### Volume 171, Part 1, January 2014

#### Specials
- Reeves, M.T., Bell, R.E. & Jackson, C.A-L. Origin and significance of intra-basement seismic reflections offshore western Norway

#### Research Articles
- Kripp, L.A., Carter, A. & Chen, Y-C. Impacts of arc collision on small orogens: new insights from the Coastal Range detrital record, Taiwan
- Caron, C.J., McLaren, S., Roberts, J.L., Bogie, S.D. & Blankenship, D.D. Hot rocks in a cold place: high sub-glacial heat flow in East Antarctica
- Reeves, M.T., Bell, R.E., & Jackson, C.A-L. Origin and significance of intra-basement seismic reflections offshore western Norway
- Kripp, L.A., Carter, A. & Chen, Y-C. Impacts of arc collision on small orogens: new insights from the Coastal Range detrital record, Taiwan
- Caron, C.J., McLaren, S., Roberts, J.L., Bogie, S.D. & Blankenship, D.D. Hot rocks in a cold place: high sub-glacial heat flow in East Antarctica

#### Abstracted and/or Indexed in
- Current Contents
- Science Citation Index
- Geobase
- Geological Abstracts
- Mineralogical Abstracts

#### Published by
- The Geological Society of London

#### Cover Image
- Rhythmically bedded Upper Cretaceous (Cenomanian) hemipelagic limestone–marl succession, La Mure, Alpes-de-Haute-Provence, SE France.
