## LIST OF THE PLATES

PLATE NOS.	Facing page
I. (1) The Dead Sea Rift and adjacent region, showing streams for which profiles have been constructed; (2) Lava flows on the Arabia block, related to principal river profiles	18
II. (1) Projected profiles of the Sinai-Palestine block; (2) Reconstructed stream profiles for the Sinai-Palestine block; (3) Projected profiles of the Arabia block, viewed from the south-west; (4) Reconstructed stream profiles for the Arabia block; (5) Projected profiles of the Arabia block, viewed from the north-east	18
III. Structural map of the Schichallion complex	44
IV. Gondwanaland during the late Carboniferous, early Permian, late Triassic, and latest Jurassic-earliest Cretaceous	70
V. Metasomatized spilites from the Builtth Volcanic Series	160
VI. Banding and structures in the Aberystwyth Grits	190
VII & VIII. Structures in the Aberystwyth Grits	190
IX. Geological and structural map of the ground between Loch Duich and Glen More, North-West Highlands of Scotland	254
X. Banding in the Main Donegal Granite	300
XI. Mullion structures in the Main Donegal Granite	300
XII. Rafts in the Main Donegal Granite	300
XIII. Map of the Main Donegal Granite and its envelope	300
XIV. Diagrammatic geological map of North-East Vestspitsbergen	340
XV. Diagrammatic topographical map of North-East Vestspitsbergen	340
XVI & XVII. Rocks from the lower margin of the Shiant Isles sill	364
XVIII. Tertiary basalt scenery, eastern Iceland	390
XIX. Geological map of the Reydarfjörður area of eastern Iceland	390
XX. Map of the Carboniferous Limestone of the Monyash-Wirksworth area of Derbyshire	424
XXI. Geological map of the Knighton district, Radnorshire	478
XXII. Geological map of the Usk inlier, Monmouthshire	516
