Volume 168, Part 2, March 2011

Research Articles

Retallack, G.J. Neoproterozoic loess and limits to snowball Earth 289

Hietpas, J., Samson, S., Moreira, D. & Chakraborty, S. Enhancing tectonic and provenance information from detrital zircon studies: assessing terrane-scale sampling and grain-scale characterization 309

Parkhill, J., Mark, D., Fallot, A.E., Boyce, A. & Tigges, J. The age of the Mesoproterozoic Stoer Group sedimentary and impact deposits, NW Scotland 349

Rutter, E.H. & Green, S. Quantifying creep behaviour of clay-bearing rocks below the critical stress state for rapid failure: Mam Tor landslide, Derbyshire, England 359

Mazzoli, S. & Martin Algarra, A. Deformation partitioning during transpressional emplacement of a ‘mantle extrusion wedge’: the Ronda peridotites, western Betic Cordillera, Spain 373

Braid, J.A., Murphy, J.B., Quezada, C. & Mortensen, J. Tectonic escape of a crustal fragment during the closure of the Rheic Ocean: U–Pb detrital zircon data from the Late Palaeozoic Pulo do Lobo and South Portuguese zones, southern Iberia 383

Back, S., van Gent, H., Reuning, L., Göttsch, J., Niederer, J. & Kula, P. 3D seismic geomorphology and sedimentology of the Chalk Group, southern Danish North Sea 393

Van Notten, K., Muehe, P. & Smit, M. Stress-state evolution of the brittle upper crust during compressional tectonic inversion as defined by successive quartz vein-types (High-Ardennese slate belt, Germany) 407

Smith, M.A., Brück, M., Kerdiles, E. & Schreier, E.E. Provenance and exhumation of an exotic eclogite-bearing nappe in the Caledonides: U–Pb and Hf–Nd study of the Jaren nappe, SW Norway 423

Bierg, S.G., Maher, H.D. & Braathen, A. Late Devonian tranpressional tectonics in Spitsbergen, Svalbard, and implications for basement uplift of the Sørkapp–Hornsund High 441

Kinnaird, T.C., Robertson, A.H.F. & Morris, A. Timing of uplift of the Troodos Massif (Cyprus) constrained by sedimentary and magnetic polarity evidence 457

Mála, A. & Torrente, M.M. The possible role of extensional faults in localizing magmatic activity: a crustal model for the Campanian Volcanic Zone (eastern Tyrrhenian Sea, Italy) 471

Burberrt, C.M., Jackson, C.A.-L. & Cosgrove, J.W. Late Cretaceous to Recent deformation related to inherited structures and subsequent compression within the Persian Gulf: a 2D seismic case study 485

Robasz, M., Said, A., Guillot, S., Antoine, P-O., Montel, J-M. Martin, F. & Darrigos, J. Provenance of Cenozoic sedimentary rocks from the Sulaiman fold and thrust belt, Pakistan: implications for the palaeogeography of the Indus drainage system 499

Davies, R.J., Mathias, S.A., Swarbrick, R.E. & Tengay, M.J. Probabilistic longevity estimate for the LUSI mud volcano, East Java 517

Zhang, X., Wildi, S.A., Zhang, H. & Zhai, M. Early Permian high-K calc-alkaline volcanic rocks from NW Inner Mongolia, North China: geochemistry, origin and tectonic implications 525

(Contents continued on inside back cover)
