JOURNAL OF THE GEOLOGICAL SOCIETY

Volume 175, Part 3, May 2018

Research article

PARRISH, R. R., PARRISH, C. M. & LASSALLE, S. Vein calcite dating reveals Pyrenean orogen as cause of Palaeozoic deformation in southern England

WALSH, P. T., BONE, V. J., JONES, P. F., POWD, M. J. & RIDING, J. B. A reassessment of the Brassington Formation (Mississippian) of Derbyshire, UK and a review of related hypogenic karst suffusion processes

WILLIAMS, J. R. & PATE, J. A. New structural and kinematic framework for the Alboran Domain (Betic-Rif arc, western Mediterranean orogenic system)

INDREVÆR, K., GAC, S., GABRIELSEN, R. H. & FALEIDE, J. I. Crustal-scale subsidence and uplift caused by metamorphic phase changes in the lower crust: a model for the evolution of the Loppa High area, SW Barents Sea from late Paleozoic to Present

REPEATED REACTIVATION OF CLIPPED PERMEABLE PATHWAYS IN EPITHELIAL GOLD DEPOSITS: KESTANELIK EPITHERMAL VEIN SYSTEM, NW TURKEY

YANG, H., ZHANG, H., LUO, B., TAO, L. Petrogenesis of Early Paleozoic diorites and mafic-intermediate dikes from the eastern Qilian orogen, NE Tibetan Plateau: implications for lithospheric processes

CHEN, Y., ZHANG, H., LEE, B., GAO, Z. & TAO, L. Petrogenesis of Early Paleozoic dikes and mafic-intermediate dikes from the eastern Qilian orogen, NE Tibetan Plateau: implications for lithospheric processes
