

ALPHABETICAL INDEX

TO THE

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

[The fossils referred to are described, and those of which the names are printed in italics are also figured.]

- Abernethy, section near, 184, 185.
Africa, Dr. Rubidge on changes rendered necessary in the geological map of South, 437.
African Elephant, 264.
Airdrie, Tellina calcarea bed at Chapel Hall, near, 219.
Allington Church, section of brick-earth, pipes, and Kentish rag near, 454.
Alluvial formation of the valley of the Ganges, 377; of the Nile, 375.
Alluvium of the valley of the Medway, 446.
Altered rocks on the east of the Herefordshire Beacon, 92.
Ammonites oculusus, 36.
Andes, Cangaia, or volcanic mud of the Quitenian, 249.
Anniversary Address of the President, xxx.-cxvi. See also Hamilton, W. J., Esq.
Annochie, 196.
Annual Report, 1.
Anopolenus, Mr. H. Hicks on the genus, 477.
Anopolenus Henrici, 480.
— *Salteri*, 478.
Antillia Walli, 11.
Antiquity of Man in India, 383.
Arabia, Echinodermata from the south-east coast of, 349.
Arca alba-cretæ, 40.
Arragonite, Mr. W. Wallace on the growth of Flos Ferri, or Coralloidal, 413.
Arran, Dr. J. Bryce on the order of succession of the Drift-beds of the Island of Arran, 204; section of the drift-beds of, 207.
Asiatic Cretaceous strata compared with the European, 358.
Auchleuchries, 196.
Australia, Dr. P. Martin Duncan on some Tertiary Corals from South, 394.
Rev. J. E. T. Woods on the Tertiary deposits of Victoria, 389.
Ayr, fossils in the drift-beds between Kilmarnock and Kilmaurs, in the county of, 214.
Azoic and Palæozoic rocks of Southern New Brunswick, Mr. G. F. Matthew on the, 422.
Baden and Franconia, Dr. F. Sandberger on the results of geological observations in, 434.
Bagh on the Nerbudda, Echinodermata from, 349.
Balenodon physaloides, 231.
Balanus tintinnabulum, 488.
Basin of the Medway, map of the, 465.
Bath, Jamaica, section near, 6.
Beaches of Scotland, Estuarine, 188.
Belemnophius and Squalodon, Mr. E. Ray Lankester on the probable identity of the teeth of the so-called *Balenodon physaloides* with those of species of, 231.
Belhelvie, 196; section at, 182.
Bembridge Down, Isle of Wight, section near, 404.
Beult and Teise, gravels of the valleys of the rivers, 452.
Blackmore, Dr. H. P., on the discovery of Flint Implements in the drift at Milford Hill, Salisbury, 250.
Black Mountain, section from the River Lagan to the, 16.
Black shales of the Malvern Hills, 89.

INDEX TO THE PROCEEDINGS.

- Blair Drummond, diagram-section of the superficial deposits at, 185.
- Blown sand and peat of Scotland, 191.
- Blue Mountain region, Jamaica, section from Bowden to the, 6.
- Boughton, mammalian remains at, 456.
- Boulder-clay at Chappel Hall, near Airdrie, 219; in the west of Scotland, beds beneath the, 213; of Arran, 204.
- Boulder-earth of Scotland, 166.
- Boulders of the Brick-clay of Scotland, 175.
- Bowden to the Blue Mountain region, Jamaica, section from, 6.
- Boxley, section from Maidstone to, 451, 465.
- Brachiopoda from the Valley of Kashmir, Mr. T. Davidson on Carboniferous, 492.
- Brading, Isle of Wight, sections near, 404.
- Brick-clay of Scotland, boulders of the, 175.
- Brick-earth of the Valley of the Medway, 446.
- Britain, Dr. H. Falconer on the species of Elephant occurring in the fossil state in Great, 253.
- British camp (Herefordshire Beacon), section across the southern extremity of the, 92.
- British specimens of *Elephas (Loxodon) meridionalis*, 298.
- Brixton Down, diagram-section of part of a chalk-pit on, 403.
- Broadstairs chalk, 396.
- Brodie, Rev. P. B., on the Lias outliers at Knowle and Wootton Warwen in South Warwickshire, and on the presence of the Lias or Rhaetic bone-bed at Copt Heath, its furthest northern extension hitherto recognized in that county, 159.
- Bryce, Dr. J., on the occurrence of beds in the west of Scotland beneath the Boulder-clay, 213; on the order of succession in the Drift-beds of the Island of Arran, 204.
- Bryozoa from the Tertiary deposits of Victoria, Australia, 393.
- Buckinghamshire, Mr. W. Whitaker on the chalk of, 398.
- Busk, G., Esq., and the late Dr. H. Falconer, on the fossil contents of the Genista cave, Gibraltar, 364.
- Bute, list of shells from the brickwork at Kilchattan in the island of, 202; section at Kilchattan brickwork, 174.
- Caledonian Canal, valley-gravel of the, 180.
- Calyptrea Grayana*, 38.
- Cambrian rocks of the Malvern Hills, 87.
- Canada, Organic Remains in the Laurentian rocks of, 45, 51, 59, 67.
- Cangáua, or volcanic mud of the Quaternian Andes, Mr. R. Spruce on the, 249.
- Canterbury, New Zealand, Dr. J. Haast on the Pleistocene and recent glaciation of, 133.
- Carboniferous Brachiopoda from the Valley of Kashmir, Mr. T. Davidson on, 492.
- Carboniferous rocks of Southern New Brunswick, 430, 432; of the Valley of Kashmir, Capt. H. Godwin-Austen on the, 492.
- Cardium gibbosum*, 39.
- Carpenter, Dr. W. B., on the structure and affinities of *Eozoön Canadense*, 59.
- Carse-clay of the Forth, 188.
- Cavern in the Silver Band Mine, Westmoreland, section of a, 415.
- Caves of Gibraltar, 364, 371.
- Cephalopoda of the South-Indian Cretaceous rocks, Dr. F. Stoliczka on the, 407.
- Cetaceans of the Red Crag, source of the, 222.
- Chalk of Buckinghamshire, and on the Totternhoe Stone, Mr. W. Whitaker on the, 398; of Ireland, divisions of the Upper, 25; of the Isle of Thanet, Mr. W. Whitaker on the, 395; of the Isle of Wight, Mr. W. Whitaker on the, 400.
- Chalk and the Tertiary beds of the Isle of Wight, junction of the, 405.
- Chappel Hall, near Airdrie, Mr. H. W. Crosskey on the Tellina calcarea bed at, 219.
- Chiton fulvus*, 487.
- Chiton (Turrilepas) Wrightianus*, 486.
- Chloritic chalk of Ireland, 25.
- sands and sandstones of Ireland, 23.
- Cidaris Cénomaniensis*, 355.
- Cinulia catenata*, 38.
- Cirripedia in the Wenlock Limestone and Shale of Dudley, Mr. H. Woodward on a new genus of, 486.
- Clarendon, Jamaica, geology of, 1.
- Clenid Burn, Arran, section of the drift-beds at, 207.
- Climate of the Pleistocene epoch of New Zealand, 135, 204.

INDEX TO THE PROCEEDINGS.

- Clydesdale, comparison of the drift-beds of Arran with those of, 209; section of the drift-beds in, 210.
- Coal Hill, section across the northern extremity of, 89.
- Coal-measures of New South Wales, Mr. W. Keene on the, 137.
- Cæloptychium Belfastiense*, 43.
- *furcatum*, 43.
- Cæloseyphia sulcata*, 43.
- Coldbrook group (Huronian) of Southern New Brunswick, 424.
- Colin Glen, section in, 25.
- Colossochelys Atlas, 384.
- Comparative table of the Molluscan faunas of Tertiary deposits, 226.
- Conglomerate series of Jamaica, section through the, 5.
- Copt Heath, Rhætic bone-bed at, 159.
- Coralloidal arragonite, growth of, 413.
- Corals from South Australia. Dr. P. Martin Duncan on some Tertiary, 394.
- Corals of Jamaica, 7.
- Cotopaxi, volcanic tufa of Latacunga, at the foot of, 249.
- Cottaldia Carteri*, 356.
- Crag, Mr. E. Ray Lankester on a new Mammal allied to the Walrus from the, 226; on the sources of the Mammalian fauna of the Red, 221.
- Cretaceous beds of Ireland, division of the, 20.
- retaceous formations of France, England, and Ireland, comparative table of the, 34; of the north-east of Ireland, Mr. Ralph Tate on the, 15.
- Cretaceous fossils from south-eastern Arabia and from Bagh, on the Nerbudda, 352, 354; of Ireland, distribution of the, 28.
- Cretaceous rocks of Jamaica, 1; of Southern India, Dr. F. Stoliczka on the Cephalopoda of the, 407.
- Crook-Crever Burn, Arran, section of the Drift-beds at, 208.
- Crosskey, Rev. H. W., on the Tellina calcarea bed at Chappel Hall, near Airdrie, 219.
- Cruden and Slains, list of fossil shells from between, 200.
- Crustacea belonging to the Order Eurypterida, Mr. H. Woodward on some new species of, 482.
- Cumberland, Prof. R. Harkness on the Lower Silurian rocks of the south-east of, 238.
- Dames, Capt. T.L. on some rhomboidal specimens of iron-sandstone, 421.
- Date of the English Channel, 440.
- Dawkins, W. B., Esq., on the Mammalian remains found by E. Wood, Esq., near Richmond, Yorkshire; with an introductory note on the deposit in which they were found, by E. Wood, Esq., F.G.S., and G. E. Roberts, Esq., F.G.S., 493.
- Dawson, Dr. J. W., on the structure of certain organic remains in the Laurentian limestones of Canada, 51.
- Dawson, Robert, Esq., on the fossil shells dredged between Cruden and Slains, 200.
- Denudation of the Weald, Dr. C. Le Neve Foster and Mr. W. Topley on the, 460.
- Depression of Scotland, first period of, 169; second period of, 188.
- Devonian Eurypterida, 482.
- Devonian formation of Southern New Brunswick, 429.
- Diagram illustrating the structure of *Eozoön*, 61.
- Diagram-section of part of a chalk-pit on Brixton Down, 403; showing the relations of the superficial deposits at Blair Drummond, in the valley of the Forth, 185.
- Dictyonema-shales of the Malvern Hills, 92.
- Disturbances in the gravel of the Medway valley, 457.
- Ditrupea deformis*, 44.
- Donations to the Library, ix.
- Donations to the Museum, viii.
- Drift at Milford Hill, Salisbury, flint implements in the, 250.
- Drift-beds at Arran, Dr. J. Bryce on the, 204; of Ayrshire, 214.
- Drift of the East of England and its divisions, Mr. S. V. Wood, Jun., on the, 141.
- Drymen and Gartness, Stirlingshire, list of shells from between, 202.
- Dudley, new genus of Cirripedia in the Wenlock Limestone and Shale of, 486.
- Dufton Fell mine, Westmoreland, sketches of stems of Arragonite in the, 419.
- Dufton, fossils from the Lower Silurian rocks of, 248.
- Duncan, Dr. P. M., on some Tertiary Corals from Victoria, Australia, 389; on the Echinodermata from the strata on the South-eastern coast of Arabia, and at Bagh on the Nerbudda, in the collection of the Geological Society, 349.

INDEX TO THE PROCEEDINGS.

- Duncan, Dr. P. M., and G. P. Wall, Esq., on the geology of Jamaica, especially with reference to the district of Clarendon; with descriptions of the Cretaceous, Eocene, and Miocene Corals of the Island, 1.
- Dun Fell, section from Milburn to, 246.
- Earthquake at St. Helena, Sir C. Elliot on the, 45.
- East of England, Drift of the, 141.
- Echinobrissus subquadratus, 336.
- Echinodermata from the South-east coast of Arabia and from Bagh on the Nerbudda, Dr. P. Martin Duncan on, 349.
- Eden, gravels of the valley of the river, 450.
- Edenderry, King's county, rhomboidal specimens of iron-sandstones from, 421.
- Ednie, 196.
- Elephant occurring in the fossil state in Great Britain, Dr. H. Falconer on the species of, 253.
- Elephant remains at Kilmaurs, 214.
- Elephas (*Euelephas*) Indicus, 315.
- — primigenius, 323.
- (Loxodon) Africanus, 264.
- — meridionalis, 277; British specimens of, 298; bones of the trunk and extremities, 310; cranium, 309; lower jaw, 309; molars, 299; Tuscan specimens of, 281; cranium, 292; lower jaw, 296; lower milk-molars 285; lower true molars, 287; premolars, 289; ridge-formulæ, 290; summary of characters, 298; tusks, 290; upper milk-molars, 282; upper true molars, 283.
- — planifrons, 266.
- — priscus, 269.
- (Stegodon) Cliftii, 260.
- — insignis, 261.
- Elephas, subgenera of, 258.
- Elevation of Scotland to its present position, 191.
- Elie, 196.
- Elliot, Gov. Sir C., on the recent earthquake at St. Helena, 45.
- Ellishill, 196.
- Ellon, section across the valley of the Ythan, near, 170.
- Emergence of Scotland, 178.
- England, Mr. S. V. Wood, Jun., on the Drift of the East of, 141.
- English Channel, Mr. J. Prestwich on the state of the, 440.
- Entomostraca from the drift-beds of Arran, 209.
- Eocene Mammalian fossils in the Red Crag, 222.
- Eocene rocks of Jamaica, 1.
- Eozoön, diagram illustrating the structure of, 61.
- Eozoön Canadense*, 54, 59.
- Errol, 196; section at, 175.
- Escarments, origin of, 470; plans and sections illustrating the formation of, 468, 469, 472.
- Estuarine beds and beaches of Scotland, 188; post-glacial beds of the East of Scotland, list of shells from the, 203.
- Estuary of the Ythan, superficial deposits of the, 194.
- Etheridgia mirabilis*, 43.
- Euelephas, Dr. H. Falconer on the characters of, 311.
- European Cretaceous Cephalopoda occurring in Southern India, list of the, 410.
- Eurypterida from the Lower Ludlow rock of Leintwardine, Shropshire, Mr. H. Woodward on a new genus of, 490.
- Eurypterida, Mr. H. Woodward on some new species of Crustacea belonging to the Order, 482.
- Eurypterus Symondsii*, 486.
- Falconer, the late Dr. H., on the asserted occurrence of human bones in the ancient fluviatile deposits of the Nile and Ganges; with comparative remarks on the alluvial formation of the two valleys, 372; on the species of Mastodon and Elephant occurring in the fossil state in Great Britain, Part II. Elephant, 253.
- Falconer, the late Dr. H., and G. Busk, Esq., on the fossil contents of the Genista Cave, Gibraltar, 364.
- Faults in the Malvern Hills, 95.
- Fault through the Lower Silurian rocks of the south-east of Cumberland and north-east of Westmoreland, Prof. R. Harkness on a, 246.
- Fife, section at Springfield brickwork, 171.
- Flabellum exaratum*, 8.
- Flint Implements in the Drift at Milford Hill, Salisbury, Dr. H. P. Blackmore on the discovery of, 250.
- Flints, chipped, in Scotland, 192.
- Floating ice of Scotland, 175.
- Flos Ferri, or coralloidal arragonite, Mr. W. Wallace on the growth of, 413.
- Fluviatile deposits of the Ganges,

INDEX TO THE PROCEEDINGS.

- 377; of the Nile, 372; analogy with those of the Ganges, 377.
- Foraminifera from the drift-beds of Arran, 209; from the Tertiary deposits of Victoria, 391; in the Laurentian rocks of Canada, 51.
- Forest-beds of Scotland, submarine, 183.
- Forth, carse-clay of the, 188; diagram-section of the superficial deposits in the valley of the, 185; list of shells found in the glacial beds between the Moray Firth and the Firth of, 197.
- Fossil Elephants of Great Britain, 253.
- Fossils from Bagh, on the Nerbudda, 353, 354; near Richmond, Yorkshire, 493; the drift-beds of Arran, 209; Genista cave, Gibraltar, 365; Lingula-flags, Mr. J. W. Salter on some additional, 476; Sangatte cliff, 442; south-east coast of Arabia, 352, 354; Tertiary deposits of Victoria, 393; Upper Cambrian rocks of the Malvern Hills, 101; valley of the Ganges, 379; of the Nile, 372; found in the glacial and post-glacial beds of Scotland, lists of, 197; in the Laurentian rocks of Canada, 45, 51, 59, 67; of Jamaica, 7; the Black shales of the Malvern Hills, 91; carse-clay of the Forth, 188; chloritic sands of Ireland, 24; Cretaceous rocks of Ireland, 36; glacial-marine beds of Scotland, 173; Lower Silurian rocks of the south-east of Cumberland and north-east of Westmoreland, 243, 248; Medway gravels, 454; Red Crag, sources of the Mammalian, 221; South Indian Cretaceous rocks, 407; White Limestone of Ireland, 27.
- Foster, Dr. C. Le N., and W. Topley, Esq., on the superficial deposits of the valley of the Medway, with remarks on the denudation of the Weald, 443.
- Franconia, Dr. F. Sandberger on the results of geological observations in Baden and, 434.
- Freshwater Bay, Isle of Wight, view of the cliffs eastward of, 402.
- Gamrie, 196.
- Ganges and Nile, the late Dr. Falconer on the asserted occurrence of human bones in the ancient fluvial deposits of the, 372.
- Ganges, physical features of the valley of the, 377.
- Gartness and Drymen, Stirlingshire, list of shells from between, 202.
- Gault and Lower Greensand of Ireland, 16.
- General section across the Chalk of the Isle of Wight, 405; from Maidstone to beyond Boxley, 465; near Risborough, Bucks, 399; of Sangatte cliff along the coast, 441.
- Genista cave, Gibraltar, Mr. Busk and the late Dr. Falconer on the fossil contents of the, 364.
- Geological changes in Scotland, Mr. T. F. Jamieson on the history of the last, 161.
- Geological map of South Africa, Dr. Rubidge on changes rendered necessary in the, 437.
- Geological sketch-map of the south-east of Cumberland and north-east of Westmoreland, 236; of the valley of the Medway, 444.
- Geological structure of the Malvern Hills, Dr. Harvey B. Holl on the, 72.
- Geology of Baden and Franconia, Dr. F. Sandberger on the, 434; Harrogate, Prof. J. Phillips on the, 232; Jamaica, Dr. P. Martin Duncan and Mr. G. P. Wall on the, 1; Otago, New Zealand, Dr. J. Hector on the, 124; Southern New Brunswick, Mr. G. F. Matthew, on the, 422.
- Gibraltar, Lieut. C. Warren on the caves of, 371.
- Gibraltar, Mr. Busk and the late Dr. Falconer on the fossil contents of the Genista cave, 364.
- Gibraltar, suggested museum at, 368.
- Glacial and post-glacial beds of Scotland, lists of shells found in the, 197.
- Glacial-marine beds of Scotland, 166.
- Glacial phenomena of Scotland, sketch-map illustrating the, 163.
- Glaciation of Canterbury, New Zealand, during the Pleistocene and Recent periods, 133; of the rocky surface of Scotland, 164.
- Glacier-mud of Scotland, 166.
- Glaciers and Rock-basins of New Zealand, 129.
- Glaciers of Scotland, final retreat of the, 178.
- Glasgow, list of shells collected in the clay-pits at Paisley, near, 201.
- Glauconitic sands of Ireland, 20.
- Glen, section in Colin, 25.
- Glossopteris in the Coal-measures of New South Wales, 137.

INDEX TO THE PROCEEDINGS.

- Gravel and loam, mode of deposition of, 466.
- Gravels of Scotland, 178; the Medway valley, 447; valley of the river Eden, 450; valleys of the rivers Beult and Teise, 452.
- Great Britain, species of Elephant occurring in the fossil state in, 253.
- Greensand, Hibernian, 20.
- Greensand (Lower) and Gault of Ireland, 16.
- Grey Marls and Yellow Sandstones of Ireland, 22.
- Haast, Dr. J., on a sketch-map of the province of Canterbury, New Zealand, showing the glaciation during Pleistocene and Recent Periods as far as explored, 133; with Appendix on the climate of the Pleistocene epoch of New Zealand, 135; on the causes which have led to the excavation of deep-lake basins in hard rocks in the Southern Alps of New Zealand, 130.
- Hadlow, section of a brick-earth pit near, 457.
- Hamilton, Victoria, Bryozoa from the Tertiary beds at, 393.
- Hamilton, W. J., Esq. (President), address on presenting the Wollaston Medal to Mr. T. Davidson, xxvii; and to Mr. J. W. Salter on handing to him the residue of the Wollaston Donation-fund, xxix; Anniversary address, February 17, 1865, xxx; *Notices of deceased Fellows*:—Mr. Leonard Horner, xxx; Major-General Portlock, xl; Dr. Hugh Falconer, xlv; Duke of Newcastle, xlix; Earl of Ilchester, xlix; Ven. Archdeacon Charles Parr Burney, l; Rev. William Lister, l; Prof. Edward Hitchcock, l; Prof. Benjamin Silliman, li; Mr. Andrew Geddes Bain, lii; Geological Survey of the United Kingdom, liii; Greenough's Geological Map of England, lv; Sir W. E. Logan on the occurrence of organic remains in the Laurentian rocks of Canada, lviii; Prof. J. Hall's Graptolites of the Quebec Group, lx; M. Barande on the occurrence of the Bohemian colonies in the Silurian basin of the north-west of France and in Spain, lxi; Sir R. I. Murchison and Prof. Harkness on the Permian rocks of the north-west of England, lxi; M. Renevier on the *Avicula-contorta* beds, lxii; Abbé Stoppani on the relative position of the *Avicula-contorta* beds in Lombardy, lxiv; Dr. v. Dittmar on the *Avicula-contorta* beds, lxv; Mr. H. W. Bristow on the Rhætic beds, lxvi; M. E. Deslongchamps on the lower Jurassic strata of Normandy, lxvii; Dr. Waagen on the Jura in Franconia, Swabia, and Switzerland, lxix; M. Auguste Dollfus on the Kimmeridge Fauna of the Cap de la Hève, lxx; Prof. Credner on the subdivision of the Upper Jura formation and the Wealden formation in the north-west of Germany, lxxi; Cavaliere Capellini on the geology of the Gulf of Spezzia, lxxii; Prof. Pictet on the Cretaceous fossils of Sainte Croix, lxxiv; Dr. Carl Zittel on the bivalves of the Gosau formation in the North-eastern Alps, lxxiv; Signor Perazzi on the cupiferous deposits contained in the serpentines of Central Italy, lxxv; M. von Kœnen on the Oligocene deposits of Belgium, Northern Germany, and the South of England, lxxvi; Rev. Sanna-Solaro on the pelvis of *Dinotherium*, lxxviii; M. Pierre de Tchihatcheff on the geology of the Bosphorus and Constantinople, lxxix; Dr. Hartung on the geology of Madeira and Porto Santo, lxxx; Mr. T. Davidson on Miocene Brachiopoda from Malta, lxxxii; Dr. P. M. Duncan on the mineralization of Corals, lxxxiii; M. Charles Martins on the physical characters of the Sahara, lxxxiii; on the scooping out of rock-basins by glaciers, lxxxvi; Mr. J. Prestwich on the geological position and age of the flint-impliment-bearing beds, xcii; Herr von Dechen on the Lake of Laach, xciv; Dr. T. Wright on the British Cretaceous Echinodermata, xcvi; Mr. J. W. Salter on the British Trilobites, Part I., xcvi; Mr. T. Davidson on the British Devonian Brachiopoda, xcvi; Mr. S. V. Wood on the Eocene Mollusca, xcvi; Prof. R. Owen on the Cretaceous Reptilia, xcvi; Prof. Theobald on the geology of Graubiinden, xcix; Prof. E. Desor on the structure of the Alps, ci; Prof. O. Heer on the Primæval World of Switzerland, cii; M. d'Archiac on Stratigraphical Palæontology, cix; M. Jules Mar-

INDEX TO THE PROCEEDINGS.

- cou on the geology of Nebraska, cxii; Geological Survey of India, cxiii; Novara Expedition, cxiv; M. E. Deslongchamps on the geology of New Caledonia, cxvi.
- Hard chalk of Ireland, 25.
- Harkness, Prof. R., on the Lower Silurian rocks of the south-east of Cumberland and the north-east of Westmoreland, 235.
- Harrogate, Prof. J. Phillips on the geology of, 232.
- Hector, Dr. J., on the geology of Otago, New Zealand, 124.
- Heliostræa cyathiformis*, 8.
- Helicoceras Hibernicum*, 37.
- Hemiaspis limuloides*, 490.
- Hemiaspis similis, 355.
- Herefordshire Beacon, altered rocks on the east of the, 92; metamorphic rocks of the, 78; section across the, 92.
- Herschel, Sir J. F. W., on some rhomboidal specimens of iron-sandstone, &c. presented to the Society, with a note by Capt. T. L. Dames, 421.
- Hibernian Greensand, 20.
- Hicks, H., Esq., on the genus Anopolenus, 476.
- Hippopotamus from the fluviatile deposits of the Nile, 372.
- History of the last geological changes in Scotland, 161.
- Holæctypus Cénomansensis, 354.
- Holl, Dr. H. B., on the geological structure of the Malvern Hills and adjacent districts, 72.
- Hollybush sandstone of the Malvern Hills, 87; with metamorphic rocks, sketch showing the junction of the, 88.
- Howler's Heath to Ragged-stone Hill, section from, 91.
- Human bones in the ancient fluviatile deposits of the Nile and the Ganges, the late Dr. Falconer on the asserted occurrence of, 372.
- Human remains from the Genista cave, Gibraltar, 367.
- Hunt, T. S., Esq., on the mineralogy of certain organic remains from the Laurentian rocks of Canada, 67.
- Huronian formation of Southern New Brunswick, 424.
- Ice in Scotland, 166.
- Identity of species from distant localities, 360.
- Iguanodon quarry, section of "Pipes" in, 455.
- India, antiquity of man in, 383; Cephalopoda of the Cretaceous rocks of Southern, 407.
- Indian Elephant, 315; milk-molars of the, 315; true molars of the, 317.
- Invernettie, 197.
- Ireland, Mr. Ralph Tate on the Cretaceous formations of the north-east of, 15.
- Iron-sandstone, rhomboidal specimens of, 421.
- Island Magee, section on the east coast of, 23.
- Isle of Thanet, chalk of the, 395.
- Isle of Wight, chalk of the, 400.
- Jamaica, Dr. P. Martin Duncan and Mr. G. P. Wall on the geology of, 1.
- Jamieson, T. F., Esq., on the history of the last geological changes in Scotland, 161.
- Jeffreys, J. Gwyn, Esq., on the glacial and post-glacial shells of the east of Scotland, 195.
- Jumna, fossils from the alluvium of the, 380.
- Junction of Hollybush sandstone with Metamorphic rocks at Ragged-stone Hill, sketch of the, 88; the chalk and the Tertiary beds of the Isle of Wight, 405.
- Jurassic rocks of Baden and Franconia, 436.
- Kashmere, Carboniferous Brachiopoda of the Valley of, 492; rocks of the Valley of, 492.
- Keene, W., Esq., on the Coal-measures of New South Wales, with Spirifer, Glossopteris, and Lepidodendron 137.
- Keisley limestone, fossils of the, 243, 248.
- Kentish rag and brick-earth pipes near Allington Church, section of, 454.
- Keys-end Hill, metamorphic rocks of, 73.
- Kilchattan brickwork, in Bute, list of shells from the, 202; section at, 174.
- Kilcorrig, Lisburn, section at, 26.
- Kilmaurs, section of the drift-beds at, 216.
- Kilmaurs and Kilmarnock, fossils in the drift-beds between, 214.
- King Edward, 197.
- Knowle, Lias-outlier at, 159.
- Kökken - mödning near Richmond, Yorkshire, 493.
- Lagan River to the Black Mountain, section from the, 16.
- Lake-basins of New Zealand, 130.

INDEX TO THE PROCEEDINGS.

- Land-ice in Scotland, period of, 164.
- Lankester, E. Ray, Esq., on the sources of the Mammalian fossils of the Red Crag, and on the discovery of a new mammal in that deposit, allied to the Walrus, 221.
- Lartët, M. E., on *Ovibos moschatus*, Blainville, 474.
- Latacunga, at the foot of Cotopaxi, Mr. R. Spruce on the volcanic tufa of, 249.
- Laurentian formation of Southern New Brunswick, 423.
- Laurentian rocks of Canada, Dr. J. W. Dawson on the structure of certain organic remains in the, 51; Mr. T. Sterry Hunt on the mineralogy of certain organic remains from the, 67; Sir W. E. Logan on organic remains in the, 45.
- Leintwardine, Shropshire, new genus of Eurypterida from the Lower Ludlow rock of, 490.
- Lepidodendron in the Coal-measures of New South Wales, 137.
- Lias-outliers at Knowle and Wootton Warren, the Rev. P. B. Brodie on, 159.
- Library, donations to the, ix, 103, 143, 333, 496.
- Lingula-flags, Mr. J. W. Salter on some additional fossils from the, 476.
- Lingula pygmaea*, 102.
- *squamosa*, 102.
- Lisburn, section at Kilcorrig, 26.
- List of fossil corals from Jamaica, 7; fossils from the south-east coast of Arabia, and from Bagh on the Nerbudda, 352, 354; mammalian remains from the Genista cave, Gibraltar, 365; the Cephalopoda common to the Cretaceous rocks of India and of Europe, 410.
- Lists of shells found in the glacial and post-glacial beds of Scotland, 197.
- Llandovery (Upper) rocks of the Malvern Hills, 94.
- Loess in the cliff-section at Saugatte, Mr. J. Prestwich on the presence of, 440; of the valley of the Medway, 446.
- Logan, Sir W. E., on the occurrence of organic remains in the Laurentian rocks of Canada, 45.
- Loricula pulchella*, 488.
- Lower Carboniferous rocks of Southern New Brunswick, 430; Silurian formation of Southern New Brunswick, 426; rocks of the north-east of Westmoreland, 240; south-east of Cumberland, 238.
- Loxodon Africanus*, 264.
- *meridionalis*, 277.
- *planifrons*, 266.
- *priscus*, 269.
- Loxodons, Dr. H. Falconer on the characters of the, 263.
- Ludlow rock of Leintwardine, Shropshire, Mr. H. Woodward on a new genus of Eurypterida from the, 490.
- Magee, section on the east coast of Island, 23.
- Maidstone Gaol, section in a gravel-pit north of, 458, 459.
- Maidstone, section across a brick-earth pit at, 453.
- Maidstone to Boxley, section from, 451, 465.
- Malvern Hills, Dr. Harvey B. Holl on the geological structure of the, 72.
- Mammalian fossils from the Red Crag, sources of the, 221; from the valley of the Ganges, 379; of the Nile, 372.
- Mammalian remains at Boughton, 456; mammalian remains from the Genista cave, Gibraltar, 365.
- Mammalian remains found by E. Wood, Esq., near Richmond, Yorkshire, Mr. W. Boyd Dawkins on, 493.
- Mammoth, Dr. H. Falconer on the, 323; lower milk-molars of the, 326; lower true molars of the, 331; upper milk-molars of the, 324; upper true molars of the, 327.
- Mammoth-remains at Kilmaurs, 214.
- Man in India, antiquity of, 383.
- Man in Scotland, first traces of, 190.
- Map illustrating the glacial phenomena of Scotland, 163; of the basin of the Medway, 465; Malvern Hills and adjacent districts, 72; south-east of Cumberland and north-east of Westmoreland, 236; valley of the Medway, 444; Upper Clarendon, Jamaica, 3.
- Marbat Peak to Marbat, on the south-east coast of Arabia, section from, 350.
- Margate chalk, 396.
- Margate to Red Cliff's End Point, westward of Pegwell, section from, 396.
- Mastodon and Elephant occurring in the fossil state in Great Britain, Dr. H. Falconer on the species of, 253.
- Matthew, G. F., Esq., on the Azoic and Palaeozoic rocks of Southern New Brunswick, 422.

INDEX TO THE PROCEEDINGS.

- May Hill rocks of the Malvern Hills, 94.
- Medway, Dr. C. Le Neve Foster and Mr. W. Topley on the superficial deposits of the valley of the, 443; geological sketch-map of the valley of the, 444; map of the basin of the, 465.
- Melmerby to Roman Fell, section from, 239.
- Metamorphic rocks of the Malvern Hills, 73.
- Metamorphic rocks, sketch showing the junction of the Hollybush sandstone with, 88.
- Middle and Upper Devonian of Southern New Brunswick, 429.
- Midsummer Hill, metamorphic rocks of, 75.
- Milburn to Dun Fell, section from, 246.
- Milford Hill, Salisbury, flint implements in the drift at, 250.
- Mineralogy of certain organic remains from the Laurentian rocks of Canada, Mr. T. Sterry Hunt on the, 67.
- Miocene Mammalian fossils in the Red Crag, 222.
- Miocene rocks of Jamaica, 1.
- Montrose, 197.
- Moraines of Scotland, 183.
- Moray Firth and the Firth of Forth, list of shells found in the glacial beds between, 197.
- Muddy Creek, South Australia, Tertiary corals from, 394.
- Murchison, Sir R. I., on the notes and map of Dr. Julius Haast upon the Glaciers and Rock-Basins of New Zealand, 129.
- Museum at Gibraltar suggested, 368.
- Museum, donations to the, viii.
- Nerbudda, Echinodermata from Bagh on the, 349.
- New Brunswick, Azoic and Palæozoic rocks of Southern, 422.
- New South Wales, Mr. W. Keene on the Coal-measures of, 137.
- New Zealand, Dr. J. Haast on the climate of the Pleistocene epoch in, 135, 204; Dr. J. Haast on the excavation of deep lake-basins in hard rocks in the Southern Alps of, 130; Dr. J. Haast on the Pleistocene and recent glaciation of Canterbury, 133; Dr. J. Hector on the geology of Otago, 124; Sir R. I. Murchison on communicating Dr. J. Haast's notes upon the glaciers and rock-basins of, 129.
- Nid, section from the River Wharfe to the valley of the, 233.
- Nile and Ganges, the late Dr. Falconer on the asserted occurrence of human bones in the ancient fluvial deposits of the, 372.
- Obolella Phillipsi*, 102.
- *Salteri*, 102.
- Olenus (Sphærophthalmus) Pecten*, 482.
- Oolitic strata of Ireland, 16.
- Organic remains in the Laurentian rocks of Canada, 45, 51, 59, 67.
- Otago, New Zealand, Dr. J. Hector on the geology of, 124.
- Ovibos moschatus*, M. E. Lartôt on, 474.
- Paisley, near Glasgow, brick-clay at, 175; list of shells collected in the clay-pits at, 201.
- Palæozoic rocks of Baden and Franconia, 434; Southern New Brunswick, Mr. G. F. Matthew on, 422.
- Peat and blown sand of Scotland, 191.
- Pecten glauconeus*, 39.
- Pegwell, section from Margate to Red Cliffs End Point, westward of, 396.
- Pentalophodon, Dr. H. Falconer on, 262.
- Persistence of species, 360.
- Petite Nation Seigniorly to St. Jerome, section from, 47.
- Phillips, Prof. J., on the geology of Harrogate, 232.
- Pholadomya cordata*, 40.
- *obliquissima*, 40.
- *Stewarti*, 41.
- Pipes in Iguanodon Quarry, section of, 455; of brick-earth near Allington Church, section of, 454; gravel and brick-earth near Maidstone, 453.
- Placocyathus Moorei*, 10.
- Placotrochus costatus*, 9.
- Plans and sections illustrating the formation of escarpments, 468, 469, 472.
- Plaxtole and Medway gravels, junction of the, 448.
- Pleistocene glaciation of New Zealand, 133; climate of New Zealand, 135, 204.
- Pleurotomaria Thomsoni, 37.
- Plicatula deltoidea*, 39.
- Pliocene Mammalian fossils of the Red Crag, 222.
- Pollicipes fallax*, 488.
- Porites Reussiana*, 8.
- Portland series (Laurentian) of Southern New Brunswick, 423.
- Pre-glacial traces in Scotland, 162.

INDEX TO THE PROCEEDINGS.

- Prestwich, J., Esq., on the raised beach of Sangatte with reference to the date of the English Channel, and the presence of Loess in the cliff section, 440.
- Quitenian Andes, Mr. R. Spruce on the Cangáua, or volcanic mud of the, 249.
- Ragged-stone Hill, metamorphic rocks of, 74; section across Rowick and the summit of, 91; section from Howler's Heath to, 91; sketch showing the junction of the Hollybush sandstone with metamorphic rocks at, 88.
- Raised beach of Sangatte, 440.
- Rake Beck, fossils from the Skiddaw slates of, 248.
- Ras Fartak and Ras Sharwén, south-eastern Arabia, fossils from, 352.
- Recent glaciation of New Zealand, 133.
- Reconstructed chalk of the Isle of Wight, 406.
- Red Crag, Mr. E. Ray Lankester on a new Mammal allied to the Walrus from the, 226; on the sources of the Mammalian fossils of the, 221.
- Rhaetic bone-bed at Copt Heath, the Rev. P. B. Brodie on the, 159.
- Rhomboidal specimens of iron-sandstone, Sir J. F. W. Herschel and Capt. T. Longworth Dames on, 421.
- Rhynchonella limbata*, 42.
- Richmond, Yorkshire, Mr. W. Boyd Dawkins on Mammalian remains found by E. Wood, Esq., near, 493.
- Risborough, Bucks, general section near, 399.
- River-gravel of the valley of the Medway, 446; on the question of the denudation of the Weald, bearing of the, 464.
- River Lagan to the Black Mountain, section from the, 16.
- Rivers in modifying their channels, action of streams and, 466.
- Roberts, G. E., Esq., and E. Wood, Esq., on Mammalian remains found near Richmond, Yorkshire, 493.
- Rock-basins of New Zealand, 129.
- Rocky surface of Scotland, glaciation of the, 164.
- Roman Fell, section from Melmerby to, 239.
- Rowick and the summit of Ragged-stone Hill, section across, 91.
- Rubidge, Dr. R. N., on the changes rendered necessary in the Geological Map of South Africa by recent discoveries of fossils, 437.
- St. Helena, earthquake at, 45.
- St. Jerome, section from Petite Nation Seigniorly to, 47.
- St. John Group (Lower Silurian) of Southern New Brunswick, 426.
- Salisbury, flint implements in the drift at Milford Hill, 250.
- Salter, J. W., Esq., on some additional fossils from the Lingula-flags, with a note on the genus Anopolenus, by H. Hicks, Esq., 476.
- Sand, blown, 191.
- Sandberger, Dr. F., on the results of geological observations in Baden and Franconia, 434.
- Sangatte cliff along the coast, general section of, 441.
- Sangatte, Mr. J. Prestwich on the raised beach of, 440.
- Scalaria alba-cretae*, 38.
- Scalpellum ornatum*, 488.
- Scaphites elegans*, 37.
- Scotland, Dr. J. Bryce on the occurrence of beds beneath the Boulder-clay in the west of, 213; emergence of, 178; final retreat of glaciers from, 178; first traces of man in, 190; last elevation of, 191; lists of shells found in the glacial and post-glacial beds of, 197; Mr. T. F. Jamieson on the history of the last geological changes in, 161; period of depression of, 169; period of land-ice in, 164; second period of depression of, 188; valley-gravel of, ~ 178.
- Scratchall's Bay, Isle of Wight, view of, 401.
- Section across a brick-earth pit, Maidstone, 453; Rowick and the summit of Ragged-stone Hill, 91; the chalk of the Isle of Wight, 405; Isle of Thanet from the cliff on the western side of Margate to that at Red Cliff's End Point, westward of Pegwell, 396; northern extremity of Coal Hill, 89; province of Otago, 124; southern extremity of the British camp (Herefordshire Beacon), 92; valley of the Ythan, near Ellon, 170; Trembling Mountain, 47; at Belhelvie, 182; Blair Drummond, in the valley of the Forth, 185; Chappel Hall, near Airdrie, 220; Errol, 175; Kilchattan brickwork, in Bute, 174; Kilcoorig, Lisburn, 26; Springfield brickwork, in Fife, 171; Whitehead, 24; Wood-

INDEX TO THE PROCEEDINGS.

- burn, 21; east of Freshwater Bay, 402; from Bowden to the Blue Mountain region, near Bath, Jamaica, 6; Howler's Heath to the south-west spur of Ragged-stone Hill, 91; Maidstone to Boxley, 451, 465; Marbat Peak to Marbat, on the south-east coast of Arabia, 350; Melmerby to Roman Fell, 239; Milburn to Dun Fell, 246; Petite Nation Seigniory to St. Jerome, 47; the river Lagan to the Black Mountain, 16; river Wharfe to the valley of the Nid, 233; in a gravel-pit north of Maidstone gaol, 458, 459; in Colin Glen, 25; near Abernethy, 184, 185; Risborough, Bucks, 399; Worcestershire Beacon, 80; of a brick-earth pit near Hadlow, 457; cavern in the Silver Band mine, Westmoreland, 415; brick-earth pipes and Kentish rag, half a mile south of Allington Church, 454; part of a chalk-pit on Brixton Down, 403; "Pipes" in Iguanodon quarry, 455; Sangatte cliff along the coast, 441; Swinyard's Hill, 76; the Clydesdale drift-beds, 210; drift-beds at Glenid Burn, Arran, 207; Crook-Crever Burn, Arran, 208; Kilmaurs, 216; on the coast of Vere, Jamaica, 6; east coast of Island Magee, 23; showing the relations of the superficial deposits in the estuary of the Ythan, 194; through Metcalfe and St. Mary, Jamaica, 5; Upper Clarendon, Jamaica, 4; (vertical) of the Coal-measures of New South Wales, 140.
- Sections illustrating the formation of escarpments, 468, 469, 472.
- Serpulites fistula*, 102.
- Shalcomb Down, Isle of Wight, section in a chalk-pit on, 402.
- Shell-beds of Arran, 205.
- Shell-mounds and chipped flints in Scotland, 192.
- Shells found in the glacial and post-glacial beds of Scotland, lists of, 197; from the drift-beds of Arran, 209; fluvial deposits of the Nile, 375; Sangatte cliff, 442; valley of the Ganges, 382; of the Medway gravels, 454; Red Crag, comparison with those of other deposits, 226.
- Shropshire, new genus of Eurypterida from the Lower Ludlow rock of Leintwardine, 490.
- Silurian rocks of Southern New Brunswick, 426; the Malvern Hills, 94; south-east of Cumberland and the north-east of Westmoreland, 235.
- Silver Band mine, Westmoreland, section of cavern in the, 415.
- Sketch showing the junction of the Hollybush sandstone with the metamorphic rocks at Ragged-stone Hill, 88.
- Sketches of a bent and of a horizontal stem of Arragonite in the Dufton Fell mine, Westmoreland, 419.
- Sketch-map illustrating the glacial phenomena of Scotland, 163; of the Province of Canterbury, New Zealand, showing the glaciation during Pleistocene and Recent times, 134; south-east of Cumberland and north-east of Westmoreland, 236; valley of the Medway, 444.
- Skiddaw slates of Rake Beck, fossils from the, 248.
- Slains, list of fossil shells from between Cruden and, 200.
- South Africa, Dr. Rubidge on changes rendered necessary in the geological map of, 437.
- South Australia, Tertiary corals from, 394.
- Southern Alps of New Zealand, Lake-basins in the, 130.
- Species, variability and persistence of, 360.
- Spirifer in the Coal-measures of New South Wales, 137.
- Springfield brickwork, in Fife, section at, 171.
- Spruce, R., Esq., on the Volcanic Tufa of Latacunga, at the foot of Cotopaxi; and on the Cangáua, or volcanic mud of the Quitenian Andes, 249.
- Squalodon*, 231.
- Stegodon Cliftii, 260.
- insignis, 261.
- Stegodons, Dr. H. Falconer on the characters of the, 258.
- Stirlingshire, list of shells from between Drymen and Gartness, 202.
- Stoliczka, Dr. F., on the character of the Cephalopoda of the South-Indian Cretaceous rocks, 407.
- Streams and rivers in modifying their channels, action of, 466.
- Stylonurus (Eurypterus) Symondsii*, 486.
- *Powrici*, 482.
- *Scoticus*, 484.

INDEX TO THE PROCEEDINGS.

- Stylophora granulata*, 10.
 Submarine forest-beds of Scotland, 183.
 Submergence of Scotland, 169.
 Suffolk, new Mammal from the Red Crag of, 226.
 Superficial deposits of Blair Drummond, section of the, 185; Scotland, 161; the Estuary of the Ythan, section of the, 194; Medway valley, 445.
 Swinyard's Hill, metamorphic rocks of, 76.
 Synchronism of the Asiatic with other Cretaceous strata, 358.
 Table of the Cretaceous formations of France, England, and Ireland, 34; Molluscan faunas of Tertiary deposits, 226; showing the distribution of the Irish Cretaceous fossils, 28.
 Tate, R., Esq., on the correlation of the Cretaceous formations of the north-east of Ireland, 15.
 Teise, gravels of the valleys of the rivers Beult and, 452.
 Tellina-calcareous bed at Chappel Hall, near Airdrie, 219.
Terebratulina abrupta, 41.
 — (*Waldheimia*) *Hibernica*, 42.
Terebratulina DeFrancei, 42.
 Tertiary beds of the Isle of Wight, junction of the chalk and the, 405; deposits of Victoria, Australia, the Rev. J. E. T. Woods on the, 389.
 Thanet, Mr. W. Whitaker on the Chalk of the Isle of, 395.
 Theories of the denudation of the Weald, 460.
Thysanus elegans, 10.
 Topley, W., Esq., and Dr. C. Le Neve Foster, on the superficial deposits of the valley of the Medway, with remarks on the denudation of the Weald, 443.
 Totternhoe stone, Mr. W. Whitaker on the, 399.
 Trembling Mountain, section across, 47.
 Triassic rocks of Baden and Franconia, 435.
Trichecodon Huxleyi, 226.
Trichecus rosmarus, 228.
 Tufa of Latacunga, at the foot of Cotopaxi, 249.
Turrilepas Wrightii, 486.
Turritella unicarinata, 37.
 Tuscan specimens of *Elephas (Loxodon) meridionalis*, 281.
 Tyrie, 197.
 Upper and Middle Devonian of Southern New Brunswick, 429.
 Upper Cambrian rocks of the Malvern Hills, 94.
 Upper Silurian rocks of Southern New Brunswick, 428; the Malvern Hills, 94.
 Valley-gravel of Scotland, 178.
 Valley of the Ganges, the late Dr. Falconer on the physical features of the, 377; Medway, Dr. C. Le Neve Foster and Mr. W. Topley on the superficial deposits of the, 443.
 Variability of species, 360.
 Vere, Jamaica, section on the coast of, 6.
 Vertical section of the Coal-measures of New South Wales, 140.
 Victoria, Australia, Tertiary deposits of, 389.
 Views of Scratchall's Bay, Isle of Wight, 401; the cliffs eastward of Freshwater Bay, 402.
 Violet Creek, South Australia, Tertiary corals from, 394.
 Volcanic tufa of Latacunga, at the foot of Cotopaxi, and on the Cangáua, or volcanic mud of the Quitenian Andes, Mr. R. Spruce on the, 249.
 Wall, G. P., Esq., and Dr. P. M. Duncan on the geology of Jamaica, especially with reference to the district of Clarendon; with descriptions of the Cretaceous, Eocene, and Miocene Corals of the Islands, 1.
 Wallace, W., Esq., on the growth of Flos Ferri, or coralloidal arragonite, 413.
 Walrus, new Mammal from the Red Crag allied to the, 226.
 Warren, Lieut. C., on the caves of Gibraltar, 371.
 Warwickshire, Lias-outliers in South, 159.
 Weald, Dr. C. Le Neve Foster and Mr. W. Topley on the denudation of the, 460.
 Wealden ironstone, rhomboidal specimens of, 421.
 Well-section at Chappel Hall, near Airdrie, 220.
 Wenlock Limestone and Shale of Dudley, Mr. H. Woodward on a new genus of *Cirripecta* in the, 486.
 Westmoreland, Prof. R. Harkness on the Lower Silurian rocks of the north-east of, 240; section of a cavern in the Silver Band mine, 415; sketches of stems of Arragonite in the Dufton Fell mine, 419.

INDEX TO THE PROCEEDINGS.

- West of Scotland, beds beneath the Boulder-clay in the, 213.
- Wharfe to the valley of the Nid, section from the River, 233.
- Whitaker, W., Esq., on the chalk of Buckinghamshire, and on the Tottenhamhoe Stone, 398; on the chalk of the Isle of Thanet, 395; on the chalk of the Isle of Wight, 400.
- Whitehead, section at, 24.
- White Limestone of Ireland, 25.
- Wight, Mr. W. Whitaker on the chalk of the Isle of, 400.
- Wind's Point, metamorphic rocks of, 78.
- Wood, E., Esq., and G. E. Roberts, Esq., on Mammalian remains found near Richmond, Yorkshire, 493.
- Wood, S. V., jun., Esq., on the Drift of the East of England and its divisions, 141.
- Woodburn, section at, 21.
- Woods, Rev. J. E. T., on some Tertiary deposits in the colony of Victoria, Australia; with a note on the corals, by Dr. P. M. Duncan, Sec. G. S., 389.
- Woodward, H., Esq., on a new genus of Eurypterida from the Lower Ludlow rock of Leintwardine, Shropshire, 490; on some new species of Crustacea belonging to the Order Eurypterida, 482; on the discovery of a new genus of Cirripedia in the Wenlock limestone and shale of Dudley, 486.
- Wootton Warwen, Lias-outlier at, 159.
- Worcestershire Beacon, metamorphic rocks of, 80.
- Wych, metamorphic rocks of the, 78.
- Yorkshire, Mammalian remains found near Richmond, 493.
- Ythan, near Ellon, section across the valley of the, 170; section showing the relations of the superficial deposits of the estuary of the, 194.
- Ziphioid Cetaceans of the Red Crag, source of the, 222.

THE END.
