstracts and Mineralogical Abstracts.

Downloaded from http://jgs.lyellcollection.org by guest on December 21, 2021
Peering into the Earthquake Flat Pyroclastics deposits, New Zealand 435
Pre-eruption thermal rejuvenation and stirring of a partly crystalline rhyolite pluton revealed... 353
Estimating hinterland exhumation from late orogenic basin volume, NW Borneo 353
Sedimentation of the Phyllopod Bed within the Cambrian Burgess Shale... 365
Correlation of Silurian bentonites from Gotland and East Baltic using... 379
Seismicity and uplift 291
Emplacement: a case study of the Leannan Fault, NW Ireland 341
Timing, slip rate, displacement and cooling history of the Mykonos detachment footwall, Cyclades, Greece, and implications for the opening of the Aegean Sea basin 263
Formation of British Columbia 307
Neogene sedimentary deformation in the Chilean forearc and implications for Andean basin development, seismicity and uplift 365
Tentative phylogenetic interpretation and implications for evolutionary stasis 365
Late Pliocene–Pleistocene HT–LP cooling history of the Mykonos detachment footwall, Cyclades, Greece, and implications for the opening of the Aegean Sea basin 263
A new age constraints for the Odovician Tyroene Volcanic Group, Northern Ireland 333
The brittle evolution of a major strike-slip fault associated with granite emplacement: a case study of the Leasam Fault, NW Ireland 341
The Earthquake Flat Pyroclastics deposits, New Zealand 435

Subscriptions: All correspondence relating to trade subscriptions should be addressed to the Journal Subscriptions Department, Geological Society Publishing House, Unit 7, Brassmill Enterprise Centre, Brassmill Lane, Bath, UK, BA1 3JN (tel 01225 445604; fax 01225 442836; e-mail: sales@geolsoc.org.uk). The subscription prices for 2008 to institutions and non-Fellows are: JGS Current £60 (UK), £729/$1458 (overseas), JGS Plus £790 (UK), £899/$1758 (overseas). More information about subscription options can be found at http://www.geolsoc.org.uk/LyellCollection.

The Geological Society of London was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161. To find out about the Society and how you can join, please visit our website at www.geolsoc.org.uk or e-mail enquiries@geolsoc.org.uk.

Other journals published by the Geological Society include: GSA Today; The Geological Journal; Geobios; the Journal of the Geological Society of China; Quaternary Geology; and Earth Surface Processes.

Information about subscription options can be found at http://www.geolsoc.org.uk/LyellCollection.
