

GENERAL INDEX

TO

THE QUARTERLY JOURNAL

AND

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

[The fossils referred to are described; and those of which the names are printed in italics are also figured.]

- Aberdeen granite, inclusions in, 10.
Actinometra abnormis, 53.
— *Loveni*, 51.
— *Mülleri*, 54.
Adwalton, coal-measures at, 56.
Agglomerates of Charnwood Forest, fragments in, 347.
Alaria Beaugrandi, 229.
Ammonites pectinatus, 228.
— pseudogigas, 228.
— *triplicatus*, 228.
Analyses of granite and inclusions from Gready, 8; from Peterhead, 13; from Ardshiels quarry, Ballachulish, 15; from Newry, 17; of Atlantic ooze, 83; of Gravesend chalk, 83; of grey chalk from Folkestone, 84; of white chalk from Shoreham, 84; of a new mineral from Invernesshire, 111; of rock from Sharpley, 342; of Süderøe coal, 625.
Anglesey, Mr. C. Callaway on the gneissic and granitoid rocks of, *Proc.* 2.
—, Prof. Hughes on the geology of, 237.
Annelid jaws, Mr. G. J. Hinde on, from the Ludlow and Wenlock formations of the West of England, 368.
Anniversary Address of the President, *Proc.* 33-92. See also Sorby, H. C., Esq.
Annual Report for 1879, *Proc.* 7.
Anomodont Reptile, Prof. Owen on Q. J. G. S. No. 144.
an, from the Trias of Graaf Reinet, S. Africa, 414.
Anstruther and Pittenweem section in the Calciferous-Sandstone series, 560.
Anstruther Wester, 570.
Antedon equimarginata, 49.
— *incurva*, 552.
— *laticirra*, 551.
— *Lundgreni*, 550.
— *paradoxa*, 46.
— *perforata*, 549.
— *prisca*, 54.
— *rotunda*, 52.
— *rugosa*, 49.
— *striata*, 551.
Antlers, development of, in the deer, 395.
Arabellites anglicus, 375.
— *cornutus*, 374.
— *extensus*, 374.
— *obtusus*, 375.
— *similis*, 376.
— *spicatus*, 374.
—, var. *contractus*, 375.
— *sulcatus*, 375.
Ardshiels quarry, inclusions in granite from, 14; analysis of, 15.
Arenig beds of the Dee valley, 278.
Argillornis longipennis, Prof. Owen on the skull of, 23.
Arroquhar, quartz-sand in mica-schist of, *Proc.* 86.
Astarte polymorpha, 231.
— *Semanni*, 232.
— *rugosa*, 231.

- Atlantic ooze, analysis of, 83.
Avicula recta, 585.
- Bala-beds of the Dee valley, lower, 278; middle, 279; upper, 280.
 Ballachulish, inclusions in granite from Ardsheels quarry at, 14; analysis of, 15.
 Bardon-hill quarry, 346.
 Belgium, Devonian rocks of, 267.
 —, section of Devonian, Old Red Sandstone, and Carboniferous formations in, 274.
 Bellerophon *costatus*, 583.
 Ben Slioch, section of Hebridean gneiss from near base of, 97.
 Beranka, colony of, 610.
 Bessbrook, granite of, 18.
 Billow Ness, 567, 568, 569.
 Birnam, concretion in slate from, *Proc.* 8c.
 Black-Hills granite-quarries, 13, 14.
 Blake, Rev. J. F., on the Portland rocks of England, 189.
 Blencowe, Rev. G., on certain geological facts witnessed in Natal and the border countries during nineteen years' residence, 426.
 Bohemia, Mr. J. E. Marr on the Predevonian rocks of, 591.
 Bonney, Rev. T. G., on the vicinity of the upper part of Loch Maree, 93.
 —, and Rev. E. Hill on the Pre-carboniferous rocks of Charnwood Forest, 337.
 Bose, P. N., Esq., on fossil *Carnivora* from the Siválik hills in the collection of the British Museum, 119.
 Boulder-clay of the Orkneys, 654.
 —, Upper, of Cheshire and South Shropshire, 178; of the lower course of the Severn, 180.
 Boulogne and Kimmeridge, comparative sections at, 197.
 Boulonnais, Devonian rocks of, 268.
 Bowdon, section through, 291.
 Branik, colony of, 614.
 Brent Tor, sections through and near, 289, 290, 291, 292, 293.
 — — — volcano, Mr. F. Rutley on the structure of, 285.
 British Museum, Mr. P. N. Bose on the collection of fossil *Carnivora* from the Siválik hills in the, 119.
 British Upper-Silurian Fenestellidæ, Mr. G. W. Shrubsole on the, 241.
 Brockenhurst series, fossils of the, 153.
 Brod, section through, 594.
 Bruntcliffe, cannel coal at, 58.
 Buchan Ness, granite of, 14.
 Buckinghamshire, Portland rocks of, 215.
 Buxburn, granite from Sclettie quarry near, 11.
- Caiplic, 569.
 Calcareous series of Loch Maree, 100.
 Calciferous-Sandstone series, Mr. J. W. Kirkby on the zones of marine fossils in the, of Fife, 559.
 Callaway, C., Esq., on the gneissic and granitoid rocks of Anglesey and the Malvern hills, *Proc.* 2.
 —, on a second Precambrian group in the Malvern hills, 536.
 Cambrian beds, Mr. J. E. Marr on the, of the Dee valley and of the Lake-district, 277.
 — rocks of Bohemia, 592; compared with those of Britain, 601.
 Cameron, J. M., Esq., and Jolly, W., Esq., on a new mineral occurring in the rocks of Invernesshire, 109.
Canis curvipalatus, 134.
 — sp., 135.
 Cannel coal, Mr. J. W. Davis on fish-remains in the, of the West Riding of Yorkshire, 56.
 Carboniferous and Old Red Sandstone of the south of Ireland and North Devon, 257.
 — conglomerate, gold in, in Nova Scotia, 313.
 — formations, sections of, in Ireland, N. Devon, Herefordshire, and Belgium, 274.
Cardium? calcareum, 232.
 Carlinghow, cannel coal at, 57.
Carnivora, Mr. P. N. Bose on fossil, from the Siválik hills, 119.
 —, list of fossil, from the Siváliks, 120.
 Carpenter, P. H., Esq., on some *Comatulæ* from British Secondary rocks, 36.
 —, on some new Cretaceous *Comatulæ*, 549.
Ceramopora megastoma, 359.
Cerithium bifurcatum, 229.
 — *Hudlestoni*, 229.
 Cerrigydrudion, section in the neighbourhood of the rectory, 280.
 Chalk of Gravesend, analysis of, 83.
 — of Shoreham, analysis of, 84.
 Chalky clay, 479.

- Charnwood Forest, Rev. E. Hill and Prof. Bonney on the Precarboniferous rocks of, 337.
- — —, diagrammatic section, showing the probable relation of the beds in the northern part of, 341.
- Cheesewring quarries near Liskeard, granite of, 8.
- Chelonian reptile, Prof. H. G. Seeley on *Psephophorus polygonus*, a new type of, 406.
- Cheshire, Upper Boulder-clay of, 178; drift-deposits of, 185.
- Churlhanger, section through, 290.
- Clay, chalky, 479.
- Cliorhizodon orenburgensis*, Mr. W. H. Twelvetrees on, a new Theriodont reptile from the Upper Permian cupriferous sandstone of Kargalinsk, near Orenburg, 540.
- Coal-measures, Mr. J. W. Davis on the fish-remains in the cannel coal in the Middle, of the West Riding of Yorkshire, 56.
- Cobbold, E. S., Esq., on the strata exposed in laying out the Oxford sewage-farm at Sandford-on-Thames, 314.
- Colonies, 605; of Motol and Beranka, 610; Cotta, 611; D'Archiac, 611; on the road to Vohrada, 613; at Tachlovice, 613; of Branik, 614; at Hodkovicék, 614; Krejčí, 614; Haidinger, 616.
- , vertical section, showing the supposed relations of the, 608.
- Comatulæ, general remarks on structure and classification of, 36.
- , Mr. P. H. Carpenter on some, from the British Secondary rocks, 36.
- , Mr. P. H. Carpenter on some new Cretaceous, 549.
- , morphology of, 555.
- Combe, section through, 289.
- Compsacanthus major*, 62.
- *triangularis*, 62.
- Concretion in slate from Birnam, *Proc.* 80.
- Concretionary patches, Mr. J. A. Phillips on, contained in granite, 1. *Corbula saltans*, 230.
- Correlation of drift-deposits of England, Mr. Mackintosh on, 178.
- Coventry, drift-deposits round, 183.
- Crag, red and fluvio-marine, 457.
- Craik, 567, 570.
- Crayford, Mr. F. C. J. Spurrell on the discovery of the place where Palæolithic implements were made at, 544.
- Crayford, sections of gravels &c. at, 544, 547.
- Cretaceous Comatulæ, Mr. P. H. Carpenter on some new, 549.
- flints, Dr. Wallich on, 68.
- Cumnor Hurst, Mr. J. W. Hulke on *Iguanodon Prestwichii* from the Kimmeridge clay of, near Oxford, 433.
- — —, Prof. J. Prestwich on the occurrence of a new species of *Iguanodon* at, 430.
- — —, section at, 430.
- Cypricardia bicosta, 585.
- *costifera*, 231.
- Cyprina elongata*, 232.
- *implicata*, 232.
- *swindonensis*, 232.
- D'Archiac, Colonie, sections across, at Repora, 612.
- Dartmoor, Mr. F. Rutley on the schistose volcanic rocks of, 285.
- Daubrée, Prof. A., award of the Wollaston Medal to, *Proc.* 28.
- Davidson, Thomas, Esq., Address to the Geological Society of France as Delegate from the Geological Society, *Proc.* 95.
- Davies, T., Esq., award of the Wollaston Donation fund to, *Proc.* 31.
- Davis, J. W., Esq., on the fish-remains found in the cannel coal in the Middle Coal-measures of the West Riding of Yorkshire, with the descriptions of some new species, 56.
- on the genus *Pleuracanthus*, including the genera *Orthacanthus*, *Diplodus*, and *Xenacanthus*, 321.
- Dawkins, W. Boyd, Esq., on the classification of the Tertiary period by means of the mammalia, 379.
- Dee valley, Mr. J. E. Marr on the Cambrian and Silurian beds of the, 277.
- Deer, development of antlers in, 395.
- Denbighshire grits and flags of the Dee valley, 283.
- Devizes, Portland rocks near, 203.
- Devon, North, Prof. Hull on the geological relations of the rocks of to those of the south of Ireland, 255.
- Devonian, &c., sections of, in Ireland, N. Devon, Herefordshire, and Belgium, 274.
- beds, Middle and Lower, 262; absence of, in Ireland, 264.
- Devonshire, Devonian and Carboniferous rocks of, 259.
- , north, section of Devonian, Old

- Red Sandstone, and Carboniferous formations in, 274.
 Diabase of Bohemia, 599.
 Diastoporidæ, Mr. G. R. Vine on the family, 836.
 Dibřy Mill, section from Krušna Hora to, 594.
 Diorite of Bohemia, 599.
 Diplodus, Mr. J. W. Davis on, 321.
 Drift-deposits, correlation of the, of the north-west of England with those of the Midland and Eastern counties, 178.
 Dyce quarry, inclusions in granite from, 12.
- East-Midland counties, drift-deposits of the, 182.
 Eclogite of Bohemia, 599.
 England, Mr. S. V. Wood, jun., on the Newer Pliocene period in, 457.
 —, Rev. J. F. Blake on the Portland rocks of, 189.
 English granites, enclosures in, 5.
 Eocene Mammalia, 382.
 Erratics of the Orkneys, 659.
 Etheridge, R., award of the Murchison Medal and Fund to, *Proc.* 29.
Eucaerotus, Mr. J. W. Hulke on the vertebræ of, 31.
Eunicites chroomorphus, 371.
 — *churtonensis*, 371.
 — *coronatus*, 371.
 — *curtus*, 370.
 — major, 370.
 — *unguiculus*, 371.
 — *varians*, 371.
- Europe, Western, table of the Oligocene strata of, 167.
 Evans, Dr. J., award of the Lyell Medal to, *Proc.* 30.
- Farøe Islands, Mr. A. H. Stokes on the coal found at Süderøe, 620.
 Fault, section across, at south end of "Colonie d'Archiac," Repora, 612.
Felis sp., 127.
 Felspar crystal with inclusions from High Sharpley, 343.
Fenestella antiqua, 244.
 — *intermedia*, 250.
 — *lineata*, 249.
 — *Milleri*, 246.
 — *patula*, 247.
 — *prisca*, 244.
 — *regularis*, 247.
 — *retaporata*, 249.
 — *reticulata*, 245.
 — *rigidula*, 248.
- Fenestellidæ*, Mr. G. W. Shrubsole on the British Upper Silurian, 241.
- Fife, Mr. J. W. Kirkby on the zones of marine fossils in the Calciferous sandstone series of, 559.
 Fish-remains, Mr. J. W. Davis on the, in the canal coal of the West Riding of Yorkshire, 56.
 Flint flake from Crayford, 546.
 Flints, Dr. Wallich on Cretaceous, 68.
 Fluvio-marine crag, 457.
 Foggen Tor, inclusions in granite of, 8.
 Folkestone grey chalk, analysis of, 84.
 Foreland grits, 265.
 Forest-bed, Norfolk, Mr. E. T. Newton on the occurrence of the Glutton in the, *Proc.* 99.
 Fossils of the Brockenhurst series, 153; of the Hempstead series, 157; marine, of the brackish-water bands of Headon hill and Hordwell cliffs, 159; freshwater and terrestrial molluscan, of the Isle of Wight Oligocene, 161; of the Trigonidæ-beds near Swindon, 209; of the Portland sand, Swindon, 212; of the creamy limestones of Buckinghamshire, 216; of the rubbly beds of Buckinghamshire, 218; of the Portland series of England, 225; of Moel Tryfan, 353; marine, of the calciferous sandstone series of Fife, 560; table of, 587.
 —, marine, zones of, in the calciferous-sandstone series of Fife, 559.
- France, Address of Mr. Thomas Davidson to the Geological Society of, *Proc.* 95.
- Geology of the Orkney Islands, 649.
 Glacial beds, lower, of England, 463.
 — sand and gravel, middle, 479.
 Glaciation of the Orkney Islands, Messrs. Peach and Horne on the, 648.
 —, effects of, on the gold-leads of Nova Scotia, 312.
 Glen Docherty, section of mica-schist from the upper part of, 104.
 Glen Laggan, syenite of, 93; sketch map of part of, 95.
 — —, section of micaceous schist from the newer series, 102.
 — — sections in, 96.
- Glen Nevis, inclusion in granite from, 15.
- Glutton, Mr. E. T. Newton on the occurrence of the, in the Norfolk forest-bed, *Proc.* 99.
- Gneiss, Hebridean, section of, from near base of Ben Slioch, 97.
 —, newer, of Loch Maree, 100;

- sections of the micaceous schist of the, 102, 104.
- Gneissic and granitoid rocks of Anglesey and the Malvern hills, Dr. C. Callaway on the, *Proc.* 2.
- Gold in carboniferous conglomerate in Nova Scotia, 313.
- Gold-leads of Nova Scotia, Mr. H. S. Poole on the, 307.
- Goragh Wood, inclusions in granite from, 18.
- Gorgonia *assimilis*, 247.
- Graaf Reinet, Prof. Owen on an Anomodont reptile from the Trias of, 414.
- Granite, Mr. J. A. Phillips on concretionary patches and fragments of other rocks contained in, 1.
— of Bohemia, 598.
- Granitoid and gneissic rocks of Anglesey and the Malvern hills, Dr. C. Callaway on the, *Proc.* 2.
- Graptolitic mudstones of the Dee valley, 281.
- Gravesend chalk, analysis of, 83.
- Gready, enclosures in granite of, 7; analysis of, 8.
- Grey chalk of Folkestone, analysis of, 84.
- Gross Kuchel, section through, 615.
- Gulo *luscus*, *Proc.* 99.
- Gunnislake, granite of, 8.
- Haidinger, Colonie, section across, 615.
- Hampshire basin, Prof. Judd on the Oligocene strata of the, 137.
— —, comparative vertical sections of the Oligocene strata of the 170.
- Hardwick, section through, 290.
- Headon-hill cliff, marine fossils of the brackish-water bands of, 159.
- Hebridean gneiss from near base of Ben Slioch, section of, 97.
- Hempstead series, fossils of the, 157.
- Herefordshire, section of Devonian, Old Red Sandstone, and Carboniferous formations in, 274.
— Beacon, rock from, 538, 539.
- Hicks, Henry, Esq., on the Precambrian rocks of the North-western and Central Highlands of Scotland, *Proc.* 101.
- High Sharpley, analysis of rock from, 342; broken quartz-crystal with inclusions &c. from, 343; felspar crystal with inclusions from, 343.
- Hill, Rev. E., and Prof. T. G. Bonney on the Precarboniferous rocks of Charnwood Forest, 337.
- Hinde, G. J., Esq., on annelid jaws from the Wenlock and Ludlow formations of the west of England, 368.
- Historic Mammalia, 402.
- Hluboš, section through, 594.
- Hodkoviček, colony at, 614; section, 615.
- Holobau, section by bridge east of, 600.
- Hordwell cliff, marine fossils of the brackish-water bands of, 159.
- Horne, J., Esq., and B. N. Peach, Esq., on the glaciation of the Orkney Islands, 648.
- Hudlice, section through, 594.
- Hughes, T. M'Kenny, Esq., on the geology of Anglesey, 237.
- Hulke, J. W., Esq., on the vertebrae of *Ornithopsis* = *Eucamerotus*, 31.
—, on *Iguanodon Prestwichii* from the Kimmeridge Clay of Cumnor Hurst, near Oxford, 433.
- Hull, Prof. E., on the geological relations of the rocks in the south of Ireland to those of North Devon, &c., 255.
- Hyæna felina*, 130.
— *sivalensis*, 128.
- Ichthyosaurus Zetlandicus*, Prof. Seeley on, a new species from the Lias of Whitby, 635.
- Igneous rocks of Loch Maree, 105; of the Predevonian basin of Bohemia, 598.
- Iguanodon, Prof. J. Prestwich on the occurrence of a new species of, at Cumnor Hurst, near Oxford, 430.
- Iguanodon Prestwichii*, Mr. J. W. Hulke on, 433.
- Implements, palæolithic, manufactory of, at Crayford, 544.
- Inclusions in granites, different kinds of, 19.
- Invernesshire, Messrs. Jolly and Cameron on a new mineral occurring in, 109.
- Ireland, Mr. J. Nolan on the Old Red Sandstone of the north of, 529.
—, Old Red Sandstone of, 257; absence of Middle and Lower Devonian in, 264.
—, Prof. Hull on the geological relations of the rocks of, to those of North Devon, 255.
—, South, sections of Devonian, Old Red Sandstone, and Carboniferous formations in, 274.
- Irish granites, inclusions in, 15.
- Isle of Wight, comparative vertical sections of the Oligocene strata in the, 170.

- Jeffreys, J. Gwyn, Esq., on the occurrence of marine shells of existing species at different heights above the present level of the sea, 351.
- Jinee, section from, to Milin, 594.
- Jolly, W., Esq., and Cameron, J. M., Esq., on a new mineral occurring in the rocks of Invernesshire, 901.
- Judd, Prof., on the Oligocene strata of the Hampshire basin, 137.
- Kargalinsk, near Orenburg, in South-eastern Russia, Mr. W. H. Twelve-trees on a new Theriodont reptile from the Upper Permian cupriferous sandstones of, 540.
- Keighley, section in Marley sand-pit near, 186.
- Kemnay, inclusions in granite from, 12.
- Kenilworth, drift-deposits round, 183.
- Kilworthy, section through, 290.
- Kimmeridge, Portland rocks of, 193.
- and Boulogne, comparative sections at, 197.
- Clay, Prof. J. Prestwich on the occurrence of a new species of *Iguanodon* in the, at Cumnor Hurst, near Oxford, 430.
- —, Mr. J. W. Hulke on *Iguanodon Prestwichii* from the, of Cumnor Hurst, 433.
- Kineton, Prof. Seeley on an Ornithosaurian from the Stonesfield slate of, 27.
- Kingsbarns harbour, 570.
- Kintore, inclusions in granite from Kemnay, near, 12.
- Kirkby, J. W., Esq., on the zones of marine fossils in the Calciferous Sandstone series of Fife, 559.
- Krejčí, Colonie, section across, 615.
- Krušna Hora, section from Dibřy Mill to, 594.
- Lacuna antiqua, 584.
- Lake-district, Mr. J. E. Marr on the Cambrian and Silurian beds of the, 277.
- Lamorna, enclosures in granite of, 5.
- Leamington, drift-deposits round, 183; section at Lillington near, 183.
- Leda* sp., 233.
- Leicestershire, drift-deposits of, 184.
- Lias of Whithy, Prof. Seeley on *Teleosaurus eucephalus*, a new species from the, 627; Prof. Seeley on *Ichthyosaurus Zetlandicus*, a new species from the, 635.
- Lillehall hill, rock from, 539.
- Lillington, near Leamington, section at, 183.
- Lima bifurcata*, 234.
- Liskeard, slate from, 73; granite of Cheesewring quarries near, 8.
- Littlemore, sections in railway-cutting near, 315, 317.
- Littonary Down, section from, to Tavistock, 290.
- Littorina bilineata*, 584.
- *scotoburdigalensis*, 584.
- Llanberis, slate from, 73.
- Loch Maree, Rev. T. G. Bonney on the vicinity of the upper part of, 98.
- Loch Goyle, mica-schist of, *Proc.* 89.
- Lower glacial beds of England, 463.
- Lower Chillaton, section through, 290.
- Ludlow formation, Mr. G. J. Hinde on annelid jaws from the, 368.
- Lumbriconereites basalis*, 376.
- Lutra palaeindica*, 133.
- Luxulyan, enclosures in granite of Gready, near, 7.
- Lyell Geological Fund, award of the, to Prof. F. Quenstedt, *Proc.* 31.
- Medal, award of the, to John Evans, Esq., *Proc.* 30.
- Machærodus palaeindicus*, 125.
- Mackintosh, D., Esq., on the correlation of the drift-deposits of the North-west of England with those of the Midland and Eastern Counties, 178.
- Macrocheilus striatulus*, 584.
- Mallet, R., Esq., on the probable temperature of the primordial ocean of our globe, 112.
- Malvern Hills, Mr. C. Callaway on the gneissic and granitoid rocks of the, *Proc.* 2.
- —, Mr. C. Callaway on a second Precambrian group in the, 536.
- —, dispersion of angular débris from the, 180.
- Malvernian series, *Proc.* 2.
- Mammalia, Eocene, of Britain and France, 382; Miocene, 385; Lower Miocene, of France, 386; Mid-Miocene, of France, 387; Upper Miocene, 339; Lower Pliocene, of France, 391; Upper Pliocene, of France and Italy, 392; Pleistocene, 395; early Pleistocene, of Britain, 395; Mid-Pleistocene, of Britain, 397; late Pleistocene, of Britain, 398; Prehistoric, of Britain and

- Ireland, 400; Historic, of the British Isles, 402.
- Mammalia from Quaternary beds at Reading, 300.
- , Mr. W. Boyd Dawkins on the classification of the Tertiary period by means of the, 379.
- Mammalian remains in Quaternary sands at Reading, Mr. Poulton, on, 296.
- Map of part of Glen Laggan, 95; of Süderøe, 621.
- Marine shells, Mr. J. Gwyn Jeffreys on the occurrence of, above the present level of the sea, 351.
- Marley sand-pits, near Keighley, section in, 186.
- Marr, J. E., Esq., on the Cambrian and Silurian beds of the Dee valley, as compared with those of the Lake district, 277.
- , on the Predevonian rocks of Bohemia, 591.
- Mary Tavy, section through, 290.
- May-hill group in the Dee valley, 281.
- Meather, section through, 290.
- Metamorphic rocks, *Proc.* 81.
- Mica-schist, section of, from the upper part of Glen Docherty, 104.
- Mica-trap of Bohemia, 598.
- Microscopes, purchase of, *Proc.* 94.
- Middle Glacial sand and gravel, 479.
- Milin, section from Jinec to, 594.
- Milton Abbot, section through, 289.
- Mineral, Messrs. Jolly and Cameron on a new, occurring in Inverness-shire, 109.
- Mining-operations in the gold-leads of Nova Scotia, 309.
- Miocene Mammalia, 385.
- Moel Tryfan, fossils of, 353.
- Mollusca, freshwater and terrestrial, of the Isle of Wight, 161.
- Monkstone, section through, 290.
- Moor quarry, inclusions in granite from, 18.
- Moraines of the Orkneys, 658.
- Motol, colony of, 610; section across colony at, 610.
- Mourne granite, inclusions in, 18.
- Mudstones, graptolitic, of the Dee valley, 281.
- Murchison Medal and Fund, award of the, to Robert Etheridge, Esq., *Proc.* 29.
- Myalina modioliformis, 585.
- Myocncha portlandica*, 231.
- Natal, Rev. G. Blencowe on geological facts witnessed in, 426.
- Natica ceres*, 229.
- Natica incisa*, 229.
- Nautilus planotergatus*, 583.
- Nereidavus antiquus*, 377.
- New Forest, vertical section of Oligocene strata in the, 170.
- Newer gneiss of Loch Maree, 100.
- Pliocene period in England, Mr. S. V. Wood, jun., on the, 457.
- Newry, inclusions in granite from, 16; analyses of, 17.
- Newton, E. T., Esq., on the occurrence of the Glutton in the forest-bed of Norfolk, *Proc.* 99.
- Nolan, Joseph, Esq., on the Old Red Sandstone of the North of Ireland, 529.
- Norfolk, Mr. E. T. Newton on the occurrence of the Glutton in the forest-bed of, *Proc.* 99.
- North Devon, geological relations of the rocks of, to those of the south of Ireland, Prof. Hull on, 255.
- Nova Scotia, Mr. H. S. Poole on the gold-leads of, 307.
- Nuneaton, drift-deposits round, 183.
- Nun's Well, St. Davids, rock from, 539.
- Ocean, primordial, Mr. R. Mallet on the temperature of the, 112.
- Enonites aspersus*, 373.
- *cuneatus*, 372.
- —, var. *humilis*, 372.
- *inæqualis*, 373.
- *insignificans*, 373.
- *naviformis*, 372.
- *præacutus*, 373.
- *regularis*, 372.
- *tubulatus*, 373.
- Old Red Sandstone and Carboniferous of the South of Ireland and North Devon, 257.
- — —, &c., sections of, in Ireland, N. Devon, Herefordshire, and Belgium, 274.
- — — of the North of Ireland, Mr. J. Nolan on the, 529.
- Oligocene strata, Prof. Judd on the, of Hampshire, 137.
- — — of Western Europe, table of the, 167.
- — — of the Hampshire basin, comparative vertical sections of the, 170.
- Ooze, Atlantic, analysis of, 83.
- Orenburg, Mr. W. H. Twelvetrees on a new Theriodont reptile from the Upper Permian cupriferosus sandstones of Kargalinsk, near, 540.
- Orkney Islands, Messrs. Peach and Horne on the glaciation of the, 648.
- — —, geological structure of the,

- 649; Boulder-clay of, 654; moraines of, 658; erratics of, 659.
- Ornithopsis*, Mr. J. W. Hulke on the vertebræ of, 31.
- Orthacanthus, Mr. J. W. Davis on, 321.
- Orthoceras cylindraceum, 583.
- Ostracacanthus dilatatus*, 64.
- Oxford, Mr. J. W. Hulke on *Iguanodon Prestwichii* from the Kimmeridge Clay of Cumnor Hurst, near, 433.
- , Prof. J. Prestwich on the occurrence of a new species of *Iguanodon* in the Kimmeridge Clay at Cumnor Hurst, near, 430.
- sewage-farm, Mr. E. S. Cobbold on the strata exposed in laying out the, 314.
- Oxfordshire, Portland rocks of, 213.
- Owen, Prof., on the skull of *Argil-lornis longipennis*, 23.
- , on parts of the skeleton of an Anomodont reptile (*Platypodosaurus robustus*) from the Trias of Graaf Reinet, S. Africa, 414.
- Palæolithic implements, manufactory of, at Crayford, 544.
- Peach, B. N., Esq., and J. Horne, Esq., on the glaciation of the Orkney Islands, 648.
- Pecten Morini*, 234.
- Peldar-Tor district, 341.
- Penryn, enclosures in granite of, 7.
- Permian cupriferous sandstones, upper, Mr. W. H. Twelvetrees on a new Theriodont reptile from the, of Kargalinsk, near Orenburg, 540.
- Peterhead, inclusions in granite from, 13.
- Phillips, J. A., Esq., on concretionary patches and fragments of other rocks contained in granite, 1.
- Pittenweem and Anstruther section in the calciferous sandstone series, 560.
- , sections of calciferous sandstone strata, near, 568, 571.
- Platypodosaurus robustus*, Prof. Owen on, from the Trias of Graaf Reinet, S. Africa, 414.
- Pleistocene and Pliocene periods, magnitude of the break between the, 396.
- Mammalia, 395.
- Pleuracanthus*, Mr. J. W. Davis on, 321.
- *alatus*, 329.
- *alternidentatus*, 328.
- *cylindricus*, 331.
- *denticulatus*, 334.
- *erectus*, 326.
- Pleuracanthus levissimus*, 325.
- *planus*, 329.
- *pulchellus*, 327.
- *robustus*, 330.
- *tenuis*, 327.
- *Wardi*, 334.
- Pleurophorus elegans*, 586.
- Plicatula echinoides*, 233.
- Pliocene and Pleistocene periods, magnitude of the break between the, 396.
- Mammalia, 391.
- period, newer, in England, Mr. S. V. Wood, jun., on the, 457.
- Poole, H. S., Esq., on the gold-leads of Nova Scotia, 307.
- Porphyrite of Bohemia, 599.
- Portland, Isle of, Portland rocks of, 190.
- rocks, Rev. J. F. Blake on the, of England, 189.
- Portlethton, mica-schists of, *Proc.* 90.
- Poulton, E. B., Esq., on mammalian remains and tree-trunks in Quaternary sands at Reading, 296.
- Precambrian group, Mr. C. Callaway on a second, in the Malvern Hills, 536.
- rocks of the North-western and Central Highlands of Scotland, Dr. Hicks on the, *Proc.* 101.
- of Bohemia, 592; compared with those of Britain, 601.
- Precarboniferous rocks, Rev. E. Hill and Prof. Bonney on the, of Charnwood Forest, 337.
- Predevonian rocks of Bohemia, Mr. J. E. Marr on the, 591.
- Prehistoric Mammalia, 400.
- Prestwich, Prof. J., on the occurrence of a new species of *Iguanodon* in a brick-pit of the Kimmeridge Clay at Cumnor Hurst, three miles W.S.W. of Oxford, 430.
- Pribram, section through, 594.
- Primordial ocean, Mr. R. Mallet on the temperature of the, 112.
- Protospongia, Mr. J. W. Sollas on the genus, 362.
- Protospongia fenestrata*, 363.
- Psephophorus polygonus*, Prof. H. G. Seeley on, 406.
- Pumice, fragments of, filled with a green mineral, *Proc.* 80.
- Purbeck and Portland rocks at Swindon, sections of, 205.
- Purple-clay of Yorkshire, 507.
- Pycnodus pagoda*, 228.
- Quartz, deposition of, on sand-grains, *Proc.* 62.

- Quartz-crystal, with inclusions .&c., from High Sharpley, 323.
 Quartz-felsite of Bohemia, 598.
 Quartzite of Loch Maree, 99.
 Quaternary sands, Mr. E. B. Poulton on mammalian remains and tree-trunks in, at Reading, 296.
 Quenstedt, Prof. F., award of the Lyell Geological Fund to, *Proc.* 31.
 Quether, section through, 290.
 Qvalbøe mines, Süderøe, 620.
- Ram's Down, section across, 289.
 Randerstone section in the calciferous sandstone series, 572.
 —, section near, 575.
 Ratchet-hill district, 341.
 Reading, Mr. S. B. Poulton on mammalian remains and tree-trunks at, 296.
 —, sections of Tertiary and Quaternary deposits near, 297, 303, 305.
 Red crag, 457.
 Repora, sections across "Colonie d'Archiac" at, 612.
 Reptile, Anomodont, Prof. Owen on an, from the Trias of Graaf Reinet, S. Africa, 414.
 —, chelonian, Prof. H. G. Seeley on *Psephophorus polygonus*, a new type of, 406.
 —, Mr. W. H. Twelvetrees on a new Theriodont, from the Upper Permian cupriferous sandstones of Kargalinsk, near Orenburg, 540.
 Retepora infundibulum, 246.
Rhamphocephalus Prestwichi, from the Stonesfield slate of Kineton, Prof. Seeley on, 27.
Rhynchonella portlandica, 234.
Rissoa acuticarina, 230.
 Rock and Spindle, near St. Andrews, fossils from limestone near, 563; section of Myalina-bed and coal near, 573.
 Rock-fragments contained in granite, Mr. J. Phillips on, 1.
 Rocks, Portland, Rev. J. F. Blake on the, of England, 189.
 —, Precarboniferous, Rev. E. Hill and Prof. Bonney on the, of Charnwood Forest, 337.
 Rubislaw quarry, inclusion in granite from, 11.
 Rutlandshire, drift-deposits of, 184.
 Rutley, F., Esq., on the schistose volcanic rocks occurring on the west of Dartmoor, with some notes on the structure of the Brent-Tor volcano, 285.
 Q. J. G. S. No. 144.
- St. Alban's Head, Portland rocks of, 193.
 St. Austell, enclosures in granite of, 7.
 St. Davids, rock from Nun's well, 539.
 Sandford-on-Thames, Mr. E. S. Cobbold on the strata exposed in laying out the Oxford sewage-farm at, 314.
 —, sections in and near sewage-farm at, 315, 317.
 Sand-grains, deposition of quartz on, *Proc.* 62.
 Sanguinolites *abdensis*, 586.
 — subplicatus, 586.
 Schist, micaceous, section of, from the newer series, Glen Laggan, 102.
 Schistose rocks, Mr. F. Rutley on the, of Dartmoor, 285.
 Scelatie quarry, near Buxburn, enclosures in granite from, 11.
 Scotch granites, inclusions in, 10.
 Scotland, Devonian beds of, 270.
 —, Dr. Hicks on the Precambrian rocks of the North-western and Central Highlands of, *Proc.* 101.
 Secondary rocks, Mr. P. H. Carpenter on some Comatulæ from the British, 36.
 Sections in Glen Laggan, 96; vertical, of the Oligocene strata of the Hampshire basin, 170; near the Shrewsbury Welsh Bridge, 179; at Lillington, near Leamington, 183; in Marley sand-pit, near Keighley, 186; at Kimmeridge and Boulogne, 197; of Purbeck and Portland rocks at Swindon, 205; of Devonian, Old Red Sandstone, and Carboniferous formations in Ireland, N. Devon, Herefordshire, and Belgium, 274; in the neighbourhood of the rectory, Cerrigydrudion, 280; across Ram's Down, 289; from Littorary Down to Tavistock, 290; touching the southern edge of Brent Tor, 290; east of Brent Tor, 291; nearly N. and S. through Brent Tor, 292; of Brent Tor restored, 292; illustrating the possible relation of the Brent-Tor volcanic series with that of Saltash, 293; illustrating the manner in which part of the Brent-Tor volcano has been faulted, 293; in north face of pit near Reading, 297; probable, of junction between Tertiary beds and Quaternary reconstructed beds, near Reading, 303; of south bank of river-valley near Reading, 305; of railway-cutting near Littlemore, Oxford, 315; along road through Sandford, 315; on sewage-farm,

- Sandford, 315; along lane to farm, 315; vertical, in railway-cutting near Littlamore, and on the sewage-farm, Sandford, 317; diagrammatic, showing the probable relation of the beds in the northern part of Charnwood Forest, 341; at Cumnor Hurst, 430; of cliff at Crayford, 544; from the Thames to the Manor House, Crayford, 547; of calciferous sandstone strata on the coast of Fife, 568, 571, 573, 575; from Jinec to Milin, 591; from Krušna Hora to Dibřý Mill, 594; on the north side of Sliveneč valley, 596; by bridge east of Holobau, 600; diagrammatic vertical, showing the supposed relations of the colonies, 608; across the colony at Motol, 610; across fault at south end of Colonie d'Archiac," Repora., 612; across "Colonie d'Archiac," Repora., 612; across "Colonie de Hodkoviček," 615; across "Colonies Krejčí" and "Haidinger," 615.
- Sedgwickia gigantea*, 586.
- Seeley, Prof. H. G., on *Rhamphocephalus Prestwichi*, Seeley, an Ornithosaurian from the Stonesfield slate of Kinston, 27.
- , on *Psephophorus polygonus*, a new type of Chelonian reptile allied to the leathery turtle, 406.
- , on the cranial characters of a large Teleosaur from the Whitby Lias, preserved in the Woodwardian Museum of the University of Cambridge, indicating a new species, *Teleosaurus eucephalus*, 627.
- , on the skull of an Ichthyosaurus from the Lias of Whitby, apparently indicating a new species (*Ichthyosaurus Zetlandicus*), preserved in the Woodwardian Museum of the University of Cambridge, 635.
- Severn, Upper Boulder-clay on the, 180.
- Sewage-farm, Oxford, Mr. E. S. Cobbold on the strata exposed in laying out the, 314.
- Shap, slate from, 73.
- granite, inclusions in, 8.
- Sharpley, analysis of rock from, 342.
- Shells, marine, Dr. J. Gwyn Jeffreys on the occurrence of, above the present level of the sea, 351.
- Shoreham, analysis of chalk from, 84.
- Shrewsbury Welsh bridge, section near the, 179.
- Shrubsole, G. W., Esq., on the British Upper-Silurian Fenestellidæ, 241.
- Silurian beds, Mr. J. E. Marr on the, of the Dee valley and of the Lake district, 277.
- rocks of Bohemia, 596; compared with those of Britain, 603.
- Siválik hills, Mr. P. N. Bose on fossil carnivora of, 119.
- Slate, from Liskeard, *Proc.* 73; from Shap, 73; from Llanberis, 73.
- Slates of Charnwood Forest, 348.
- Sliveneč valley, section on the north side of, 596.
- Sollas, W. J., Esq., on the structure and affinities of the genus *Protospongia*, 362.
- Sorby, Henry Clifton, Esq. (President), Address on handing the Wollaston Gold Medal to H. Bauerman, Esq., for transmission to Prof. A. Daurbrée, *Proc.* 28; Address on presenting the Murchison Medal and Fund to Robert Etheridge, Esq., 29; Address on presenting the Lyell Medal to John Evans, Esq., 30; Address on presenting the Wollaston Donation Fund to Thomas Davies, Esq., 31; Address on handing the balance of the Lyell Geological Fund to Prof. Seeley for transmission to Prof. F. Quenstedt, 31; Anniversary Address, February 20, 1880; *Obituary Notices of Deceased Fellows*:—Prof. James Nicol, 33; Sir W. C. Trevelyan, Bart., 36; Mr. John Waterhouse, 37; Prof. David Page, 39; Prof. C. B. von Cotta, 40; Prof. F. L. P. Gervais, 43; and Prof. J. F. Brandt, 44. Address on the Structure and Origin of non-calcareous stratified rocks, 46.
- South Africa, Prof. Owen on an Anomodont reptile from the Trias of, 414.
- Sowerbya longior*, 231.
- Spicules of *Protospongia fenestrata*, 365.
- Spurrell, F. C. J., Esq., on the discovery of the place where Palæolithic implements were made at Crayford, 544.
- Staurocephalites serrula*, 376.
- Stirling-hill granite-quarries, 13.
- Stokes, A. H., Esq., on the coal found in Süderøe, Farøe Islands, 620.
- Stonesfield slate of Kinston, Prof. Seeley on *Rhamphocephalus Prestwichi*, an Ornithosaurian from the, 27.
- Süderøe, Mr. A. H. Stokes on the coal found at, 620.
- Swindon, Portland rocks of, 203; sec-

- tions of Purbeck and Portland rocks at, 205.
- Syenite of Glen Laggan, 93.
- Tachlovice, colony at, 613.
- Tarannon shales of the Dee valley, 282.
- Tavistock, section from Littonary Down to, 290.
- Teleosaurus eucephalus*, Prof. Seeley on, a new species from the Whitby Lias, 627.
- Temperature, Mr. R. Mallet on the, of the primordial ocean, 112.
- Tertiary period, Mr. W. Boyd Dawkins on the classification of the, by means of the Mammalia, 379.
- Theriodont reptile, Mr. W. H. Twelvetrees on a new, from the Upper Permian cupriferous sandstones of Kargalinsk, near Orenburg, 540.
- Thracia tenera*, 230.
- Tingley, cannel coal of, 57; fishes from, 59.
- Torridon sandstone of Loch Maree, 98.
- Tree-trunks in Quaternary sands at Reading, Mr. E. B. Poulton on, 296.
- Triassic pebbles, redistribution of, 182.
- Trigonia swindonensis*, 233.
- Trochus serrilimba*, 585.
- Turbo apertus*, 230.
- *Foucardi*, 230.
- Twelvetrees, W. H., Esq., on a new Theriodont reptile (*Chiorhizodon orenburgensis*) from the Upper Permian cupriferous sandstones of Kargalinsk, near Orenburg, in South-eastern Russia, 540.
- Twowell, section through, 289.
- Unicardium circulare*, 232.
- Upway, Portland rocks of, 198.
- Vertebrae of *Ornithopsis* = *Eucamerotus*, Mr. Hulke on, 31.
- Vine, G. R., Esq., on the family Diastoporidae, 356.
- Viverra Bakerii, 131.
- Vohrada, colony on the road to, 613.
- Volcanic rocks, Mr. F. Rutley on the, of Dartmoor, 288.
- Wales, Devonian rocks in, 268.
- Wallich, Dr., on the physical history of the Cretaceous flints, 68.
- Wardour, Portland rocks of the vale of, 199.
- Wenlock formation, Mr. G. J. Hinde on annelid jaws from the, 368.
- West Ardsley, cannel coal at, 58.
- of England, Mr. G. J. Hinde on annelid jaws of the Wenlock and Ludlow formations of the, 368.
- Langstone, section through, 291.
- Riding of Yorkshire, Mr. J. W. Davis on the fish-remains in the cannel coal of the, 56.
- Whitby, Lias of, Prof. Seeley on *Teleosaurus eucephalus*, a new species from the, 627; Prof. Seeley on *Ichthyosaurus Zetlandicus*, a new species from the, 635.
- Wicca Pool, Zennor, enclosures in granites at, 6.
- Wollaston Donation Fund, award of the, to Thomas Davies, Esq., *Proc.* 31.
- Medal, award of the, to Prof. A. Daubr e, *Proc.* 28.
- Wood, S. V., Esq., jun., on the Newer Pliocene period in England, 457.
- Woodwardian Museum, Prof. Seeley on the cranial characters of a large Teleosaurus preserved in the, 627; Prof. Seeley on the skull of an Ichthyosaurus preserved in the, 635.
- Yorkshire, Mr. J. W. Davis on the fish-remains in the cannel coal of the West Riding of, 56.
- Zennor, enclosures in granites at Wicca Pool, 6.
