

# ALPHABETICAL INDEX

TO THE

## PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

[The fossils referred to are described, and those of which the names are printed in italics are also figured.]

- Africa, geology of parts of, 1, 433, 465 ; fossils from, 454 ; gold in South, 1. Alkali-pits at the Lake of Van, 320. Allée Blanche, structure of the rocks of, 21. Alluvium in New South Wales, fossil bones in, 405 ; obsidian bombs in the, 403. — of the Euphrates Valley, 249. Alps, Mr. Sharpe on the cleavage structure of part of the, 11 ; muschelkalk in the, 452 ; St. Cassian beds in the, 451. Alveolina-rocks of the Turko-Persian frontier, 273. America, North, geology of parts of, 497, 537. *Ammœnites Gardeni*, 456. — *Soutonii*, 455. — *Stangeri*, 455. — *Umbulazi*, 456. Analyses of soils from the Cotswolds by Dr. Voelcker, 495. Annelid-tracks in the flagstones of Barlae, 475. Anniversary Address of the President, xxvii. See also Hamilton, W. J. Annual General Meeting, i. Annual Report, i. Anthracite schists of Scotland, Prof. Harkness on the, 468. Ararat, lavas of Mount, 315. *Arca Natalensis*, 461. — *Umzambaniensis*, 460. Arctic America, geology of, 497. — Archipelago, fossil wood from the, 538 ; geology of the, 537. Argyllshire, raised beaches in, 549. Astott, section of estuarine beds at, 491. Asia Minor, coal of, 476 ; fossils from, 58. Auriferous alluvia of New South Wales, fossil bones in, 405 ; obsidian bombs in the, 403. — deposits in Victoria, 397. — iron pyrites in the Peel River district, 401. — rocks of Australia, 401 ; New Zealand, 35 ; South Africa, 1. Austen, R. G., on land-surfaces beneath the drift-gravel, 112 ; on the possible extension of the coal-measures beneath the south-eastern part of England, 533 ; reply to the President on receiving the Donation Fund for MM. Sandberger, xxvi. Australia, fossil bones in the auriferous alluvium of, 405 ; geology of part of, 399 ; gold-diggings in, 395 ; obsidian bombs in the auriferous alluvium of, 403. Award of the Donation Fund, xxv ; Wollaston Medal, xxi. *Baculites sulcatus*, 457. Bagshot sands and the French and Belgian tertiaries, table of fossils found in the, 236. Bagshot sands, lower, and the Ypresian supérieur, 232. Baily, W. H., description of some cretaceous fossils from South Africa, 454. Bakhtiyari Mountains, section in the, 285. Ballarat gold-diggings, 396. Banks's Peninsula, geology of, 526. Baphetes planiceps, Prof. Owen's additional remarks on the skull of, 9. Barlae, fucoids, zoophytes, and annelids in the flagstones of, 473. Bay of Fundy, submerged forest at the, 119. Bedford, E. J., notice of some raised beaches in Argyllshire, 549. Belgium, coal-measures of, 533. Belgium, France, and England, the tertiaries of, 206. Berrow Hill, section of, 194. Beyrich, E., remarks on the brown coal of North Germany, 550. Biradiolites canaliculatus, 51. Bituminous products of the Turko-Persian frontier, 269. Black soil of Nagpur, 354. Blue Mountain Range, geology of the, 516. Bonin Islands, tidal phenomenon at the, 532. Boulonnais, coal-measures of the, 535. Bovey Tracey, fossil seed-vessels from, 566. *Brachyops laticeps*, 37. Bracklesham beds and the French and Belgian tertiaries, table of fossils found in the, 236.

INDEX TO THE PROCEEDINGS.

- Bray, W., on the geology of Georgia, United States, 521; on the occurrence of copper in Tennessee, 8.
- Breccia, Permian, of Shropshire and Worcestershire, 187.
- , siliceous, of the Peel River district, 400.
- Breedon Hill, section of, 480.
- Brickenden, L., on a Pterichthys from the old red sandstone of Moray, 31; on the occurrence of glacial traces on the Rock of Dumbarton, 27.
- British and foreign tertiaries, correlation of the, 206.
- Brown-coal deposits of Northern Germany, 142, 550.
- Brown, J., and J. Prestwich on a fossiliferous drift near Salisbury, 101.
- Brussa, earthquakes at, 543.
- Bunter and Permian rocks of England, sections of the, 192, 193, 195.
- Bunter sandstone of England, the four subdivisions of the, 188; of the Hartz, 446; of Thuringia, 428.
- Burdwan coal-beds, age of, 555.
- Buyuk Aladyn, nummulitic rock from, 10.
- Caprina adversa, 51.
- Aguiloni, 51; shell of, 50.
- Caprinella, shell of, 52.
- Caprinella triangularis, 52.
- Caprinula Boissii, 52.
- Caprotina quadripartita, 50; shell of, 49.
- Carboniferous deposits of New Zealand, 521.
- fossils from the Arctic Archipelago, 532; from the north-west coasts of North America, 519.
- land, extent of the old, 535.
- rocks of the Hartz, 441; of the Mackenzie River, 511; of Thuringia, 418.
- Cardium denticulatum*, 460.
- Carpolithes ovulum*, 562.
- Cascade Range, geology of the, 516.
- Cassel, tertiaries of the hill of, 232.
- Cephalopod, Prof. Owen on a new fossil species of naked, 124.
- Chalk, sand-pipes in the, 62, 64.
- Charters, Major, on the geology of the vicinity of Nice, 35.
- Chedworth Valley, section of, 484.
- Chemnitzia Sutherlandii*, 459.
- Chondrites informis*, 473.
- regularis, 473.
- Christiania, Silurian and Devonian rocks of, 161.
- Christiansand, sections near, 171.
- Clarke, W. B., notes on the geology of New South Wales, 408; on the occurrence of fossil bones in the anri-ferous alluvia of Australia, 405; on the occurrence of obsidian bombs in the auriferous alluvia of New South Wales, 403.
- Cleavage-structure of the rocks of Mont Blanc, Mr. Sharpe on the, 11.
- Clent Hill, section of, 190.
- Climatal conditions of the Arctic Archipelago, Sir R. I. Murchison on the, 540.
- Climate of the Permian epoch, 203.
- Coal-deposits and plant-beds of India, Mr. Hislop on the, 555; of Central India, of the, 376; of Thuringia, 418.
- Coal in Asia Minor, Mr. Sandison on the occurrence of, 476.
- Coal-measures of Belgium and North France, 533; origin of the, 535; possible existence of, in the S. E. of England, 533.
- Coal of Pictou, reptile in the, 8.
- Coals of New Zealand, 528.
- Coast-line of New Zealand, Mr. C. Forbes on the geology of, 521.
- Coast Range, geology of the, 516.
- Coccolithus latipinnis*, 124.
- Compton Hill, section of warp-drift at, 490.
- Conglomerate beds of the Grampians, 545.
- Copper in Tennessee, 8; in South Africa, 467.
- Cornwall, sand-worn granite in, 549.
- Coromandel Harbour, gold-diggings of, 31.
- Correlation of the tertiaries of England, France, and Belgium, Mr. Prestwich on the, 206.
- Cotteswold Hills, Mr. Hull on the, 477; section of the, 480.
- Council, Report of the, i.
- Counter Hill, fossil seeds from, 562.
- Crawford, J. C., on the geology of the Port Nicholson district, New Zealand, 530.
- Creswick Creek gold-diggings, 397.
- Cretaceous fossils from South Africa, Mr. Baily on some, 454.
- rocks in South Africa, Captain Garden on some, 453; of the Hartz, 447; of the Turko-Persian frontier, 284.
- Cronopodia Scotica*, 475.
- Crystalline rocks, range of, east of the Rocky Mountains, 500.
- Dawson, J. W., notice of the discovery of a reptilian skull in the coal of Pictou, 8; on a modern submerged forest at Fort Lawrence, Nova Scotia, 119.

INDEX TO THE PROCEEDINGS.

- Derik, travertin springs at, 302.
- Devonian and Silurian rocks of Christiania, 161.
- Devonian rocks of the Eastern Grahams, 544; of the Elk or Mackenzie River, 509; of Thuringia, 412; of the Hartz, 436.
- Diceras arietinum*, 53, 54; shell of, 49.
- Dicynodon* from South Africa, remains of, 532, 541.
- strata, South Africa, 3.
- Dicynodon tigriceps*, 532, 541.
- Dieppe, coast-section near, 118; London clay near, 230.
- Discovery of reptilian remains in the coal of Pictou, Mr. Dawson on the, 8.
- Dizful, section at, 261.
- Donation Fund, award of the, xxv.
- Donations to the Library, 85, 145, 387, 571.
- to the Museum, viii.
- Drift-deposits of the Cotteswolds, 492.
- wood of the Arctic Archipelago, 536.
- Duckton, occurrence of copper near, 8.
- Dumbarton Rock, glacial traces on, 27.
- Dumfriesshire, antirracite schists of, 468.
- Dunedin, coal from, 529.
- Earthquakes at Brussa, Mr. Sandison on the, 543.
- Elbingerode, section near, 438.
- Elevatory movements of North America, 514; of New Zealand, 526, 531.
- Elk River, geology of the, 509.
- English, French, and Belgian tertiaries, 206.
- Erratic phenomena of the Cotteswolds, 487.
- Estuarine deposits of the Cotteswolds, 490.
- Eureka gold-diggings, 395.
- Extension of the coal-measures beneath the south-east of England, Mr. R. G. Austen on the possible, 533.
- Faults of the Cotteswolds, 486.
- Fisherton, pleistocene deposit at, 102.
- Fluctuation of water-level in the Lake of Van, 318.
- Fluviatile deposits of the Cotteswolds, 488.
- Foliation in rocks, Mr. D. Forbes on, 166.
- Folliculites minutulus*, 566.
- Forbes, C., on the geology of New Zealand, with notes on its carboniferous deposits, 521.
- Forbes, D., on the causes producing foliation in rocks, and on some observed cases of foliated structure in Norway and Scotland, 166.
- Fort Lawrence, submerged forest at, 119.
- Fossil bones in the auriferous alluvia of Australia, Rev. Mr. Clarke on, 405.
- cephalopod from the Kimmeridge shales, Prof. Owen on a, 124.
- cranium and remains of *Dicynodon*, Prof. Owen on the, 532, 541.
- fish from Sydney, 408.
- fucoids of South Scotland, 473.
- mammalian skull from Jamaica, Prof. Owen on a, 541.
- plants of the Mackenzie River basin, 512. See also Plants, fossil.
- saurian bones from the Arctic Archipelago, 538.
- seed-vessels from Bovey Tracey, Dr. Hooker on some, 566; from Lewisham, Dr. Hooker on some, 562.
- wood from the Arctic Archipelago, 538; of New Siberia, 513.
- Fossiliferous drift-deposits near the Reculvers, Mr. Prestwich on some, 110; near Salisbury, Messrs. Prestwich and Brown on a, 101.
- gravel at Hackney, Mr. Prestwich on, 107.
- Fossils from Kirrind, 267, 277; from Oregon, 517; from Swanage, 123; from the cretaceous rocks of the Turko-Persian frontier, 289; from the cretaceous rocks of South Africa, 456; from the Keuper of Pendock, 450; from the Silurian rocks of North America, 505, 507; of the freshwater deposit of Nagpur, Central India, 360; of the Permian rocks, 197; of the sandstone formation of Nagpur, Central India, 370.
- , pleistocene, at West Hackney, 110; from near the Reculvers, 111; near Salisbury, 106.
- Fox, R. W., on sand-worn granite near the Land's End, 549.
- Fractures in the nummulitic rocks of the Turko-Persian frontier, 282.
- Fragments of fir-wood and rock-specimens from the Arctic Archipelago, Sir R. I. Murchison on, 536.
- France, Belgium, and England, the tertiaries of, 206.
- France, pleistocene land-surfaces of the coast of, 117.
- Freshwater deposits of Nagpur, Central India, 356.
- Fucoidal remains in South Scotland, Prof. Harkness on the, 473.
- Garden, R. J., notice of some cretaceous rocks near Natal, South Africa, 453.
- Geological distribution of the Hippuritidæ, 53.
- map of Christiania, Sir R. I. Murchison on M. Th. Kjerulf's, 161.

INDEX TO THE PROCEEDINGS.

- Geology of Coromandel Harbour district, New Zealand, 32; of New Zealand, 521; of part of Natal, 465; of part of New South Wales, 408; of part of South Africa, 3; of Port Nicholson district, New Zealand, 530; of the Arctic Archipelago, 537; of the Nagpur territory, Central India, 349; of the northernmost parts of America, 497; of the Peel River district, 399; of the Turko-Persian frontier, 247; of the vicinity of Nice, 35.
- Germany, palæozoic rocks of, 409.
- , North, the tertiaries of, 126.
- Gidad Hill, section of, 358.
- Gilchrist, W., on the origin and formation of the red soil of Southern India, 552.
- Glacial traces on Dumbarton Rock, 27.
- Glaciers and icebergs, supposed existence of, in the Permian epoch, 185.
- Glenkiln, section of, 469.
- Gneiss of Mont Blanc, foliation of the, 20.
- Gold-bearing deposits at Creswick Creek, section of, 398.
- rocks of New Zealand, 35; of South Africa, 1.
- Gold-fields of Victoria, Mr. Rosales on the, 395.
- Gold-diggings of Coromandel Harbour, Mr. Heaphy on the, 31.
- Gold, drift, formation of, in Australia, 402.
- , native, formation of, in Australia, 401.
- Grampians, section of the eastern extremity of the, 547.
- Granite worn by blown sand in Cornwall, 549.
- Granitic rocks of Nagpur, 351, 379; of the Hudson Bay territories, 501; of the Turko-Persian frontier, 291.
- Graptolites from the South of Scotland, 475.
- Graptolite-shales of South Scotland, 469.
- Grauwacke, lower, of Thuringia, 412.
- Gravel-pipes in the chalk, 64.
- Gravels and old land-surfaces of the Valley of the Wey, 115.
- Gravels of the Turko-Persian frontier, 252.
- Graves, P. W., notice of the occurrence of a tidal phenomenon at Port Lloyd, Bonin Islands, 532.
- Gypsiferous rocks of the Turko-Persian frontier, 254.
- Gypsum rocks of Chamounix, 18.
- Habichts Wald and Wilhelmshöhe, sections at, 127.
- Hackney, West, pleistocene deposit at, 107.
- Hamilton, W. J., on a specimen of nummulitic rock from the neighbourhood of Varna, 10; on the brown coal of North Germany, 550; on the coal of Asia Minor, 477; on the tertiary formations of the North of Germany, with special reference to those of Hesse Cassel and its neighbourhood, 126.
- Hamilton, W. J. (President), Address on presenting the Wollaston Medal to Sir R. I. Murchison for Sir H. T. Delabeche, xxi; Address on presenting the Donation Fund Award to the Secretary for MM. Sandberger, xxv; Anniversary Address, xxvii. *Notices of Deceased Fellows*: Edward Forbes, xxvii; Sir John Franklin, xxxvi; Prof. Jameson, xxxviii; Arthur Aikin, xli; Dr. Stanger, xlii; the Rev. H. M. Delacondamine, xliii; James Hall, xliii; Dr. G. F. Fischer de Waldheim, xlv; British geology and the Geological Society's Proceedings, xlv; Murchison's *Siluria*, noticed, xlv; Sedgwick on the May Hill Sandstone and Palæozoic System of the British Isles, noticed, xlvii; Geological Survey, xlvii; Salter's Decade of Trilobites, noticed, xlix; E. Hopkins on vertical lamination of rocks, xlix; D. Sharpe on the structure of Mont Blanc and the cleavage-structure of rocks, l; D. Forbes on foliated rocks, l; Westwood on fossil insects of the Purbeck formation, li; Owen on fossil mammals and reptiles of the Purbeck formation, li; Egerton on fossil fish from Egypt, lii; Prestwich on the London Clay and the Bracklesham tertiaries, liii; Prestwich on the correlation of the British and foreign tertiaries, liv; Deshayes on estuary shells at Rilly, lv; Palæontographical Society's monographs, lv; Morris's Catalogue of British Fossils, lv; foreign geology, lvi; Murchison's researches in Thuringia and the Hartz, lvi; Credner's researches in Thuringia, lviii; Sandberger's researches in the Devonian mollusca, lix; F. Roemer's researches in the Devonian of the Eifel, lx; Kjerulf's researches in Christiania, lxi; De Koninck's and Le Hon's researches in the crinoidea, lxi; Geinitz's researches in the coal-deposits of Saxony, lxii; Rössler's and Reuss's researches in the fossils of the zechstein of the Wetterau,

INDEX TO THE PROCEEDINGS.

- lxiii; researches of Emmerich, Murchison, Hauer, Suess, Escher, and Merian in the trias of the Alps and in the San Casciano beds, lxiii; Renevier's researches at the Perte du Rhone, lxix; Bosquet's researches in the brachiopoda and crustacea of the Maestricht and Limburg beds, lxix; Bornemann's researches in the lias fossils of Göttingen, lxx; Reuss's researches in the cretaceous rocks of Gosau and Wolfgang, lxx; Jordan, Von Meyer, and Goldenberg's researches in the crustacea and insects of the Saarbruck coal-deposits, lxxi; tertiary geology, lxxi; Hébert's and Renevier's researches in the nummulitic fossils of Savoy, lxxi; researches in the tertiary deposits of the Netherlands by Harting and others, lxxii; Hébert's researches in the tertiaries of Paris, lxxiv; Boué on the depth of former seas and heights of former mountains, lxxv; Sandberger, Beyrich, Dunker, Hamilton, Reuss, Kuh, and Labecki on the tertiaries of North Germany, lxxv; Neugeboren on tertiary fossils in Transylvania, lxxx; Hörnes on the tertiaries of Hungary and Transylvania, lxxx; Bianconi on the pleiocenic ocean, lxxxi; Kaup's photographic illustrations of Darmstadt fossil mammalia, lxxxi; De Rayneval, Van den Hecke, and Ponzi on the tertiary fossils of Monte Mario, lxxxii; Massalongo on the fossil flora of Sinigaglia, lxxxiii; De Verneuil and De Lorière on the geology of Spain, lxxxiii; geology of Asia, lxxxiii; De Tchihatcheff on the geology of Asia Minor, lxxxiii; Loftus on the geology of the Turko-Persian frontier, lxxxvi; Greenough's geological map of India, lxxxvii; Hislop and Hunter on the geology of the Nagpur district, lxxxvii; Bayle and Ville on tertiary and secondary fossils from Oran and Algiers, lxxxviii; Foetterle's geological map of Central and Southern America, lxxxviii; general geological works, lxxxix; Ehrenberg's Mikrogeologie, lxxxix; Cotta's Geologischer Bilder, xc; Delesse and Saemann on the action of alkalies on rocks, xc; Delanoue on metamorphism, xc; conclusion, subdivision of geological formations, xci.
- Harkness, R., on the anthracitic schists and fucoidal remains occurring in the Lower Silurian rocks of South Scotland, 468.
- Hartz, palæozoic rocks of the, 430.
- Heaphy, C., on the gold-bearing district of Coromandel Harbour, New Zealand, 31.
- Hemiaster Forbesii*, 463.
- Hesse Cassel, the tertiaries of, 126.
- Highlands, geology of part of the, 544.
- Hippurites colliciatius*, 58.
- *cornu-vaccinum*, 42, 45.
- *corrugatus*, 58.
- , description of the shell of the, 41.
- *Loftusi*, 58.
- *radiosus*, 43.
- *Toncasianus*, 44.
- *vesiculosus*, 59.
- Hippuritidæ, affinities of the, 46; geological distribution of the, 53; Mr. Woodward on the, 40.
- Hirschberg, sections at the, 131.
- Hislop, S., on the connexion of the Umret coal-beds with the plant-beds of Nagpur, and of both with those of Burdwan, 555.
- Hislop, S., and R. Hunter on the geology and fossils of the neighbourhood of Nagpur, Central India, 345.
- Hooker, J. D., on some minute seed-vessels from the Eocene beds of Lewisham, 562; on some small seed-vessels from the Bovey Tracey coal, 566.
- Hopkins, E., on the vertical and meridional lamination of primary rocks, 143.
- Hornblende dykes in Southern India, 553.
- Howler's Heath, section of, 195.
- Hübingstein, section at, 440.
- Hudson Bay territories and other parts of North America, Mr. Isbister on the geology of, 497.
- Hull, E., on the physical geography and pleistocene phenomena of the Cotswold Hills, 477.
- Icebergs and glaciers, supposed existence of, in the Permian epoch, 185.
- Igneous rocks of the Turko-Persian frontier, 293; of Nagpur, 356.
- Impressed boulders of the old red conglomerates, 545.
- India, Central, labyrinthodont reptile from, 37; coal-deposits and plant-beds of, 555; geology of Nagpur in Central, 345; Southern, the red soil of, 552.
- Inoceramus expansus*, 462.
- Isbister, A. K., on the geology of the Hudson Bay territories, and of portions of the arctic and north-western regions of America, 497.

INDEX TO THE PROCEEDINGS.

- Isle of Wight, pleistocene land-surfaces of the, 116.  
 Jägersborg, sections at, 167, 173.  
 Jamaica, fossil mammal from, 541.  
 Jomfruland, section in the island of, 179.  
 Jura, raised beach in, 549.  
 Jurassic character of the Nagpur sandstone formation, 376; fossils from North-west America, 519; rocks of the Hartz, 447.  
 Kapanga, gold-diggings on the, 33.  
 Kattrra shales, 560.  
 Kerera Island, raised beach in, 549.  
 Kerkhah Valley, section in the, 265.  
 Keuper of the Hartz, 446; of Thuringia, 429; rocks of England, sections of the, 190, 193, 194; sandstone of Pendock, Rev. Mr. Symonds on fossils from the, 450.  
 Kimmeridge clay, fossil naked cephalopod from the, 124.  
 Kirrind, sections at, 265, 275.  
 Kjerulf's geological map of Christiania, Sir R. I. Murchison on, 161.  
 Kota, bituminous shales of, 559.  
 Krageroe, section near, 177.  
 Kupfer-schiefer of the Hartz, 444; of Thuringia, 425.  
 Labyrinthodont reptile from Central India, Prof. Owen on the cranium of a, 37.  
 Lacustrine deposit in Luristan, 251.  
 Lake of Urumia, 306; of Van, 317.  
 Lamination of rocks, Mr. E. Hopkins on the, 143.  
 Landenian sands, 211.  
 Land-surfaces beneath the drift-gravel, Mr. Austen on the, 112.  
 Laterite of the Nagpur territory, 353, 355.  
 Lauthenthal, section of the, 439.  
 Lechampton Hill, ancient sea-beach at, 487.  
 Leimbach, section at, 443.  
 Lewisham, fossil seed-vessels from, 562.  
 Library Committee, Report of the, iii.  
 Lickey, section of the, 190.  
 Lignites of Bovey Tracey, 566; of the Mackenzie River basin, 511; of the Woolwich and Reading series and the lignites du Soissonnais, 217; of New Zealand, 521.  
 Limestone-gravel of Dizful, 252.  
 List of works relating to the geology of the northernmost parts of America, 498.  
 Lits coquilliers and Sables divers, 232.  
 Loftus, W. K., on the geology of portions of the Turko-Persian frontier and of the districts adjoining, 247.  
 London clay and the French tertiaries, table of fossils found in the, 227.  
 ——— and the Ypresien inférieur, 229.  
 London tertiaries, 206.  
 ——— tertiary district, Mr. Prestwich on the sand-pipes in the chalk of the, 64.  
 Lower tertiaries of France, Belgium, and England, 206.  
 Lunga Islands, raised beach in, 549.  
 Luss, quartz-vein at, 170.  
 Mackenzie River, geology of the, 509.  
 Magdeburg, tertiaries of, 135.  
 Mägdesprung, section at, 432.  
 Mahadewa Hills, coal-deposits of the, 556.  
 Mangali, fossil reptilian skull from, 37; sandstone with plants at, 370.  
 Marlstone platforms of the Cotteswolds, 485.  
 Marshes of the Bay of Fundy, 122.  
 Massacre Bay, coal from, 528.  
 Matawai, gold-diggings on the, 34.  
 Mayence basin, age of the tertiary beds of the, 137.  
 Merian, on the St. Cassian beds between the keuper and the lias in the Vorarlberg Alps, 451.  
 Metallic minerals of the Peel River district, 402.  
 Metals found near Nagpur, 380.  
 Metamorphic and Devonian rocks of the Eastern Grampians, Prof. Nicol on the, 544.  
 Metamorphic rocks of Nagpur, 351, 379; of the Turko-Persian frontier, 290.  
 Mica-schist with dichroit, 174.  
 Minerals in the trap-rocks of Nagpur, 366.  
 Monopleura imbricata, 51.  
 Mont Blanc, Mr. Sharpe on the structure of, 11.  
 Moray, a Pterichthys from, 31.  
 Morris, J., and Sir R. I. Murchison on the palæozoic rocks of Thuringia and the Hartz, 409.  
 Motopipi, coal from, 528.  
 Mountain-ranges of South Africa, 6.  
 Mount Grey, New Zealand, geology of, 525.  
 Mungerrah, section at, 272.  
 Murchison, Sir R. I., additional observations on the Silurian and Devonian rocks near Christiania in Norway, 161; reply to the President on receiving the Wollaston Medal for Sir H. T. Delabeche, xxiii; on the occurrence of numerous fragments of fir-wood in the Arctic Archipelago,

INDEX TO THE PROCEEDINGS.

- with remarks on the rock-specimens brought from that region, 536; and J. Morris, on the palæozoic and their associated rocks of the Thüringerwald and the Hartz, 409.
- Muschelkalk of the Alps, 452; of the Hartz, 446; of Thuringia, 429.
- Museum Committee, Report of the, iv.
- Nagpur and its vicinity, Central India, Rev. Messrs. Hislop and Hunter on the geology of, 345; plant-beds of, 555.
- Natal, cretaceous rocks and fossils from near, 453; Dr. Sutherland on the geology of, 465.
- Natica multistriata*, 460.
- Nelson, New Zealand, geology of, 524.
- Nereites multiforis, 476.
- New South Wales, fossil bones in the auriferous alluvium of, 405; obsidian bombs in the auriferous alluvium of, 403; the Rev. Mr. Clarke on the geology of, 408.
- New Zealand, geology of part of, 530; geology of the coast-line of, 521; gold-diggings in, 31.
- Nice and its vicinity, Major Charters on the geology of, 35.
- Nicol, J., on the section of the metamorphic and Devonian strata at the eastern extremity of the Grampians, 544.
- North America, geology of part of, 497.
- Northern drift of the Cotteswolds, 492.
- Northern Germany, brown coal of, 550; relative age of the tertiaries of, 136.
- Norway, foliated structure of rocks in, 166; Silurian and Devonian rocks of, 161.
- Nova Scotia, reptilian remains in the coal of, 8; submerged forests of, 119.
- Nummulitic rock from near Varna, Mr. Hamilton on a specimen of, 10; rocks of the Turko-Persian frontier, 270.
- Ober Kaufungen, section at, 129.
- Obsidian bombs in the auriferous alluvia of New South Wales, Rev. Mr. Clarke on, 403.
- Odernheimer, F., on the geology of part of the Peel River district in Australia, 399.
- Old red sandstone of Moray, a Pterichthys from the, 31.
- Orange River Sovereignty, gold found in the, 1.
- Oregon territory, geology of the, 517.
- Oronsay, raised beach in, 549.
- Orthography, Arabic, 325; Hindu, 345.
- Ostrea cornucopia, 41.
- Owen, R., additional remarks on the skull of *Baphetes planiceps*, 9; description of the cranium of a labyrinthodont reptile from Mangali, Central India, 37; notice of a new species of an extinct genus of dibranchiate cephalopod from the upper oolitic shales at Kimmeridge, 124; notice of some new reptilian fossils from the Purbeck beds near Swanage, 123; on the fossil cranium of *Dicynodon* from South Africa, 532; on the fossil skull of a mammal from Jamaica, 541; on the remains of *Dicynodon* from South Africa, 541.
- Palæochorda major, 473.
- *teres*, 474.
- Palæozoic rocks of Saxony, 417; of the Turko-Persian frontier, 290; of Thuringia and the Hartz, Sir R. I. Murchison and Prof. Morris on the, 409.
- Panna sandstones, 560.
- Paris tertiary group, 208.
- Peat-beds at Bovey Tracey, 566.
- Pebble-beds of the English and French tertiaries, 220.
- Peel River district, Mr. Odernheimer on the geology of the, 399.
- Pendock, Worcestershire, fossils from the keuper of, 450.
- Permian breccia of Shropshire and Worcestershire, Prof. Ramsay on the, 187; epoch, probable climate of the, 203; epoch, Prof. Ramsay on the probable existence of glaciers and icebergs in the, 185; rocks of England, sections of the, 188, 190; of the Hartz, 443; of Thuringia, 418.
- Persia, geology of parts of, 247.
- Physical geography of part of New Zealand, 31; of the Cotteswold Hills, 477; of the Nagpur district, 345.
- Pictou, reptilian skull in the coal of, 8.
- Pine-cone from Bovey Tracey, 567.
- Pipes and furrows in calcareous and non-calcareous strata, Mr. Trimmer on, 62.
- Plan and sections of Dumbarton Rock, 28.
- Plants, fossil, from the Bovey Tracey lignite, 566; from the keuper of Worcestershire, 451; of the sandstone formation of Central India, 371.
- Pleistocene deposits at West Hackney, 107; at Wear Farm, near the Redcliffers, 110; near Salisbury, 101; of northernmost America, 514.
- fossils of North-west America, 520.
- land-surfaces, Mr. Austen on, 112.
- phenomena of the Cotteswolds, 487.

INDEX TO THE PROCEEDINGS.

- Plutonic rocks of Nagpur, 351, 379 ;  
of the Turko-Persian frontier, 291.
- Port Lloyd, tidal phenomenon at, 532.
- Port Nicholson, Mr. Crawford on the  
geology of, 530.
- Preservation Island, coal from, 528.
- Prestwich, J., on a fossiliferous bed of  
the drift-period near the Reculvers,  
110 ; on a fossiliferous deposit in the  
gravel at West Hackney, 107 ; on the  
correlation of the eocene tertiaries  
of England, France, and Belgium,  
206 ; on the origin of the sand- and  
gravel-pipes in the chalk of the Lon-  
don tertiary district, 64 ; and J.  
Brown, on a fossiliferous drift near  
Salisbury, 101.
- Prorastomus sirenoïdes*, 541.
- Protovirgularia dichotoma, 475.
- Pterichthys from the old red sand-  
stone of Moray, Capt. Brickenden on  
a, 31.
- Purbeck, reptilian remains from, 123.
- Pusaasen, section at, 178.
- Quartz-vein near Ballarat, section of,  
396.
- Radiolites cylindraceus, 45 ; description  
of the shell of, 46.  
— Hœninghausii, 49.  
— mammillaris, 46, 48.  
— *Mantelli*, 60.  
— Mortoni, 47, 59.
- Raised beach of Lechampton Hill, 487.
- Raised beaches in Argyllshire, Capt.  
Bedford on some, 549.
- Ramsay, A. C., on the occurrence of  
angular, subangular, polished, and  
striated fragments and boulders in  
the Permian breccia of Shropshire,  
Worcestershire, &c., and on the pro-  
bable existence of glaciers and ice-  
bergs in the Permian epoch, 185.
- Rastrites Barrandi, 475.
- Reculvers, pleistocene deposits near  
the, 110.
- Red soil of Nagpur, Central India, 354 ;  
of Southern India, Dr. Gilchrist on  
the, 552.
- Regur of Nagpur, 354.
- Report, Annual, i ; of the Council, i ;  
of the Library Committee, iii ; of the  
Museum Committee, iv.
- Reptilian skull in the coal of Pictou,  
Nova Scotia, 8.  
— remains from Swanage, Prof.  
Owen on, 123.
- Requienia ammonia, 54.  
— Lonsdalei, 53 ; shell of, 53.
- Rhytidosporum ovulum*, 562.
- Rise of land in New Zealand, 531.
- Rock-salt of Urumia, 306, 309.
- Rocks, foliated structure of, 11, 143,  
166.
- Rocky Mountains, geology of the, 501.
- Rosales, H., on the gold-fields of Bal-  
larat, Eureka, and Creswick Creek,  
Victoria, 395.
- Rothe-todte-liegende of Thuringia, 418.
- Rubidge, R. N., on the occurrence of  
gold in the trap-dykes intersecting the  
Dicynodon strata of South Africa, 1.
- Rudista, the structure and affinities of  
the, 40.
- Saalfeld, section near, 415.
- Sables inférieurs, group of the, 208.
- Sachswerfen, section at, 445.
- St. Cassian beds in the Vorarlberg,  
Prof. Merian on the, 451.
- Salisbury, fossiliferous drift near, 101.
- Salt of the Lake of Urumia, 306, 309.
- Sandison, D., notice of the earthquakes  
at Brussa, 543 ; notice of the occur-  
rence of coal near the Gulf of Nico-  
media, 476.
- Sand-pipes, Mr. Prestwich on, 64 · Mr.  
Trimmer on, 62.
- Sandstone formation of Central India,  
560 ; of the Nagpur territory, 352,  
369.
- Sand-worn granite in Cornwall, Mr.  
Fox on, 549.
- Saurillus obtusus*, 123.
- Saxony, palæozoic rocks of, 417.
- Scalaria ornata*, 459.
- Scandinavia, Silurian and Devonian  
rocks of, 163.
- Schistose rocks of Nagpur, 351, 379 ;  
of the Turko-Persian frontier, 290.
- Scotland, foliated structure of rocks in,  
166 ; metamorphic and Devonian  
rocks of a part of, 544.
- Secondary rocks of the Hartz, 446 ; of  
the Turko-Persian frontier, 283.
- Sections and plan of Dumbarton Rock,  
28.
- Selmas, section of the plain of, 300.
- Sharpe, D., on the structure of Mont  
Blanc and its environs, 11.
- Shingle-beach at Lechampton Hill, 487.
- Shropshire and Worcestershire, the  
Permian rocks of, 187.
- Silicification of slaty rocks in Australia,  
400 ; (supposed) of limestone in  
Norway, 183.
- Silurian and Devonian rocks of Chris-  
tiania, Sir R. I. Murchison on the,  
161.
- Silurian basin of Hudson Bay, 503 ; of  
Lake Winnipeg, 501.  
— rocks of Great Slave Lake, 510 ;  
of the Hartz, 431 ; of Thuringia, 412.  
— schists of South Scotland, 473.

INDEX TO THE PROCEEDINGS.

- Sitabaldi Hill, section of, 350.  
 Skull of a labyrinthodont reptile from Mangali, 37; of *Baphetes planiceps* from the coal of Pictou, Mr. Dawson and Prof. Owen on the, 8.  
 Smithfield, South Africa, gold found near, 1.  
 Soda-basins at the Lake of Van, 312, 320.  
 Soils of the Cotteswolds, analyses of, 495.  
*Solarium pulchellum*, 457.  
 South Africa, cranium of *Dicynodon* from, 532; copper-bearing rocks of, 467; cretaceous fossils from, 454; cretaceous rocks in, 453; geology of part of, 465; gold in, 1; mountain-ranges of, 6; remains of *Dicynodon* from, 532, 541.  
 Sphærolite-limestone of the Turko-Persian frontier, 284.  
 Sphærolites, structure of, 46.  
 Stagbury Hill, section of, 193.  
 Stoke Newington, Mr. Prestwich on the gravel at, 107.  
 Structure of sand-pipes, 77.  
 Submerged forest in Nova Scotia, Mr. Dawson on, 119.  
 Sutherland, P. C., on the geology of Natal, South Africa, 465.  
 Swanage, reptilian remains from, 123.  
 Switzerland, cleavage-structure of rocks in, 11.  
 Symonds, W. S., notice of fossils from the keuper sandstone of Pendock, Worcestershire, 450.  
 Table of the correlation of the tertiaries of England, France, and Belgium, 240; of the marlstone platforms of the Cotteswolds, 485; of the palæozoic rocks in Germany, 448.  
 Tangs or clefts in the Turko-Persian frontier, 282.  
 Tennessee, copper in, 8.  
 Tertiaries of England, France, and Belgium, Mr. Prestwich on the correlation of, 206.  
 Tertiary formations of North Germany, Mr. Hamilton on the, 126.  
 — fossils of North-west America, 517, 519.  
 — rocks of the Turko-Persian frontier, 254.  
 Thanet sands and the Landenien inférier, 211.  
 Thüringerwald, palæozoic rocks of, 409.  
 Tidal phænomenon at Port Lloyd, Mr. Graves on a, 532.  
 Trap-dykes, gold in, South Africa, 1.  
 Trap-rocks of Nagpur, 351, 356, 367; of the Turko-Persian frontier, 293.  
 Travertin springs of Derik, 302.  
 Trias of the Hartz, 446; of Thuringia, 428.  
*Trichoides ambiguus*, 474.  
*Trigonia elegans*, 461.  
 Trimmer, J., additional observations on the occurrence of pipes and furrows in calcareous and non-calcareous strata, 62.  
 Tufaceous rocks of the Turko-Persian frontier, 302, 310.  
 Turkey in Asia — geology of parts of, 247.  
 Turko-Persian frontier, Mr. Loftus on the geology of the, 247.  
*Turritella Bonei*, 458.  
 — *Meadii*, 458.  
 — *Renauxiana*, 458.  
 Umret coal-deposits, 535.  
 Urumia, lake of, 306.  
 Val Ferret, structure of the rocks of, 21.  
 Valleys of the Cotteswolds, 481.  
 Van, lake of, 307.  
 Varna, nummulitic rock from, 10.  
 Vertical and meridional lamination of rocks, Mr. E. Hopkins on, 143.  
 Voelcker, A., analyses of soils from the Cotteswold Hills, 495.  
 Volcanic bombs in the auriferous alluvium of New South Wales, 403.  
 — rocks of the Turko-Persian frontier, 293, 313.  
*Voluta rigida*, 459.  
 Vorarlberg, St. Cassian beds in the, 451.  
 Waikato, coal from, 529.  
 Warp-drift of the Cotteswolds, 489.  
 Wars Hill, section of, 192.  
 Wattle Flat, section of, 406.  
 Weinheim, age of the tertiary beds at, 137.  
 Weiss-liegende of Thuringia, 424.  
 Wellenkalk of Thuringia, 429.  
 Westeregeln, tertiary beds at, 135.  
 Wetterau, brown coal of the, 142.  
 Wey, gravels and old land-surfaces of the Valley of the, 115.  
 Wollaston Medal, award of the, xxi.  
 Woodbury Hill, section of, 193.  
 Woodward, S. P., on the structure and affinities of the Hippuritidæ, 40.  
 Woolwich and Reading series, 217.  
 Woolwich sands and sables de Bra-cheux, 213.  
 Worcestershire and Shropshire, the Permian rocks of, 187.  
 Worcestershire, keuper fossils from, 450.  
 Ypresian clay and sands, 229, 232.  
 Zechstein of the Hartz, 444; of Thuringia, 425.
