

ALPHABETICAL INDEX

TO THE

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

[The fossils referred to are described, and those of which the names are printed in italics are also figured.]

- Acanthophyton spinosum*, 324.
Alethopteris decurrens, 322.
— *ingens*, 322.
— from St. John, N.B., 322.
Aller, section at, 14.
Alpine blocks, transport of, 185.
Alpine glaciers, distribution of, 187.
Alpine lakes, origin of, 188; summary with regard to, 199.
Alum Bay, Bracklesham beds at, 84; fossils from, 84; list of beds at, 84; section at, 89.
America, Carboniferous rocks of, 142; Crustacea from British North, 346; Flora of the Devonian period in North-eastern, 296; glacial origin of certain lakes in North, 185; petroleum-springs in North, 3.
Analysis of green colouring matter in the Bracklesham beds, 86.
Andromeda reticulata, 373.
Anglesea, Carboniferous rocks of, 140.
Annandale, section at, 217.
Anniversary Address, xxvii-liv. See also Murchison, Sir R. I.; Smyth, W. W., Esq.; and Huxley, Prof. T. H.
Annual Report, i.
Annularia acuminata, 312.
Aporoxylon, 306.
Araucarites Ouangondianum, 306.
Asterophyllites acicularis, 310.
— *latifolia*, 311.
— *longifolia*, 311.
— *parvula*, 311.
— *scutigera*, 311.
Athyris Royssii, 27.
— *subtilita*, 28.
Aulosteges Dalhousii, 33.
Australia, Mesozoic and Permian Faunæ in Eastern, 244.
Award of the Wollaston Donation-fund, xxix; Medal, xxvii.
Aye-aye, teeth of the, 359.
Ayr, section in the valley of the, 439.
Ayrshire, coal-measures of, 437.
Baggy Point, flint arrow-heads from, 114.
Ballochmoyle Braes, section at, 441.
Bandon, valley of the, 390, 393.
Banffshire coast, metamorphic rocks of the, 331; section of the, 333.
Barrow, Nore, and Suir, valleys of the, 385, 398.
Barton Cliff, section of, 87.
Basement-bed of the London Clay, 269.
Beckles, S. H., Esq., on some natural casts of reptilian footprints in the Wealden beds of the Isle of Wight and of Swanage, 443.
Bedford, flint implements in the gravel near, 113.
Bedwin district, geology of the, 260.
Belgium, section in, 132.
Berridale, section at, 337.
Binney, E. W., Esq., on some fossil plants, showing structure, from the lower coal-measures of Lancashire, 106; on some upper coal-measures containing a bed of limestone at Catrine in Ayrshire, 437.
Black Forest, glacial origin of certain lakes in the, 185.
Blackwater, valley of the, 386.
Blocks, transport of Alpine, 185.
Bolton, J., Esq., on a deposit with insects, leaves, &c., near Ulverston, 274.
Bone-cave at Wookey Hole, near Wells, Mr. Dawkins on a, 115.
Bone-caves of Lunel-Viel, Prof. M. de Serres on the, 1.

INDEX TO THE PROCEEDINGS.

- Bones from Wookey Hole, near Wells, 122.
- Boulder in Little Cumbra, Mr. J. Smith on a split, 162.
- Bovey deposit, formation of the, 18; Mr. J. H. Key on the, 9; materials of the, 15; strata of the, 10.
- Bovey Pottery, section at the, 11.
- Brachiopoda from India, 25.
- Bracklesham Bay, 73; list of beds at, 74.
- Bracklesham beds, analysis of green colouring matter in, 86.
- Bracklesham beds at Alum Bay, 84; Bracklesham Bay, 73; Bramshaw, 80; Brook, 82; Bury Cross, 76; Corfe, 83; Fort Gomer, 77; High Cliff, 86; Hunting Bridge, 79; Mixen Rocks, 76; Netley, 79; Poole, 83; Rowner Fort, 77; Shepherd's Gutter, 80; Stubbington, 77; White Cliff Bay, 67; correlation of the fossiliferous localities of the, 92; list of fossils of the, 70; near Selsea, 76; of the Isle of Wight Basin, the Rev. O. Fisher on the, 65; New Forest, 79; pebble-beds of the, 90; western range of the, 83.
- Bramshaw, Bracklesham beds at, 80.
- Bridge of Allan, Old Red Sandstone of the, 254; section at the, 256.
- Britain, Carboniferous rocks of, 127; glacial origin of certain lakes in, 185.
- British Isles, lines of deepest water around the, 37; map of the, 41.
- British North America, Crustacea from, 346.
- Brook, Bracklesham beds at, 82.
- Bury Cross, Bracklesham beds at, 76.
- Bushbury, drift with shells near, 160.
- Calamites cannaeformis, 310.
— *inornatus*, 310.
— Transitionis, 309.
- Callander, section at, 256.
- Camarophoria Purdoni*, 30.
- Canada, Devonian plants from, 298.
- Canoes in the alluvium of the Clyde, 221.
- Carboniferous Brachiopoda from India, Mr. Davidson on, 25.
- Carboniferous Limestone, fossil fishes of the, 99; of Oreton and Farlow, Prof. Morris and Mr. Roberts on the, 94; section of the, 97.
- Carboniferous rocks, Mr. Hull on the iso-diametric lines of the, 127.
- Carboniferous rocks of America, 142; Anglesea, 140; Cumberland, 141; Derbyshire, 140; Flintshire, 140; Gloucestershire, 142; Lancashire, 140; Leicestershire, 139; Notts, 140; Scotland, 141; Somersetshire, 142; South Wales, 142; Staffordshire, 139; Warwickshire, 139; Yorkshire, 140.
- Carboniferous strata near Paisley, crustacean from the, 421.
- Cardiocarpum cornutum*, 324.
— *obliquum*, 324.
- Carpolithes globulus*, 375.
— *Websteri*, 375.
- Carruthers, W., Esq., on a section in Junction-road, Leith, 450.
- Catrine, Ayrshire, coal-measures at, 437.
- Cave at Wookey Hole, near Wells, 115.
- Caves of Lunel-Viel, 1.
- Chalk, surface-deposits on the, 265.
- Chara Escheri, 375.
— tuberculata, 376.
- Charnwood Forest, section in, 137.
- Cheiromys Madagascariensis*, 368; teeth of, 359.
- Chemical composition of the granites of Donegal, 408.
- Chirbury, crustacean track from, 347.
- Chiton* from near Settle, 236; *Chiton*?, 235.
— *Burrowianus*, 234.
— *coloratus*, 235.
- Chitons from the Mountain-limestone, Mr. Kirkby on, 233.
- Clarke, Rev. W. B., on the occurrence of Mesozoic and Permian Faunæ in Eastern Australia, 244.
- Cleavage- and joint-planes in the granite of Donegal, 404.
- Clee Hills, Carboniferous Limestone of the, 94.
- Clyde, alluvium of the, 221.
- Coal-field, Labyrinthodonts from the Edinburgh, 291.
- Coal-measures of Ayrshire, Mr. Binney on the, 437.
- Coal-measures of British North America, Crustacea from the, 346.
- Coal-measures of Lancashire, Mr. Binney on some fossil plants from the, 106.
- Coal-measures of Nova Scotia, Dr. J. W. Dawson on reptiles from the, 5; Prof. Owen on Reptilia from the, 238.
- Coast of India, death of fishes off the, 453.
- Compton Bay to Atherfield, section from, 444.
- Constance, lake of, 198.
- Cordaites angustifolia*, 318.
— *Robbii*, 316.

INDEX TO THE PROCEEDINGS.

- Cordaites* (?) from British North America, 318.
 Corfe, Bracklesham beds at, 83.
 Cork and Waterford, geological map of, 389.
 Council, Report of the, i.
 Courtney Bay, section at, 300.
 Crinan, ice-action at, 165.
 Crustacea, a new genus of Silurian, 347.
 Crustacea from the Coal-measures and Devonian rocks of British North America, Mr. Salter on, 346.
 Crustacean from the Carboniferous strata near Paisley, Prof. Huxley on a, 420.
 Crustacean track in the Llandeilo flags, Mr. Salter on a, 347.
 Cumberland, Carboniferous rocks of, 141; geology of West, 214.
 Cumberland Plain, Permian strata in, 205; section at, 215.
 Cumbra, Mr. J. Smith on a split boulder in, 162.
Cyclopteris Brownii, 320.
 — *Halliana*, 318.
 — *incerta*, 320.
 — *Jacksoni*, 319.
 — *obtusa*, 319.
 — *valida*, 319.
 — *varia*, 319.
Cyperites Forbesi, 373.
 Dadoxylon Ouangondianum, 306.
 — *Hallii*, 306.
 Davidson, T., Esq., on some Carboniferous Brachiopoda collected in India by A. Fleming, M.D., and W. Purdon, Esq., F.G.S., 25.
 Dawkins, W. B., Esq., on a hyæna-den at Wookey Hole, near Wells, 115.
 Dawson, Dr. J. W., notice of the discovery of additional remains of land-animals in the coal-measures of the South Joggins, Nova Scotia, 5; on the flora of the Devonian period in North-eastern America, 296; Reptilia discovered by, 238.
 Death of fishes during the monsoon, Sir W. Denison on the, 453.
 Decoy, near Bovey, section at the, 13.
Dendrerpeton Acadianum, 242.
 Denison, Sir W., on the death of fishes during the monsoon off the coast of India, 453.
 Depth of water around the British Isles, 37.
 Derbyshire, Carboniferous rocks of, 140.
 Devonian flora, 296; character of the, 328.
 Devonian period in North-eastern America, flora of the, 296; fauna of the, 5, 238.
 Devonian plants from Canada, 299; Maine, 298; New Brunswick, 299; New York, 297.
 Devonian rocks of British North America, Crustacea from the, 346.
 Devonshire, flint arrow-heads from Baggy Point, 114.
 Diagram-section of a formation, 135.
Didymophyllum reniforme, 309.
 Diplopterus, 435.
Diprotodon australis (?), 423.
 — *minor*, 423.
 Diprotodon, Prof. Huxley on, 422.
 Donations to the Library, xii, 43, 147, 278, 454; Museum, ix.
 Donegal, granites of, 403.
 Drift-beds of Scotland, 165; Wolverhampton, 159.
 Drift-period, climate of the, 180; fauna of the, 113, 160, 180.
 Drift with recent shells, the Rev. W. Lister on, 159.
 Dumfriesshire, geology of South-eastern, 214; Permian strata in, 205.
 Eden, Prof. Harkness on Permian strata in the Vale of the, 205.
 Edinburgh coal-field, Labyrinthodonts from the, 291.
 Egerton, Sir P. de M. G., Bart., on a new species of *Pterichthys* (*P. macrocephalus*) from the yellow sandstone of Farlow, Shropshire, 103.
 Elevation of Central Scotland, Mr. Geikie on the, 218.
 Eocene beds, westerly thinning of the Lower, Mr. Whitaker on the, 258.
 Eocene fossils from the Isle of Wight, Prof. Sandberger on, 330.
 Erosion of rocks in Scotland, cause of the, 167.
 Eruption of Vesuvius, Prof. Palmieri on the, 186; M. Tchihatcheff on the, 126.
 Etna, volcanic cones of, 20.
 Eurypterus, Mr. Salter on, 346.
 Everest, Rev. R., on the lines of deepest water around the British Isles, 37.
 Falconer, Dr. H., on the disputed affinity of the mammalian genus *Plagiavilar*, from the Purbeck beds, 348.
 Farlow, Shropshire, Carboniferous Limestone of, 94; section at, 97; Sir P. Egerton on a new species of *Pterichthys* from, 103.
 Fifeshire, geological sketch-map of, 429; Old Red Sandstones of, 427.

INDEX TO THE PROCEEDINGS.

- Fisher, Rev. O., on the Bracklesham beds of the Isle of Wight Basin, 65.
 Fishes, death of, 453.
 Fleming, Dr., Brachiopoda collected in India by, 25.
 Flint arrow-heads (?) from North Devon, Mr. Whitley on, 114.
 Flint implements at Wookey Hole, 117; in the gravel near Bedford, 113.
 Flintshire, Carboniferous rocks of, 140.
 Flora of the Devonian period in North-eastern America, Dr. Dawson on the, 296.
 Footprints from the Wealden, 247, 443.
 Formation, diagram-section of a, 135.
 Fort Gomer, Bracklesham beds at, 77.
 Forth, alluvium of the, 225.
 Fossil fishes of the Carboniferous Limestone, 99.
 Fossil plants from the Isle of Wight, 369; lower coal-measures of Lancashire, Mr. Binney on, 106.
 Fossils from Alum Bay, 84; High Cliff, 88; Hunting Bridge, 79; the Bedford gravel, 113; the Isle of Wight, 330; Wookey Hole, near Wells, 122; Mesozoic and Permian, in E. Australia, 244; of the Bracklesham beds, list of the, 70; Old Red Sandstone, 258; Old Red Sandstones of Fifeshire, 433; Permian, at Hilton Beck, Cumberland, 215.
 Gamrie to Cullen, section from, 333.
 Geikie, A., Esq., on the date of the last elevation of Central Scotland, 218.
 Gemmellaro, Signor G. G., on the volcanic cones of Paternó and Motta (Sta. Anastasia), Etna, 20.
 Geneva, lake of, 193.
 Geological map of Cork and Waterford, 389; of part of Fifeshire, 429.
 Geological structure of the Southern Grampians, Prof. Nicol on the, 443.
 Geology of the gold-fields of Nova Scotia, 342; Zanzibar, Mr. Thornton on the, 447.
 Gesner, Dr. A., on the petroleum-springs in North America, 3.
 Gilmerton ironstone, Labyrinthodont from the, 291.
 Glacial origin of certain lakes, Prof. Ramsay on the, 185.
 Glacial striæ in Scotland, direction of, 167, 183.
 Glacial surface-markings near Liverpool, Mr. Morton on, 377.
 Glacial theory of lakes, 203.
 Glaciation of Scotland, Mr. Jamieson on the, 164.
 Glaciers and tarns, connexion of, 188.
 Glaciers, distribution of Alpine, 187.
 Glen Roy, terraces of, 171; Spean, 171.
 Gloucestershire, Carboniferous rocks of, 142.
 Glyptolæmus, 434.
 Glyptolepis, 435.
 Glyptopomus, 435.
 Godwin-Austen, R. A. C., Esq., reply on receiving the Wollaston Medal, xxviii.
 Gold-fields of Nova Scotia, the Rev. D. Honeyman on the, 342.
 Granites of Donegal, chemical composition of the, 408; cleavage- and joint-planes of the, 404; geological relations of the, 406; minerals of the, 410; the Rev. S. Houghton on the, 403.
 Gravel, flint implements in the, 113.
 Great Oolite, distribution of the strata of the, 134.
 Great Ormside, section at, 206.
 Greywethers, age of the, 271.
 Harkness, Prof. R., on the metamorphic rocks of the Banffshire coast, the Scarabins, and a portion of East Sutherland, 331; on the position of the Pteraspis-beds, and on the sequence of the strata of the Old Red Sandstone series of South Perthshire, 253; on the sandstones and their associated deposits in the Vale of the Eden, the Cumberland Plain, and the South-east of Dumfriesshire, 205.
 Hartside, section at, 210.
 Hastings, footprint of Iguanodon at, 247.
 Houghton, Rev. S., experimental researches on the granites of Donegal, 403.
 Headley Heath, sands of, 273.
 Heer, Prof. O., on certain fossil plants from the Hempstead beds of the Isle of Wight, with an introduction by W. Pengelly, Esq., 369.
 Hempstead beds, fossil plants from the, 369.
 Herault, bone-caves in, 1.
 High Cliff, Bracklesham beds at, 86; fossils from, 88; list of beds at, 88; section of, 87, 89.
 Hislop, Rev. S., supplemental note on the plant-bearing sandstones of Central India, 36, 113.
 Holoptychius, 433.
 Honeyman, Rev. D., on the geology of the gold-fields of Nova Scotia, 342.

INDEX TO THE PROCEEDINGS.

- Horner, L., Esq. (President), letter to Sir R. I. Murchison, xxix.
- Hull, E., Esq., on iso-diametric lines, as means of representing the distribution of sedimentary clay and sandy strata, as distinguished from calcareous strata, with special reference to the Carboniferous rocks of Britain, 127.
- Human remains in the alluvium of the Clyde, 221; Forth, 225.
- Hunting Bridge, Bracklesham beds at, 79.
- Huxley, Prof. T. H. (Secretary), anniversary address, Feb. 21, 1862:— results of palæontology, xl; contemporaneity of strata, xli; works on palæontology, xlii; Bronn's 'Untersuchungen,' xlii; Pictet's 'Traité de Paléontologie,' xlii; geological terms, xliii; geological record, xliii; contemporaneous formations, xlii; De la Beche's 'Researches in Theoretical Geology,' xli; views of Prof. Forbes on contemporaneity, xlv; percentage of species common to contemporaneous formations, xlv; synchronism of strata, xlvi; succession of life, xlvi; positive and negative evidence, xlvi; extinct orders, xlviii; persistent types, xlix; changes of life in the Protozoa, l; in the Coelenterata, li; in the Mollusca, li; in the Annulosa, li; in the Vertebrata, li; progressive modification, lii; ossification of the skeleton, liii; conclusion, liv.
- Huxley, Prof. T. H., on a stalk-eyed Crustacean from the Carboniferous strata near Paisley, 420; on new Labyrinthodonts from the Edinburgh coal-field, 291; on the premolar teeth of *Diprotodon*, and on a new species of that genus, 422.
- Hyæna-den at Wookey Hole, Mr. Dawkins on a, 115; section of the, 115.
- Hylterpeton Dawsoni*, 241.
- Hylonomus acidentatus*, 239.
- *Lyelli*, 238, 242.
- *Wymanni*, 240.
- Hymenophyllites curtilobus*, 321.
- *Gersdorffii*, 322.
- *obtusilobus*, 322.
- Hypsiprymnus Gaimardi*, 366.
- Hypsiprymnus, teeth of, 353.
- Ice-action at Knapdale, 177; in Scotland, 164.
- Iguanodon-footprint at Hastings, Mr. Tylor on, 247.
- India, death of fishes off the coast of, 453; plant-bearing sandstones of Central, 36.
- Insects in a deposit near Ulverston, 274.
- Inverness-shire, map of part of, 170.
- Ireland, river-valleys in the south of, 378.
- Isle of Wight Basin, Bracklesham beds of the, 651.
- Isle of Wight, reptilian footprints from the, 443; Prof. O. Heer on fossil plants from the, 369; Upper Eocene fossils of the, 330.
- Iso-diametric lines, Mr. Hull on, 127.
- Italian lakes, 198.
- Jamieson, T. F., Esq., on the ice-worn rocks of Scotland, 164.
- Jeffreys, J. G., Esq., list of shells found in the gravel near Bedford, 113; on some fossil shells from the drift near Bushbury, 160.
- Joggins, Reptilia from the coal-measures of the South, 5, 238.
- Jones, T. R., Esq., note on *Nummulina planulata*, Lam., sp., var. *Prestwichiana*, Jones, 93.
- Jukes, J. B., Esq., on the mode of formation of some of the river-valleys in the south of Ireland, 378.
- Junction-road, Leith, section at, 450, 451.
- Key, J. H., Esq., on the Bovey deposit, 9.
- Kirkby, J. W., Esq., on some remains of Chiton from the mountain-limestone of Yorkshire, 233.
- Kirkby Stephen, section near, 206.
- Kirkdale, glacial markings at, 377.
- Knapdale, ice-action at, 177.
- Labyrinthodonts from the Edinburgh coal-field, Prof. Huxley on, 291.
- Lake of Constance, 198; Geneva, 193; Lucerne, 196; Neuchâtel, 195; Thun, 196; Zug, 196; Zurich, 197.
- Lakes, glacial theory of, 203.
- Lakes in Switzerland, &c., Prof. Ramsay on the glacial origin of, 185.
- Lakes, Italian, 198; of the northern hemisphere, 201.
- Lancashire, Carboniferous rocks of, 140; fossil plants from the coal-measures of, 106.
- Leaves in a deposit near Ulverston, 274.
- Lee, valley of the, 388, 395.
- Leicestershire, Carboniferous rocks of, 139.
- Leith, section at, 450, 451.
- Lepidodendron Chemungense, 313.

INDEX TO THE PROCEEDINGS.

- Lepidodendron corrugatum*, 313.
 — *Gaspianum*, 312.
Lepidostrobos globosus, 314.
 — *Richardsoni*, 314.
Leptophlœum rhombicum, 316.
 Library Committee, report of the, v.
 Limestone in the coal-measures of
 Ayrshire, Mr. Binney on, 437.
 Lindale Cote Mines, sections at, 275,
 276.
 List of Devonian plants from New
 Brunswick, 304; fossil fishes of
 the Carboniferous Limestone, 99;
 fossils of the Bracklesham beds of
 Bracklesham Bay, 74; Alum Bay,
 84; High Cliff, 88; Hunting Bridge,
 79; White Cliff Bay, 70; shells
 from the gravel near Bedford, 113;
 specimens from the coal-formation
 of Nova Scotia, 7.
 Lister, the Rev. W., on the drift con-
 taining recent shells in the neigh-
 bourhood of Wolverhampton, 159.
 Little River, section at, 300.
 Liveing, Prof., analysis of green colour-
 ing matter in the Bracklesham beds,
 86.
 Liverpool, glacial surface-markings
 near, 377.
 Llandeilo flags, crustacean track in
 the, 347.
 Loch Treig, 171.
 London Basin, Mr. Whitaker on the,
 269; section across the, 260; west-
 ern end of the, 258.
 London Clay, 270; basement-bed of
 the, 269.
Loxomma Allmanni, 291.
 Lucerne, lake of, 196.
 Lunel-Viel, bone-caves of, 1.
Lycopodites Matthewi, 314.
 — *Vanuxemii*, 314.
 Maine, Devonian flora of, 298.
 Manila, volcanic phenomenon witness-
 ed in, 8.
 Map of a part of Nova Scotia, 343;
 lake of Geneva, 194; part of Fif-
 eshire, 429.
 Marcel de Serres, Prof., on the bone-
 caves of Lunel-Viel, Herault, 1.
 Megaphyton (?) from Perry, Maine, 318.
 Mesozoic and Permian faunæ in E.
 Australia, the Rev. W. B. Clarke on,
 244.
 Metamorphic rocks of the Banffshire
 coast, &c., Prof. Harkness on the,
 331.
 Minerals of the granite of Donegal,
 410.
 Mispec River, section at, 300.
 Mixen Rocks, Bracklesham beds of
 the, 76.
 Monsoon, death of fishes during the,
 453.
 Morris, Prof. J., and G. E. Roberts,
 Esq., on the Carboniferous Limestone
 of Oreton and Farlow, Clee Hills,
 Shropshire; with a description of
 a new *Pterichthys*, by Sir P. de M.
 G. Egerton, Bart., 94.
 Morton, G. H., Esq., on glacial sur-
 face-markings on the sandstone near
 Liverpool, 377.
 Motta, volcanic cone of, 23.
 Mountain-limestone of Yorkshire, Chi-
 tons from the, 233.
 Murchison, Sir R. I. (Vice-President),
 address on presenting the Wollaston-
 medal to Mr. Godwin-Austen, xxvii;
 and to Professor Huxley on handing
 to him the residue of the Wollaston-
 fund for Prof. Heer, xxix; obituary
 notice of Dr. Fitton, xxx.
 Museum Committee, report of the, iii.
Nelumbium Buchii, 374.
 Netley, Bracklesham beds at, 79.
 Netley Heath, sands of, 273.
 Neuchâtel, lake of, 195.
Neuropteris polymorpha, 320.
 — *serratula*, 320.
 New Brunswick, Devonian plants from,
 299; section at Courtney Bay, 300;
 section from Little River to Mispec
 River, 300.
 New Cross, near Bovey, section near, 13.
 New Forest, Bracklesham beds of the,
 79.
 New York, Devonian flora of, 297.
 Nicol, Prof. J., on the geological
 structure of the Southern Gram-
 pians, 443.
 Nith, section across the valley of the,
 217.
 Nore, valley of the, 385, 398.
 North America, petroleum-springs in, 3.
 Northern hemisphere, lakes of the,
 201.
 Nottinghamshire, Carboniferous rocks
 of, 140.
 Nova Scotia, gold-fields of, 342.
 —, map of, 343.
 —, Reptilia from the coal-measures
 of, 5, 238.
Nummulina planulata, var. *Prest-
 wichiana*, 93.
Nymphæa Doris, 374.
 Old Red Sandstone, sequence of, in S.
 Perthshire, 253.
 Old Red Sandstones of Fifeshire, Mr.
 Powrie on the, 427.

INDEX TO THE PROCEEDINGS.

- Oolite, distribution of the strata of the Great, 134.
- Oreton and Farlow, Prof. Morris and Mr. Roberts on the Carboniferous Limestone of, 94.
- Orthis resupinata*, 31.
- Outliers, tertiary, 260.
- Owen, Prof. R., description of specimens of fossil Reptilia discovered in the coal-measures of the South Joggins, Nova Scotia, by Dr. J. W. Dawson, F.G.S., &c., 238.
- Oxfordshire, section in, 131.
- Paisley, crustacean from the Carboniferous strata near, 420.
- Palæozoic rocks of the South of Ireland, 383.
- Palmieri, Signor L., on some volcanic phenomena lately observed at Torre del Greco and Resina, 126.
- Paternó, volcanic cone of, 20.
- Pebble-beds of the Bracklesham series, 90.
- Pecopteris*, sp. from St. John, N.B., 322.
- *decurrens*, 322.
- *ingens*, 322.
- Peltocaris, Mr. Salter on, 347.
- Pengelly, W., Esq., on certain fossil plants from the Hempstead beds of the Isle of Wight (Introduction), 369.
- Penrith, geology of the country near, 211; section at, 210.
- Permian fossils in Cumberland, 215; E. Australia, the Rev. W. B. Clarke on, 244.
- Permian strata in the Vale of the Eden, &c., Prof. Harkness on, 205.
- Perthshire, Old Red Sandstone of, 253.
- Petroleum-springs in North America, Dr. A. Gesner on, 3.
- Phaneropleuron, 434.
- Pholidogaster pisciformis*, 294.
- Pinnularia dispalans*, 312.
- Plagiaulax Becklesii*, 366, 367.
- *minor*, 367.
- Plagiaulax*, Dr. Falconer on the affinities of, 348.
- Plant-bearing sandstones of Central India, Rev. S. Hislop on the, 36.
- Plants from the coal-measures of Lancashire, 106.
- Platygnathus, 435.
- Polygonal areas of the lines of deepest water around the British Isles, 37.
- Poole, Bracklesham beds at, 83.
- Powrie, J., Esq., on the Old Red Sandstones of Fifeshire, 427.
- Prestwich, J., Esq., section of White Cliff Bay, 69.
- Productus Cora*, 31.
- *costatus*, 31.
- *Flemingii*, 31.
- *Humboldtii*, 32.
- *longispinus*, 31.
- *Purdoni*, 31.
- *semireticulatus*, 31.
- *striatus*, 31.
- Psilophyton elegans*, 315.
- *glabrum*, 315.
- *princeps*, 315.
- Pteraspis-beds, Prof. Harkness on the position of the, 253.
- Pterichthys from Dura Den, 435.
- *macrocephalus*, 103.
- Punjab, Brachiopoda from the, 25.
- Purbeck beds, *Plagiaulax* from the, 348.
- Purdon, W., Esq., Brachiopoda collected in India by, 25.
- Pygocephalus* (?), 421.
- Ramsay, Prof. A. C., on the glacial origin of certain lakes in Switzerland, the Black Forest, Great Britain, Sweden, North America, and elsewhere, 185.
- Ravines, formation of transverse, 390.
- Report, Annual, i; of the Council, i; Library and Museum Committee, iii.
- Reptilia from the coal-measures of Nova Scotia, 5, 238.
- Reptilian footprints in the Wealden beds of the Isle of Wight and Swanage, Mr. Beckles on, 443.
- Resina, volcanic phenomena at, 126.
- Retzia radialis*, 28.
- Rhachiopteris cyclopterooides, 323.
- *pinnata*, 323.
- *punctata*, 323.
- *striata*, 323.
- *tenuistriata*, 323.
- Rhynchonella pleurodon, 29.
- River-valleys of the South of Ireland, Mr. Jukes on the, 378.
- Roberts, G. E., Esq., and Prof. J. Morris, on the Carboniferous Limestone of Oreton and Farlow, Clew Hills, Shropshire, 94.
- Romanfell, section at, 207.
- Roman wall, near the Clyde, 230.
- Rowner Fort, Bracklesham beds at, 77.
- Sabal major, 373.
- St. Bee's Head, Permian strata at, 216.
- Salter, J. W., Esq., on a crustacean track in the Llandello flags of Chirbury, Shropshire, 347; on Peltocaris, a new genus of Silurian Crustacea, 347; on some fossil Crustacea from the Coal-measures and Devonian rocks of British North America,

INDEX TO THE PROCEEDINGS.

- 346; on some species of *Eurypterus* and allied forms, 346.
- Sandberger, Prof. F., on Upper Eocene fossils from the Isle of Wight, 330.
- Sta. Anastasia, volcanic cone of, 23.
- Scarabins, metamorphic rocks of the, 331; section of the, 337.
- Scotland, Carboniferous rocks of, 141; denudation of, 183; glaciation of, 164; last elevation of Central, 218; Permian strata in, 216; sketch-map of, 183; split boulders in the Western Isles of, 162.
- Section across Glen Spean, 174; the Cumberland Plain to Dumfriesshire, 215; London Basin, 260; Permian strata of Annandale, 217; at Aller, near Bovey, 14; Ballochmoyle Braes, 441; Courtney Bay, New Brunswick, 300; Farlow, Shropshire, 97; Junction-road, Leith, 450, 451; Lindale Cote Mines, near Ulverston, 275, 276; the Bovey Pottery, 11; Decoy, near Bovey, 13; (diagram) of a formation, 135; from Berridale to Strath Naver, 337; Bridge of Allan to Callander, 256; Compton Bay to Atherfield, 444; Great Ormside to Romanfell, 207; Little River to Mispes River, New Brunswick, 300; the west of Penrith to Hartside, 210; in Belgium and Westphalia, 132; Charnwood Forest, 137; the Valley of the Ayr, 439; near Kirkby Stephen, 206; New Cross, near Bovey, 13; of drift near Bushbury, 161; High Cliff and Barton Cliff, 87; Lake of Geneva, 194; the Banffshire coast, 333; the hyæna-den at Wookey Hole, 115; Permian strata of the valley of the Nith, 217; Wealden along the coast of Sussex, 250; White Cliff Bay, 69.
- Sections, comparative, in Oxfordshire and Yorkshire, 131; of Alum Bay and High Cliff, 89.
- Sediments, relations of, 128.
- Selaginites formosus, 316.
- Selsea, Bracklesham beds near, 76.
- Sequoia Coutisia*, 372.
- Serres, Prof. Marcel de, note on the bone-caves of Lunel-Viel, Herault, 1.
- Shannon, valley of the, 385, 398.
- Shells in the gravel near Bedford, Mr. Jeffreys on, 113; near Wolverhampton, Mr. Jeffreys on, 159.
- Shells in drift, 113, 159, 180.
- Shepherd's Gutter, Bracklesham beds at, 80.
- Shropshire, Carboniferous Limestone of, 94; crustacean track from Chirbury, 347.
- Sigillaria palpebra*, 307.
- *simplicitas*, 308.
- *Vanuxemii*, 307.
- Silurian Crustacea, Mr. Salter on, 347.
- Sketches of flint implements from Wookey Hole, 118.
- Sketch-map of Nova Scotia, 343.
- Sketch of footprint of the Iguanodon, 248; natural casts of footprints, 445, 447; red sandstone in trap-rock, Ayrshire, 440; the split boulder on Little Cumbra, 163.
- Smith, James, Esq., on a split boulder in Little Cumbra, Western Isles, 162.
- Smyth, W. W., Esq., *Notices of deceased Fellows*:—Sir Arthur de Capell Broke, Bart., xxxv; the Rev. J. B. Piggot Dennis, xxxv; General Sir C. W. Pasley, xxxv; the Rev. J. S. Henslow, xxxv; J. J. Forrester, Esq., xxxvii; W. Hutton, Esq., xxxvii; J. MacAdam, Esq., xxxvii; Prof. E. Hodgkinson, xxxviii; T. W. Atkinson, Esq., xxxix; Sir Charles Fellows, xxxix; M. L. A. Necker de Saussure, xxxix.
- Somersetshire, Carboniferous rocks of, 142.
- Southern Grampians, geological structure of the, 443.
- South Joggins, reptiles from the, 5.
- South Wales, Carboniferous rocks of, 142.
- Sphenophyllum antiquum*, 312.
- Sphenopteris Harttii*, 321.
- *Hitchcockiana*, 321.
- *Hœninghausi*, 320.
- *marginata*, 321.
- Spirifera lineata*, 29.
- *Moosakhailensis*, 28.
- *striata*, 28.
- Spiriferina octoplicata*, 29.
- Springs, petroleum-, in North America, 3.
- Staffordshire, Carboniferous rocks of, 139.
- Stigmara exigua*, 308.
- *ficoides*, 308.
- Strath Naver, section at, 337.
- Streptorhynchus crenistria, 30.
- *crenistria*, var. *robustus*, 30.
- *pectiniformis*, 30.
- Strophalosia Morrisiana*, 32.
- Stubbington, Bracklesham beds at, 77; list of beds at, 77.
- Suir, valley of the, 385, 398.

INDEX TO THE PROCEEDINGS.

- Surface-deposits on the Chalk, 265.
 Surface-markings on the sandstone near Liverpool, 377.
 Sussex, section of the Wealden along the coast of, 250.
 Sutherland, metamorphic rocks of, 331.
 Swanage, reptilian footprints from, 443.
 Sweden, glacial origin of certain lakes in, 185.
 Switzerland, glacial origin of certain lakes in, 185.
Syringodendron gracile, 308.
Syringoxylon mirabile, 305.
 Table of the distribution of Carboniferous fish, 99; Devonian plants, 326.
 Tables of cleavage- and joint-planes in the granite of Donegal, 404.
 Tarns and glaciers, connexion of, 188.
 Tchihatcheff, M. P. de, on the recent eruption of Vesuvius in December 1861, 126.
 Teeth of *Diprotodon*, 422.
Terebratula buplicata, 26.
 — *Himalayensis*, 27.
 — *subvesicularis*, 27.
 — (*Waldheimia Flemingii*), 26.
 Tertiary outliers, 260.
 Thanet Sand, 266.
 Theory (glacial) of lakes, 203.
 Thornton, R., Esq., on the geology of Zanzibar, 447.
 Thun, lake of, 196.
Thylacoleo carnifex, 368.
 —, teeth of, 353.
 Torre del Greco, volcanic phenomena at, 126.
 Torrent-action at Crinan, 165.
 Toxteth Park, glacial markings at, 377.
 Transport of Alpine blocks, 185.
Trichomanites (?), from St. John, N.B., 322.
Trigonocarpum racemosum, 324.
 Tylor, A., Esq., on the footprint of an Iguanodon, lately found at Hastings, 247.
 Ulverston, Mr. Bolton on a deposit near, 274; sections near, 275, 276.
Uphantæna Chemungensis, 325.
 Valleys in the South of Ireland, 378.
 Veitch, J. G., Esq., on a volcanic phenomenon witnessed in Manilla, 8.
 Vesuvius, recent eruption of, 126.
 View of Loch Treig, 171.
 Volcanic cones of Etna, Signor Gemmellaro on, 20.
 Volcanic phenomena at Torre del Greco, 126; in Manilla, Mr. J. G. Veitch on, 8.
 Wallen See, 197.
 Warwickshire, Carboniferous rocks of, 139.
 Water around the British Isles, lines of deepest, 37.
 Waterford, geological map of, 389.
 Wealden, footprints from the, 247, 443; section of the, 250, 444.
 Wells, hyæna-den at Wookey Hole, 115.
 Western end of the London Basin, Mr. W. Whitaker on the, 258.
 Westphalia, section in, 132.
 Whales in the alluvium of the Forth, skeletons of, 225.
 Whitaker, W., Esq., on the western end of the London Basin, on the westerly thinning of the Lower Eocene beds in that basin, and on the greywethers of Wiltshire, 258.
 White Cliff Bay, Bracklesham beds at, 67; section of, 69.
 Whitley, N., Esq., on some flint arrowheads (?) from near Baggy Point, North Devon, 114.
 Wiltshire, greywethers of, 258.
 Wollaston Donation-fund, award of the, xxix; Medal, xxvii.
 Wolverhampton, drift with recent shells near, 159.
 Wookey Hole, bones from, 122; flint implements from, 117; hyæna-den at, 115.
 Woolwich and Reading beds, 267.
 Wyatt, J., Esq., on some further discoveries of flint implements in the gravel near Bedford, 113.
 Yorkshire, Carboniferous rocks of, 140; remains of Chiton from the Mountain-limestone of, 233; section in, 131.
 Zanzibar, geology of, 447.
 Zug, lake of, 196.
 Zurich, lake of, 197.

THE END.
