

GENERAL INDEX

TO

THE QUARTERLY JOURNAL

AND

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

- Abyssinia, variation-diagram of Tertiary volcanic rocks in, 268-69.
- Acerularia coronata*, see *Phillipsastræa*.
- Acroperna sericea*, 16.
- Actæon tornatilis*, 15.
- ADAMS, W. G., obituary of, lxii.
- Ædæophasma anglica*, 43-46 fig. & pl. iii.
- Ægirine & ægirine-augite in Mozambique rocks, 234 *et seqq.*; ægirine-trachyte fr. Mozambique, 235-36 & pl. xx.
- Agassizodus*, see *Campodus*.
- Albian-Aptian of Mozambique district, 224.
- Alkali series, (& associated basalts) in Mozambique district, 233-46 & pl. xx w. chem. anal.; variation-diagram of do., 266; alkali series in E. Africa generally, 263.
- ALLEN, H. A., elected Auditor, vii.
- Ampullaria ovata* (?), iv.
- Amygdaloidal basalts of Bristol district, 34 *et seqq.*; of Mozambique district, 228, 229 fig. *et seqq.*, 241 *et seqq.*
- Analcite in rocks of Lugar Sill, 85, 88 *et seqq.*, 98 *et seqq.*, 107 *et seqq.*; analcite-monzonite, 102 *et seqq.*
- Analcitization of feldspars, 37.
- Analyses, chemical, of olivine-basalts of Spring Cove, &c., 38; of biotite-lamprophyre & minette, 79; of theralite, lugarite, &c., 110, 118; of picrite, peridotite, &c., 114, 118; of teschenites, &c., 104, 118; of pseudotachylyte, &c., 213, 218; of sölvbergite, &c., 234, 235; of ægirine-trachyte, &c., 238, 239; of tephritic pumice, &c., 240; of basalts, 243, 244, 245, 248, 249, 255; of hornblende-andesite, &c., 257, 258, 259.
- ANDERSON, W., obituary of, lx-lxi.
- ANDREWS, C. W., [on *Elephas antiquus* found nr. Chatham], i-ii; [Lyell Medal awarded to], xliii-xliv.
- Annual General Meeting, x *et seqq.*
- Anorthoclase in Mozambique rocks, 233 *et seqq.*
- Antarctica (& Australia), Devonian fish-remains from, lxxix-lxxx.
- Anthropoidea, evolution of, lxviii-lxix.
- Anticline of Islay, 132-64 figs. & pl. xii (map).
- Aporrhais pespelicani*, 15.
- Aquitanian (Upper) limestones fr. Dutch New Guinea, lxxx-lxxxi.
- Ardmore & Laphroaig Quartzites, 156.
- Ardrihaig Phyllites, 158, 160.
- Arfvedssonite, 234, 237.
- Ashburton, see Lurgecombe Mill.
- Assets, statement of, xxxix.
- ASSHETON, R., obituary of, lxii.
- Astræiform corallum, characters & development of, 281-83 figs.
- Asymmetry of Lugar Sill, 122.
- Auditors elected, vii.
- Aulina rotiformis*, gen. et sp. nov., 290-94 figs. & pls. xxii, xxiv; *Aulina* Zone, 294.
- BAILEY, E. B., the Islay Anticline, 132-59 figs. & pl. xii (map), 164.

- Balance-sheet for 1915, xxxiv-xxxv.
 Barkevite in rocks of Lugar Sill, 85 *et seqq.*, 99 *et seqq.*, 108 *et seqq.*; in Mozambique rocks, 237.
 BARLOW-JAMESON Fund, list of recipients, xxxi.
 BARROW, G., [on pluvial period in Devon & Cornwall], 74; [on the Islay Anticline], 159-62.
 BARTON, E. W. E., 223.
 Barton (Devon), *Phillipsastræa hen-nahi* from, 288-89 & pl. xxii.
 Basalts fr. Mozambique, 241-44 & pl. xx w. chem. anal., 246-56 & pls. xx-xxi w. chem. anal.
 BATHER, F. A., 56, 57, 281.
 Becka Brook (Devon), 72-73.
 Belemnite fr. Serenli (Jubaland), iii.
 Belgium, Geol. Surv. map of, vii.
 Bellow Water (Ayrshire) teschenites, &c. of, 91-93.
 Bibliography of 'pseudotachylyte,' 217; of Tertiary volcanic rocks of Mozambique district, 225.
 BIGSBY Medallists, list of, xxx.
 BION, H. S., obituary of, lxii.
 Biotite-lamprophyre, *see* Lamprophyre.
 Blair Athol Limestone identified w. Islay Limestone, 160.
 Bleadon, *see* Uphill.
Blochius, *see* *Cælorhynchus*.
 BOLTON, H., on some Insects from the British Coal Measures, 43-61 figs. & pls. iii-iv.
 Bonahaven Fault, 148, 150 *et seqq.*
 Botany Beds, *Aulina rotiformis* from, 290 & pl. xxii.
Eothriolepis sp. fr. Harvey Range & Granite Harbour, lxxx.
 Bournemouth (Hants), physical geography of, viii.
 Bovey Valley, *see* Becka Brook.
 BOWMAN, --, 7.
 Bowmore Sandstone, 137, 138 *et seqq.*
 Brabourne boring (Kent), lxxxii.
 Bristol district (Somerset), igneous rocks assoc. w. Carb. Limest. of, 23-42 figs.
 British East Africa, geology, &c. of part of, ii-v; variation-diagram of Tertiary volc. rocks in, 268-69.
 Brockholes (Yorks), *Edestus newtoni* from, 1-6 figs. & pl. i.
 BURY, H., the Physical Geography of Bournemouth [title only], viii.
Bysaacanthus (?) fr. Granite Harbour, lxxx.
Cythinia sp., iv.
 Calc-alkali series of Mozambique, 246-60 & pls. xx-xxi w. chem. anal.; variation-diagram of do., 267; calc-alkali series of E. Africa generally, 263.
 CALLAWAY, C., obituary of, lviii.
 Camelidæ, evolution of, lxxi.
Campodus, teeth of, & their relationship w. *Edestus*, 3 *et seqq.* figs. & pl. i.
 Canlochan Schist = Ardrishaig Phyllites, 160.
 Carboniferous fossils fr. Siam, lxxix; *see also* Coal Measures, &c.
 Carboniferous Limestone of Bristol district, igneous rocks assoc. with, 23-42 figs.
 Carstensz, Mt. (New Guinea), lxxx.
 Chalcedony in Mozambique volc. rocks, 246, 249, 250 *et seqq.*
 CHARLESWORTH, J. K., Daniel-Pidgeon Fund awarded to, lxxviii-lxxix.
 Chatham (Kent), *Elephas antiquus* found near, i-ii.
Cleopatra bulimoides, iv.
 CLUBB, J. A., 49.
 Coal Measures of Kent, lxxxiii; C. M. (British), insects from, 43-62 figs. & pls. iii-iv.
 Coal-pebbles embedded in C. M. sandstones, lxxxiii.
 'Cælorhynchus' identified as the rostrum of *Blochius*, lxxviii.
 Colonsay (& Islay), geology of, W. of Loch Skerrols Thrust, 135-39 figs. & pl. xii (map).
 Conducia Bay (Mozambique), sect. to Ibrahim, 227; Conducia Beds, Senonian age of, 224.
 Cone-in-cone structure, nodule surrounded by, lxxvii.
 Contact-metamorphism in rocks of Mozambique district, 249; contact-rocks of Lugar Sill, 87-88, 89-90, 92, 95-97 fig. & pls. x-xi, 121.
 Coralline Crag (?) fr. the North Sea, 7-22 & pl. ii.
 Corallite & corallum, definition of terms, 281.
Corbicula fluminalis, iv.
 --- *radiata* (= *pusilla* ?), iv.
 Cornwall (& Devon), origin of river-gorges in, 63-76 figs. & pls. v-vii.
 Corundum in Lurgacombe-Mill rock, 80 & pl. ix.
 Cossyrite in Mozambique rocks, 234 *et seqq.*
 Council, annual report of, x-xii; (& Officers) elected, xx-xxi.
 Cretaceous (Upper) *Nautili* fr. Zululand, ii; Cretaceous rocks in Mozambique district, 224-225.

- CRICK, G. C., [on Upper Cretaceous *Nautili* fr. Zululand], ii; [on Upper Oxfordian Cephalopoda fr. Jubaland], iii.
- CROWTHER, E., 6.
- 'Crush-rock,' see Pseudotachylyte.
- CULLIS, C. G., 277.
- Cyathophyllum regium*, 304.
- Cycloclypeus* fr. Dutch New Guinea, lxxx-lxxxi.
- Cyprina islandica*, 8 et seq., 17-18.
- DANIEL-PIDGEON FUND awarded to J. K. Charlesworth, lxxviii-lxxix; list of recipients of D.-P. Fund, xxxi.
- Dart R. (Devon), gorges of, 72.
- Dartmoor (Devon), geology of N. margin of, lxxxiii-lxxxiv; plateaux, &c. of E. Dartmoor, 71-72.
- DAVIS, W., [appointment announced], x.
- Degnish & Shuna (Hebrides), rocks of, 157; Degnish Limestone, 133, 134, 157.
- Dentilucina borealis*, 17.
- DERBY, O. A., obituary of, lviii-lx.
- Devon (& Cornwall), origin of river-gorges in, 63-76 figs. & pls. v-vii.
- Devonian fish-remains fr. Australia & Antarctica, lxxix-lxxx.
- DE WET, P. H. S., 198.
- DEWEY, H., on the origin of some river-gorges in Cornwall & Devon, 63-74 figs. & pls. v-vii.
- Dictyoneron higginsi*, 46-48 & pl. iii.
- Differentiation in Lugar Sill, 114-28 w. variation-diagrams.
- Directions - image = interference - figures, vi.
- Doleritic theralite, see Nepheline-dolerite.
- Dolomites in Islay Limestone, &c., 141, 143, 145, 146 fig.
- Dolomitic group of Islay Quartzite, 147 et seq.
- Donors to Library, lists of, xiv-xvii.
- DUNLOP, A., obituary of, lxiii.
- Dutch New Guinea, so-called 'Orbitoidal' limestones from, lxxx-lxxxi.
- EAGLESOME, J. E., lxxxi.
- Easdale Slates, 157.
- Edestus newtoni*, sp. nov., 1-6 figs. & pl. i.
- EDMONDS, C., 281.
- Eileach am Naiomh (Garvellachs), anticline of dolomite on N.W. shore of, 145, 146 fig.
- Elasmotherium*, lxx.
- Q. J. G. S. No. 288.
- Election of auditors, vii; of Council & Officers, xx-xxi; of Fellows, ii, v, vii, viii, lxxvii, lxxviii, lxxix, lxxxiii.
- Elephas antiquus* found nr. Chatham, i-ii.
- ELTRINGHAM, W., 43.
- Epiaceratherium*, lxx.
- Epidiorite-sills in Islay & Jura, 156.
- Equidæ, evolution of, lxxi.
- Erismatolithus tubiporites (radiatus)* see *Orionastræa*.
- Estimates for 1916, xxxii-xxxiii.
- EVANS, J. W., 277; [on Methods of obtaining Directions-Image ('Interference-Figures') of a Small Mineral], vi.
- Extrathecral region (in Rugosa), 281.
- Fellows elected, ii, v, vii, viii, lxxvii, lxxviii, lxxix, lxxxiii; names read out, i; number of, x, xviii.
- Fell Top Limestone, *Aulina rotiformis* from, 290-94 figs & pl. xxii.
- Fernão Velloso Beds (Mozambique), Neocomian age of, 224.
- 'Ferrite,' an alternation-product of amphiboles, 235-36.
- Ficus simplex*, 14 & pl. ii.
- FLEMING, Sir SANDFORD, obituary of, lxii.
- FLETT, J. S., 41.
- 'Flinty crush-rock' in relat. to pseudotachylyte, 198-221 figs. & pls. xvi-xix.
- Foreign Members, list of, xxii; For. Correspondents, list of, xxiii.
- FRANCIS, J. [exhibits Jurassic Cephalopoda fr. Kachpur], lxxxii.
- FREER, H. H., 6.
- Fucoid Beds (=Dolomitic Group), 147, 162.
- Garvellachs or Isles of the Sea (Hebrides), 145.
- GARWOOD, E. J., 33, 281.
- Gass Water (Ayrshire), teschenites, &c. of, 93.
- GEIKIE, Sir ARCHIBALD [re-elected Foreign Secretary], xxi.
- GEIKIE, J., obituary of, liii-iv.
- GIBB, A. W., 7.
- GIBSON, J., 41.
- Gippsland (Victoria), *Phlyctenaspis(?)* from, lxxx.
- Giur-bheinn (Islay), 150, 151.
- 'Glacial clays' (so-called) of Kinta district, 165 et seq., 176 et seq., 188 et seq.
- Glaciated aspect of Portaskaig Conglomerate, 142.

- Glenmuir Water (Ayrshire), teschenites, &c. of, 87-91, w. sect.
- Gneisses, &c. of British East Africa, ii; granitic, of Parijs (O.F.S.), 199-200, 207-208; chem. anal. of do., 217-18.
- Goblin Combe (Somerset), igneous rocks of, 24-26 w. map, 34.
- Gold Coast (W. Africa), manganese-ore on, lxxx.
- Gondwana Series in Kinta district, 169 *et seq.*, 175 *et seq.*
- Goodra Vale (N.S.W.), *Macropetalichthys* (?) from, lxxx.
- Gorge, use of term, 75; *see also* River-gorges.
- Gortantoid Point (Islay), 149, 150.
- Granite Harbour (Antarctica), Devonian fish-remains from, lxxx.
- Granite, relations to tin-ore deposits, in Kinta district, 181-85.
- Great-Glen Fault, in relat. to Loch Gruinart Fault, 137-40 w. map.
- GREEN, J. F. N. [exhibits MS. report on Udi Colliery, &c.], lxxxi.
- Gruinart, *see* Loch Gruinart.
- Gypsum in Mozambique volcanic rocks, 252, 253.
- Hafod-y-Calch (Corwen), *Orionastræa phillipsi* from, 298-99 & pls. xxiii, xxiv.
- HARKER, A. [elected President], xxi.
- Harlow Hill (Northumberland), *Aulina rotiformis* from, 290-94 figs. & pl. xxii.
- HARRIS, G. F., lxxxii.
- HARRIS, J. L., 277.
- Harvey Range (N.S.W.), *Bothriolepis* from, lxxx.
- HAEWOOD, H. F., 217, 219, 277.
- Helicoprion* compared w. *Edestus*, 6.
- Heredity, strength of, in evolution, lxxiv-lxxv.
- Heulandite in Mozambique rocks, 250 *et seq.*
- Highland Quartzite identified w. Islay Quartzite, 160.
- Himalaya, the support of the, viii-ix.
- HINDE, G. J., lxxxiii.
- HINTON, M. A. C., award fr. Lyell Fund to, xlvi.
- HOLGATE, B., obituary of, lxiii.
- HOLLINGWORTH, G. H., obituary of, lxiii.
- HOLMES, A., 217, 219; the Tertiary Volcanic Rocks of the District of Mozambique, 222-78 figs. & pls. xx-xxi w. chem. anal., 279.
- Homo sapiens*, skull found at Talgai, v.
- Homœomorphy = parallel development (in mammalian evolution), lxxiii.
- Hornblende-andesite fr. Mozambique, 256-59 & pl. xxi w. chem. anal.; hornblende-teschenite of Bellow Water, 99.
- HOTBLACK, J. T., obituary of, lxiii-lxiv.
- HOWELL, H. H., obituary of, lx.
- HUGHES, T. MCK., 280.
- Hurdorthwaite Moor (Durham), *Aulina rotiformis* from, 293 & pl. xxii.
- Hypermegethes northumbriæ*, gen. emend. et sp. nov., 55-59 fig. & pl. iv.
- Ibrahimio (Mozambique), sect. to Conducia Bay, 227; basalt of, 246.
- Igneous rocks assoc. w. Carb. Limest. of Bristol district, 23-42 figs; *see also* Basalts, &c.
- Ilmenite, skeletal, &c. in Lugar teschenites, &c., 101, 106; in Mozambique basalts, 242, 245.
- 'Inadaptive modifications' in evolution of Ungulata, lxxii.
- INNES, D. E., 39.
- Insects from British Coal Measures, 43-62 figs. & pls. iii-iv.
- Interference-figures, vi.
- Intrathecal region (in *Bugosa*), 281.
- Ischyodus*, *see* *Prognathodus*.
- Islay Anticline (Inner Hebrides), 132-64 figs. & pl. xii (map); Islay Limestone, 141-42; Islay Quartzite, 145 *et seq.*
- Isocardia humana*, 18 & pl. ii.
- Isogyres, vi.
- Isostasy defined, viii.
- JONES, W. RICHARD, the Origin of the Secondary Stanniferous Deposits of the Kinta District, Perak (Federated Malay States), 165-94 & pls. xiii-xv, 196-97.
- JONES, W. RUPERT [decease announced], vii, xi; obituary of, lxiv.
- Jubaland (Brit. E. Africa), geology, &c., of, ii-v.
- JUDD, J. W. [decease announced], lxxvii.
- JUDD, Mrs. [presents bust of Lyell], lxxix.
- Jura (Hebrides), Islay Quartzite, &c. of, 152-53; Jura slates, 133, 152 *et seq.*
- Jurassic rocks in Jubaland, iii; cephalopoda fr. Kachpur, lxxxii; *see also* Mesozoic,

- Kacha (Perak), 168.
 Kaohpur (Russia), Jurassic cephalopoda from, lxxxii.
 Kainozoic non-marine mollusca fr. Brit. E. Africa, iii-v; *see also* Tertiary.
 Kanching (Perak), 188.
 KARPINSKY, A. P., Wollaston Medal awarded to, xl-xli.
 Katoforite, 234, 237.
 KENNARD, A. S., award fr. Lyell Fund to, xlvii.
 Kent, Mesozoic foss. fr. deep borings in, lxxxii; coal-pebbles in C. M. sandstones from, lxxxiii.
 KERR, R., obituary of, lxiv.
 KIDSTON, R., Murchison Medal awarded to, xli-xliii.
 Kieve = bowl, 74.
 Kiloran Bay (Colonsay), 137.
 Kintor district (Perak), secondary stanniferous deposits of, 165-97 & pls. xiii-xv.
 KIRBY, G., 277.
 KITCHIN, F. L., 1, 230; [receives Murchison Medal for R. Kidston], xli-xliii [exhibits Mesozoic fossils fr. deep borings in Kent], lxxxii.
 KITSON, A. E., lxxxii.
 Kledang Range, *see* Kinta district.
Koninckophyllum sp., 304.
 Kramat Pulai tin-mine (Perak), view of, pl. xiii; origin of deposits at, 184.
 Kukatta (Jubaland), Sequanian rocks at, iii.
 KYNASTON, H., obituary of, lxi.
- Labradorite in Mozambique rocks, 242 *et seqq.*
Lævocardium fragile, 17.
 Laggan (Islay), 138, 139.
 Lahat tin-mine (Perak), 188; view of, pl. xiv.
 Lake = water-channels (in Jubaland), iii.
 LAMPLUGH, W. G. [receives Wollaston Fund for W. B. Wright], xlv.
 Lamprophyre of Lurgecombe Mill & its inclusions, 77-83 w. chem. anal. & pls. viii-ix.
 LANG, W. D., 281.
 Laphroaig & Ardmore Quartzites, 156.
 LAPWORTH, H. [re-elected Secretary], xxi; [receives Murchison Fund for G. W. Tyrrell], xlv.
 LAST, J. T., 223.
 Laumontite in Mozambique rocks, 251 *et seqq.*
 Lavas in Brit. E. Africa, ii-iii; Tertiary, in Mozambique district, 228 *et seqq.* figs., 250 *et seqq.* & pl. xxi; origin of do., 271-75; radio-activity of do., 275-77; distribution of lavas in E. Africa, 260-64.
 LEE, W. G., 280.
Lepidocyclina fr. Dutch New Guinea, lxxx-lxxxii.
Leptospatha spathuliformis, iv.
 Lewisian Gneiss of Islay, 132, 135, 160.
 Library, annual report of Committee, xii-xiv; lists of donors to, xiv-xvii.
 Lignite assoc. w. stanniferous deposits of Kinta district, 185 & pl. xiii.
 Limestone-cliffs, formation of, in Kinta district, 170-75.
 Limeridge Wood (Somerset), igneous rocks of, 28-29 w. maps, 35.
Limicolaria rectistrigata, iv.
Lithostrotion basaltiforme, 302 & pl. xxiv.
 — *ensifer*, *see* *Orionastræa*.
 — *martini*, 283 fig.
 Little Missenden (Bucks), deep boring at, vi.
 Loch-Gruinart Fault, 132, 137 *et seqq.*, 158.
 Loch-Skerrols Thrust, 139-40; rocks above do., 140 *et seqq.*; geology of Colonsay & Islay W. of do., 135-39 figs. & pl. xii (map).
 Lossit, Loch (Islay), 141, 142.
 Lugar (Ayrshire), picrite-teschenite sill of, 84-131 figs., chem. anal., & pls. x-xi.
 Lugarite, new rock-species, 85, 91, 107-11 & pl. xi w. chem. anal.
 Luing, *see* Loch-Skerrols Thrust.
 Lumbo (Mozambique), 230, 231.
 Lundy Beach (Cornwall), sea-breached valley at, 64 & pl. v.
 Lunga (Hebrides), Islay Quartzite, &c. of, 155-56.
 Lurgecombe Mill (Devon) lamprophyre & its inclusions, 77-83 w. chem. anal. & pls. viii-ix.
 Luxulyan Valley (Cornwall), 69-70.
 LYDEKKER, R., obituary of, lv-lvii.
 Lydford Gorge (Devon), 70-71 & pl. vii (map).
 LYELL, Sir CHARLES [bronze bust presented], lxxxix.
 LYELL Medal awarded to—C. W. Andrews, xliii-xliv; L. Fund awarded to M. A. C. Hinton & A. S. Kennard, xlvi-xlvii; L. Medallists, list of, xxviii; recipients of L. Fund, list of, xxix.

- Machynlleth** (Montgomeryshire), no-duple w. cone-in-cone structure from, lxxvii.
- McINTYRE, A.**, 277.
- McNAIR, P.**, 280.
- McNEILL, B.** [re-elected Treasurer], xxi.
- Macropetalichthys* (?) fr. Goodra Vale, lxxx.
- Magnetite** in Mozambique rocks, 234 *et seqq.*, 242, 245 *et seqq.*
- Main Range** (granite), *see* Kinta district.
- Manganese-ore** on Gold Coast, lxxxi.
- Maol** an Fhithich Quartzite, 133, 140.
- Map** of igneous exposures in Goblin Combe, 24; of Uphill Quarry, 27; of Limeridge Wood, 28, 29; of igneous exposures on Milton Hill, 30; of part of N. Cornwall, 66; illustrating present & former course of Lyd R., pl. vii; geol. maps of Lugar district, 86, 94; geol. map of Islay, Jura, &c., pl. xii; map of Scotland showg. continuation of Great Glen Fault, &c., 138; geol. sketch-map of Kinta district, Perak, pl. xv; map illustratg. distribution of volcanic rocks of Mozambique, 226.
- MARSHAM-TOWNSHEND, R.**, obituary of, lxi.
- Meetings** (Geol. Soc.), hours of, xi.
- Megaladapis*, lxix.
- Megalosaurus*, peculiarities of dentition, lxxiv.
- Melania tuberculata*, iv.
- Melilite-basalt**, 263.
- MENNELL, F. P.** [on the Geology of the Northern Margin of Dartmoor], lxxxiii-lxxxiv.
- Mesozoic fossils** fr. deep borings in Kent, lxxxii; *see also* Jurassic, &c.
- Middle Hope**, *see* Woodspring.
- MILLETT, F. W.**, obituary of, lxii.
- Millstone Grit**, *Edestus newtoni* from, 1-6 figs. & pl. i.
- Milton Hill** (Somerset), igneous rocks of, 30-32 w. map, 36-37.
- Minette**, Lurgecombe-Mill lamprophyre contrasted with, 79, 83.
- Miocene limestones** fr. Dutch New Guinea, lxxx-lxxxi.
- Miolania*, lxvi, lxvii.
- Mitikiti R.** (Mozambique), sect. to Mosuril Bay, 227.
- Mochelia Conglomerate** (Mozambique), Oligocene age of, 224; **Mochelia Dykes**, 229, 230 fig., 232, 249.
- Moine Thrust** in relat. to Great Glen Fault & Loch Skerrols Thrust, 137-40 w. map, 158, 159 *et seqq.*
- Monapo Beds** (Mozambique), Senonian age of, 224; **Monapo district**, volcanic rocks from, 232.
- Mosuril Bay** (Mozambique), sect. to Mitikiti R., 227.
- Mount - Meza Beds** (Mozambique), Albian-Aptian age of, 224.
- MOURLON, M. F.**, obituary of, liii.
- Mozambique district** (Portuguese E. Africa), Tertiary volcanic rocks of, 222-79 figs. & pls. xx-xxi w. chem. anal.
- Mull** (Hebrides), sapphire-bearing xenoliths from, lxxix.
- Mull of Oa**, 141, 142; **M. of Oa Phyllites**, 140-41.
- MURCHISON Medal** awarded to R. Kidston, xli-xliii; **M. Fund** awarded to G. W. Tyrrell, xlv-xlvi; **Medallists**, list of, xxvi; **recipients of M. Fund**, list of, xxvii.
- NABOKOFF, C.**, [receives Wollaston Medal for A. P. Karpinsky], xl-xli.
- Namaqualand** (S. Africa), trap-shotten rocks of, 211.
- Names of Fellows** read out, i.
- NAPIER, H. B.**, 41.
- Nashologoto** (Mozambique), 228, 253.
- Naticina alderi*, 15 & pl. ii.
- Natrolite** in Mozambique rocks, 236, 237, 251 *et seqq.*
- Nautili**, Upper Cretaceous, from Zululand, ii.
- Neocomian of Mozambique district**, 224.
- Nepheline** in rocks of Lugar Sill, 85, 99, 101-102, 106; **nepheline dolerite** defined, 106.
- Nesopithecus*, lxxviii.
- New Guinea** (Dutch), so-called 'Orbitoidal' limestones from, lxxx-lxxxii.
- NEWTON, R. B.**, [on Kainozoic Non-Marine Mollusca fr. British East Africa], iii-v; [on so-called 'Orbitoidal' Limestones fr. Dutch New Guinea], lxxx-lxxxii; on a Fossiliferous Limestone from the North Sea, 7-21 & pl. ii.
