## DISCUSSION OF PAPERS IN THE QUARTERLY JOURNAL

The pages of the *Quarterly Journal* are open for the discussion of papers which have already appeared in the *Journal*.

While every Fellow may contribute to these discussions, they are intended primarily for the benefit of Fellows (and particularly those resident overseas) who are unable to attend the meetings of the Society, and to afford such Fellows a closer contact with the Society's activities.

Contributions to these discussions should not as a rule exceed 250 words (half a page of the *Journal*), and they will be subject to editing by the Secretaries. They should be typewritten, and the title of the paper discussed and the name of its author, appear plainly at the top of the typescript.

It will not be possible for the Secretaries to enter into correspondence about contributions or to submit proofs to the contributors.

Participation in the discussion at a meeting, and the publication of his remarks in the *Proceedings*, will not preclude a Fellow from making a contribution to any subsequent *Journal* discussion.

---

## NOTICE TO INTENDING AUTHORS OF PAPERS

Authors proposing to submit papers for publication in the *Quarterly Journal* are advised to apply to the Assistant Secretary for a copy of the *Notes on the preparation of papers for publication in the Quarterly Journal*. The pamphlet sets out the Council's requirements in the typescript and illustration of papers submitted for publication and offers suggestions which should assist authors to comply with those requirements.

---

The Geological Society is a signatory to the **Fair Copying Declaration**, under which no objection is made to the making of *single copies* of parts of the Society's publications under certain limited and stated conditions. Details of the Declaration may be obtained from the offices of the **Royal Society**, Burlington House, London, W.1, upon application.

# CONTENTS

	PAGE
1. F. W. SHOTTON and I. STRACHAN. The investigation of a peat moor at Rodbaston, Penkridge, Staffordshire. (Plate I) . . . . .	1
2. W. E. TREMLETT. The structure of the Lower Palaeozoic rocks of the Arklow district (Ireland). (Plate II) . . . . .	17
3. D. A. ROBSON. The geological structure of the Wadi el Dirba area of Sinai . . . . .	41
4. I. M. VAN DER VLERK. Problems and principles of Tertiary and Quaternary stratigraphy. (Fourteenth William Smith Lecture) . . . . .	49
5. W. R. DEARMAN. The structure of the Culm Measures at Meldon, near Okehampton, North Devon . . . . .	65

---

The Editor of the *Quarterly Journal* is directed to make it known to the Public that the authors alone are responsible for the facts and opinions contained in their respective papers, and for the correctness of their references.

---

## DATES OF MEETINGS FOR THE SESSION 1959-1960

1959 : October 7 & 28, November 11 & 25, December 16.  
1960 : January 6 & 27, February 10 & 24, March 16, April 6, April 27 (*Annual General Meeting*), May 11, June 1 (*William Smith Lecture*), June 22.

---

The Apartments of the Society, including the Library, are open on weekdays from 10 a.m. until 5 p.m., except on Saturdays, when they close at 1 p.m.
