## DISCUSSION OF PAPERS IN THE QUARTERLY JOURNAL

The pages of the *Quarterly Journal* are open for the discussion of papers which have already appeared in the *Journal*.

While every Fellow may contribute to these discussions, they are intended primarily for the benefit of Fellows (and particularly those resident overseas) who are unable to attend the meetings of the Society, and to afford such Fellows a closer contact with the Societies activities.

Contributions to these discussions should not as a rule exceed 250 words (half a page of the *Journal*), and they will be subject to editing by the Secretaries. They should be typewritten, and the title of the paper discussed, and the name of its author, appear plainly at the top of the typescript.

It will not be possible for the Secretaries to enter into correspondence about contributions or to submit proofs to the contributors.

Participation in the discussion at a meeting, and the publication of his remarks in the *Proceedings*, will not preclude a Fellow from making a contribution to the subsequent *Journal* discussion.
