STANDING PUBLICATION COMMITTEE:—The President, the Secretaries, the Treasurer, Dr. Dixey, Prof. Dunham, Prof. Jones, Prof. Kennedy, Dr. Kirkaldy, Dr. Campbell Smith, Dr. Stubblefield, Prof. Taylor, Dr. White, Prof. Williams.
DISCUSSION OF PAPERS IN THE QUARTERLY JOURNAL

The Council announces that the pages of the Quarterly Journal are open to the discussion of papers which have already appeared in the Journal.

While every Fellow may contribute to these discussions, they are intended primarily for the benefit of Fellows (and particularly those resident overseas) who are unable to attend the meetings of the Society, and to afford such Fellows a closer contact with the Society's activities. Fellows are requested to comply with the following regulations when submitting their contributions to these discussions, since it will not be possible for the Secretaries to enter into correspondence about them or to submit proofs to the contributors.

a. Notice will be given in each part of the Journal (normally below the table of contents on the back page of the cover) of the latest date on which discussion of papers in that part can be accepted for consideration. The date selected will be such that all overseas Fellows will have reasonable time to contribute to the discussion.

b. Contributions to these discussions should not as a rule exceed 250 words (half a page of the Journal), and they will be subject to editing by the Secretaries. They should be typewritten, and the title of the paper discussed, and the name of its author, appear plainly at the top of the typescript.

c. Discussion of the papers published in preceding volumes will normally appear in part 2 of each volume.

d. Participation in the discussion at a meeting, and the publication of his remarks in the Abstracts of Proceedings, will not preclude a Fellow from making a contribution to the subsequent Journal discussion.
CONTENTS

1. D. B. McIntyre. The tectonics of the area between Grantown and Tomintoul (mid-Strathspey) . . . . 1

2. R. M. C. Eagar. A revision of the sequence and correlation of the Lower Coal Measures west of Wigan. (Plates I and II) . . . . 23

3. O. T. Jones. The distribution of coal volatiles in the South Wales Coalfield and its probable significance . . . 51

4. A. Williams. Llandover brachiopods from Wales with special reference to the Llandovery district. (Plates III–VIII) . . . . 85

The Editor of the Quarterly Journal is directed to make it known to the Public that the authors alone are responsible for the facts and opinions contained in their respective papers, and for the correctness of their references.

Written contributions to the discussions on papers published in this part of the Quarterly Journal will be accepted up to 30 September, 1952.

The Library at the Apartments of the Society is open on weekdays from 10 o'clock until 5 o'clock (Saturdays, 10 o'clock until 1 o'clock).

DISCUSSION OF PAPERS IN THE QUARTERLY JOURNAL

The pages of the Quarterly Journal are open to the discussion of papers which have already appeared in the Journal.

While every Fellow may contribute to these discussions, they are intended primarily for the benefit of Fellows (and particularly those resident overseas) who are unable to attend the meetings of the Society, and to afford such Fellows a closer contact with the Society’s activities.

Contributions to these discussions should not as a rule exceed 250 words (half a page of the Journal), and they will be subject to editing by the Secretaries. They should be typewritten, and the title of the paper discussed, and the name of its author, appear plainly at the top of the typescript.

It will not be possible for the Secretaries to enter into correspondence about contributions or to submit proofs to the contributors.

Participation in the discussion at a meeting, and the publication of his remarks in the Abstracts of Proceedings, will not preclude a Fellow from making a contribution to the subsequent Journal discussion.

NOTICE TO INTENDING AUTHORS OF PAPERS

Authors proposing to submit papers for publication in the Quarterly Journal are advised to apply to the Assistant Secretary for a copy of the Notes on the Preparation of Papers for publication in the Quarterly Journal, recently issued by the Council. The pamphlet sets out the Council’s requirements in the typescript and illustration of papers submitted for publication and offers suggestions which should assist authors to comply with those requirements.

The Editor of the Quarterly Journal is directed to make it known to the Public that the authors alone are responsible for the facts and opinions contained in their respective papers, and for the correctness of their references.

The Geological Society is a signatory to the Fair Copying Declaration, under which no objection is made to the making of single copies of parts of the Society’s publications under certain limited and stated conditions. Details of the Declaration may be obtained from the offices of the Royal Society upon application.

PHYSICAL GEMMOLOGY

By SIR JAMES WALTON, K.C.V.O., M.S., F.R.C.S., M.B.,
L.R.C.P., B.Sc., F.G.A., F.A.C.S. Dedicated to Her Majesty
Queen Mary. Without technical language or mathematical
formulae, this new book successfully explains the scientific facts
behind the physical phenomena of gem minerals. It begins
with an up-to-date account of atomic theory and atomic struc-
tures, and goes on to deal with the formation of crystals, micro-
scopic and optical characters, colour and general physical
properties, etc., concluding with a chapter on the fashioning of
minerals for gems. A work of over 300 pages, with 400 illus-
trations, it is of practical value to those with a professional
interest in the subject, and of absorbing interest to those
indulging a hobby. 30/- net.

From all booksellers. Published by
