

GENERAL INDEX

TO

THE QUARTERLY JOURNAL

AND

PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

- Acanthocyclus binus*, 483 & pl. xxxvii.
— *fletcheri*, 450 figs.
— *porpitooides* nom. nov., 486 fig.
Acervularia ananas, 451 figs.; var. *singularis* nov., 463-64; var. *truncata*, 474 & pl. xxxv.
Acrotreta nicholsoni, 124.
Agnostus calvus var. *latemarginalis* nov., 127 & pl. iv.
Ahurei Bay, *see* Rapa.
Akorre R. (Kenya Colony), hornblendites, &c. from, 795-97 & chem. anal.
Albite-porphyrite of Snowdon, 402-403 fig.
Albite-zoisite in Shetland Is., 633 w. chem. anal. & pl. l.
Allesley Conglomerate, *see* Enville.
Alveolina oblonga, 282-83 fig.
Ammonoid horizons in Cornbrash, 15-22.
Amphibolites of Snowdon, 409-11 fig. & chem. anal.
Analcite-dolerite of Rapa, 322.
Analyses, chemical, of luscladite, 320; of kyllite, 323; of sodalite-bearing trachytoid phonolite, 325; of ultrabasic basalt, 326; of labradorite-andesite, &c., 332; of olivine-bearing nepheline-tephrite, 336; of quartz-tourmaline-rock, 355; of rhyolites, &c., 368; of tuffs, 374, 383; of rhyolite & pyrrhotite, 389; of 'felsites', 400; of dolerites, 402, 403; of amphibolites, &c., 411; of serpentines, 631; of albite-zoisite, &c., 633; of soapstone, &c., 643; of asbestos, 644; of Mourne granites, &c., 660; of Kenya hornblendite, 795.
Ancodon leptorhynchus, *specim. exhibited*, iv.
ANDERSON, E. M., 687.
Andesine-andesite, porphyritic basic, of Rapa, 330, 332 w. chem. anal.
ANNISS, L. G., the Geology of the Saltern Cove Area (Torbay), 492-500 w. geol. map & sect.
Annual General Meeting, ix *et seqq.*
Anthophyllite of Shetland Is., 642-44 w. chem. anal. & pl. l.
Anthracomya adamsi, 233 & pl. xvii.
— *curtata*, 229.
— *dolabrata*, 233.
— *insignis* sp. nov., 229-30 & pl. xvii.
— *lanceolata*, 230.
— *minima*, 234-35.
— *modiolaris*, 228; zone of, 239-40, 246, 250.
— *obovata*, 229.
— *obscura* sp. nov., 230-31 & pl. xvi.
— *phillipsii*, 235; zone of, 244-45, 247, 250.
— *pulchra*, 231-32; zone of, 243-44, 246-47, 250-51.
— *pumila*, 231.
— *robertsoni*, 229.
— *rubida* sp. nov., 233-34 & pl. xvi.
— *subcentralis*, 231.
— *tenuis* sp. nov., 235-36 & pl. xvi; zone of, 245, 251.
— *wardi*, 230.
Antigoritic serpentine, *see* Serpentine.
Apatokephalus serratus (?) var., 136-37 & pl. iv.
Aplitic granite of Mourne Mts., 659 671-78 & pl. li.

- Arachnophyllum diffluens*, 468 & pl. xxxiv.
 — *murchisoni*, 467-68 & pl. xxxiv.
 — *typus*, 452-53 figs., 469.
 Archetypes, lxxiv-lxxv.
 Arenaceous Beds (Shineton Shales), 114-15; correlated w. those of Sweden, &c., 120.
 Arenig Beds of Snowdon area, 353, 354-57 fig.
 Ariular (S. India), *Megalosaurus* from, cx.
 ARKELL, W. J., 36-37; on the Coral-lian Rocks of Oxfordshire, Berkshire, & North Wiltshire [*title only*], ii.
 Arley-Exhall Conglomerate (Enville Series), 614-15 fig.
 Artificial system in biological classification, lxxi *et seqq.*
 Asbestos of Shetland Is., 644-45 w. chem. anal.
 Assets, statement of, xli.
Assilina ranikoti, 274 & pl. xxi.
Asterolepis maxima, 779.
 Auditors elected, v.
 Augite-dolerites of Snowdon, 400-405 figs. & chem. anal.
 Austral Is. (S. Pacific), geology & petrography of, 291-341 figs. & pl. xxiii.
Aviculopecten flabellum sp. nov., 91-92 & pl. ii.
 Avonian, *see* Carboniferous Limestone.
 Aymestry Limestone of Woolhope Inlier, 512-13 & pls. xxxviii-xxxix.
- BAILEY, E. B., 687.
 BAKER, W. F., 493.
 Balance-sheet for 1926, xxxvi-xxxvii.
 BALSILLIE, D., 649, 687.
 Balta, *see* Shetland.
 BARLOW-JAMESON Award, list of recipients, xxxiii.
 BARBOIS, C., 211.
 Basalts of Rapa, 325 *et seqq.* w. chem. anal.; *see also* Dolerites.
 Bass Rocks, *see* Marotiri.
 BATHER, F. A., 207, 211, 258-59, 286, 340, 447, 449, 490, 491, 602, 787; exhibits specim. of *Corycium enigmaticum*, i; exhibits specim. of *Cupressocrinus schlotheimi*, ii; on *Protoscolex latus*, vi; re-elected President, xxv; addresses to medallists & recipients of Awards, xlii *et seqq.*; obituaries of deceased Fellows, &c., lii-lxi; on Biological Classification: Past & Future, lxii-civ; exhibits U-shaped worm-burrow fr. Upper Dwyka Shales, cvi; exhibits coral-rock fr. near Jebel Teir, cix-cx.
Bathyriscus fr. N.W. Queensland, cvii.
 BEALE, —, 575.
 Bedfordian, term defined, 6, 7.
Bellerophon baccatus sp. nov., 546-47 & pl. xli.
 BERTRAND, P., 211.
 Bibliography of the Cornbrash, 34-35; of Carb. Limest. of S. Wales Coalfield, 92-93; of the Shineton Shales, 96-98; of soil-polygons, &c., 192; of non-marine Lamelli-branches of Coal Measures, 254-56; of Nummulites, &c., 286-88; of South Sea islands, &c., 315-16, 339-40; of Snowdon geology, &c., 351-52; of Rugose corals, 487-88; of Devonian rocks of Devon, 500; of Cambrian rocks of Comley, 552-53; of *Echinocystis* & *Palæodiscus*, 600; of Enville Conglomerates, &c., 619; of Shetland rocks, 649-50; of Valentian rocks of Shropshire, 758; of Old Red Sandstone of Bristol district, 786.
 Big Vein, *see* Nine-Foot Vein.
 BIGSBY Medallists, list of, xxxii; B. Medal awarded to B. Smith, xviii-xlix.
Billingsella Beds, 564.
 BINNEY, G., 163.
 Biological classification, past & future, lxii-civ.
 Biotite-rich (modified) dolerites of Snowdon, 402, 404-405 w. chem. anal.
 BLACKIE, R. C., 710; the Geology of the Country between Llanellidau & Bryneglwys, 711-35 & pl. lv (map & sects.).
 Bodyngharad (Denbigh), Salopian rocks of, 701-702.
 BOLTON, H., 449, 786.
 Bombs, volcanic, in Bedded Pyroclastic Series of Snowdon, 380 fig., 383-85.
 BOSWELL, P. G. H., 426, 428-29, 734, 736, 786; communicates R. C. Blackie's paper, 711; the Salopian Rocks & Tectonics of the District S.W. of Ruthin (Denbighshire), 689-710 & pl. liv (map).
Bothriolepis cf. *hydrophila*, 779-80.
 BOUGHTON-KNIGHT, C. R., 575.

- Brachiopod Beds (Shinerton Shales), 111-13; correlated w. those of Sweden, &c., 119.
- Brachiopoda of Cornbrash, faunal analyses of, 8-15 w. clinal diagram.
- Bradfordian, term defined, 6, 7.
- Brass Vein (Coal Measures), *Anthracomya*, &c. in, 239-40.
- Brecon (South Wales), O. R. S. plants showg. structure from, 195-209 & pls. xiii-xv.
- Bristol district, Old Red Sandstone of, 760-89 w. map & pl. lviii.
- Bryneglwys (Denbigh), geol. of country betw. Llanclidan and, 711-36 & pl. lv (map & sects.).
- Brynllai Vein (Coal Measures), *Carbonicola*, &c. in, 239.
- Bryozoan (Aymestry Limest.), 535-36 & pl. xlii.
- BUCKLAND, W., hammer formerly belonging to, cvii.
- BUCKMAN, S. S., Jurassic Chronology: III—some Faunal Horizons in Cornbrash, 1-35 figs. & pl. i, 37.
- BULMAN, O. M. B., 286, 426, 572, 757; (& C. J. Stubblefield), the Shinerton Shales of the Wrekin District, with Notes on their Development in other parts of Shropshire & Herefordshire, 96-145 & pls. iii-v, 146.
- Bute Vein (Coal Measures), *Naiadites*, &c. in, 240.
- BUTLER, G. W., obituary of, lix.
- Bwlch Cwmllan (Snowdon), sect. to Nant Gwynant, 386.
- Calcite-crystals replacing coral, ii.
- Camarotoechia crebrilineata* sp. nov., 619-20 & pl. xlvii.
- Cambrian of Snowdon area, 353-54: of Comley (Shropshire), 551-73 figs. & pl. xliii (map).
- Caradoc (Lr.) volc. rocks of Snowdon, 353, 363-91 figs. & chem. anal.; Caradoc of Comley area, 564.
- Carbonicola acuta*, 222.
- *affinis* sp. nov., 225-26 & pl. xvi.
- *aquilina*, 226 & pl. xvii.
- *bella* sp. nov., 225 & pl. xvi.
- *communis* sp. nov., 223 & pl. xvi.
- *darsoni*, 224.
- *exigua* nom. nov., 225 & pl. xvi.
- *fulva* sp. nov., 227-28 & pl. xvii.
- *fusca* sp. nov., 224 & pl. xvi.
- Carbonicola nitida* sp. nov., 226-27 & pl. xvii.
- *ovalis*, 224; zone of, 237-39, 245-46, 250.
- *rhomboidalis*, 223.
- *similis*, 228; zone of, 241-43, 246, 250.
- *subconstricta*, 223.
- *turgida*, 225.
- *venusta* nom. nov., 223-24.
- Carboniferous Limestone Succession in N. crop of S. Wales Coalfield, 38-95 figs. & pl. ii.
- Cardiff district (Glamorgan), O. R. S. compared w. that of Bristol district, 784-85.
- Cardington district (Shropshire), Shinerton Shales of, 116.
- Careg Dwlau (S. Wales), vert. sect. at, 82.
- CARR, J. W., presents Bucklands hammer, cvii.
- Caryophyllia*, 453.
- Ceraspis* sp. (O. R. S.), 780.
- Cerithyris magnificanov.*, 33 & pl. i.
- Cheney Longville, see Onny R.
- Chepkarat (Kenya Colony), mica-schists of, 791.
- Cherme's Dingle (Shropshire), Shine-ton Shales in, 105-109 w. maps & sect.
- Cherts in Enville conglomerates, 608, 610 *et seqq.*
- CHEYNE, Sir W. WATSON, 649.
- Chisali (Nyasaland), 435 & pl. xxxi, 437; section near, pl. xxxii.
- Chitimwe Beds (Pleistocene), 438-39 & pl. xxx.
- Chiwondo Beds (Pliocene), 435-37 & pl. xxx.
- Chlorite & chlorite-magnetite-schists of Shetland Is., 639-41, 643 (chem. anal.).
- Chlorite-biotite-schist from Moyale, 797-98 w. chem. anal. & pl. lix.
- Chonetes laguessiana*, 89.
- sp., 89 & pl. ii.
- Chonophyllum*, 454.
- (?) *patellatum*, 482.
- Chromite ore-deposits of Shetland Is., 634-37 figs.
- CHUBB, L. J., the Geology of the Austral or Tubuai Islands (S. Pacific), 291-316 figs. & pl. xxiii, 341; (& W. Campbell Smith), the Petrography of the Austral or Tubuai Islands (S. Pacific), 317-40; on the Geology of Maiao (Society Islands), 342-45.
- Church Hill Quarry (Leintwardine), 576-80 w. map.

- Cil-yr-ychen (S. Wales), vert. sect. at, 82.
 Classification, biological: past & present, lxxi-civ.
 Clawdd Newydd (Denbigh), Salopian rocks of, 700-701.
 Cleavage of rocks in Snowdon area, 417-19; see also Tectonics.
Cleistopora Zone in N. crop of S. Wales Coalfield, 43-44, 53-54, 64-65, 68-72, 81-83.
Cleopatra bulimoides, 445.
 — *ferruginea*, 445.
 Clocacnog (Denbigh), Salopian rocks of, 701.
Clonograptus-tenellus Zone in Wrekin district, 110-11; correlated w. that of Sweden, &c., 119.
 Closeworthian, term suggested, 7.
 Clydoniceratan age, 6.
 Coal Measures, revision of non-marine Lamellibranchs of, 210-59 figs. & pls. xvi-xvii.
 COBBOLD, E. S., 120, 145, 757, 786; the Stratigraphy & Geological Structure of the Cambrian Area of Comley (Shropshire), 551-72 figs. & pl. xliii (map), 573.
 Coblenzian, Upper, of Saltern Cove area, 493.
Coccosteus (?) *disjectus*, 780.
Cœnothyris vulgaris, specimens exhibited, ii.
 Colla Firth (Shetland Is.), 625, 630.
 Comley (Shropshire), Cambrian of, 551-73 figs. & pl. xliii (map).
 Comley Sandstone, boundary w. Shineton Shales, 106; Lr. C.S., 560.
Conchodus sp. (O. R. S.), 780.
 CONNOLLY, M., 441; Report on a small Collection of Fossil Fresh-water Mollusca from Lake Nyasa, 444-45.
Corbicula africana, 445.
 Corley Conglomerate (Enville Series), 615-17 fig.
 Cornbrash, faunal horizons in, 1-37 figs. & pl. i.
 Cornish Vein, see Four-foot Vein.
 Correlation-table of Shineton Shales, facing 118; correlat. of C. M. by Lamellibranch zones, 253-54.
 Corshamian, term suggested, 7.
Corycium enigmaticum, specim. exhibited, i.
 Council, annual report of, ix-xi; (& Officers) elected, xxv.
 Cound Lodge Inn (Shropshire), 103 et seqq.
 Coundmoor Brook (Shropshire), 113-14.
 COWAN, T. W., lix.
 COX, A. H., 146, 205, 207-208, 258, 428.
 COX, L. R., 211, 446-47.
 Crinanite, see Analcite-dolerite.
 CROSS, WHITMAN, elected For. Member, cxi.
 Crwbin (S. Wales), vert. sect. at, 82.
 CULLIS, C. G., 426; elected Auditor, v.
Cupressocrinus schlotheimi, specim. exhibited, ii.
 Cwms, The, see Comley.
 Cwm Byfre (S. Wales), vert. sect. in *Cleistopora* Zone at, 70; sect. descr., 71-72.
 Cwm Clogwyn (Snowdon), map of part of thrust-zone in, 412.
Cyathophyllum, 454-55.
Cyclolites, 455.
Cyclopyge genatenta sp. nov., 138-40 & pl. iv.
Cyclotosaurus fr. Wianamatta Shales, vii.
Cypricardinia subplanulata sp. nov., 542-43 & pl. liii.
Cyrtia (?) sp. (O. R. S.), 779.
Cyrtodonta perovalis, 544 & pl. xli.
Cyrtograptus lundgreni, zone of, S.W. of Ruthin, 692.
Cystiphyllum, 455.
 — *cylindricum*, 477-78 & pl. xxxvi.
 — *siluriense*, 476.
 Dairy Hill (Shropshire), Cambrian of, 553, 556, 563; map of, 562.
Dalmanites caudatus var. *bituberculata* nov., 547-48 & pl. xli.
 DANIEL-PIDGEON Award, list of recipients, xxxiii; D.-P. Fund awarded to W. E. Swinton, cvi.
 DAVID, Sir T. W. EDGEWORTH, 94, 193-94, 340-41; on Great Barrier Reef boring, vii; exhibits trilobites, &c. fr. near Mt. Isa lead-mines (N.W. Queensland), cvii.
 DAVIES, A. M., 121, 211, 286, 788.
 DAVIES, JOHN H. (& A. E. Trueman), a Revision of the Non-Marine Lamellibranchs of the Coal Measures, & a Discussion of their Zonal Sequence. 210-57 figs. & pls. xvi-xvii.
 DAVIES, L. M., the Ranikot Beds of Thal (N.W. Frontier Province of India), 260-89 figs. & pls. xviii-xxii, 290.
 Deep Bay (Nyasaland), 437.

- Denbighshire Grit (Salopian), 692, 714.
- Derwen Hall (Denbigh), Salopian rocks of, 700-701; Derwen Anticline, 729.
- Devonian (Middle) plants exhibited, iii, iv; Devonian of Saltern Cove area, 492-500 w. map & sect.; see also Old Red Sandstone.
- DEWEY, H., 194.
- Dibunophyllum* Zone in N. crop of S. Wales coalfield. 46-50, 56-64, 66-68, 74-80, 83-84.
- Dictyonema flabelliforme* Zone in Wrekin district, 109-10; correlated w. that of Sweden, &c., 117.
- Dictyonoides conditi*, 279 & pls. xxi, xxii.
- *haimeii* sp. nov., 280-81 & pls. xxi, xxii.
- *neuboldi*, 279-80 & pl. xxii.
- Dikelocephalina furca*, 136.
- Dingle Conglomerate (Valentian), 745.
- DINGWALL, (Miss) J. M. M., 42.
- Discocyclina ranikotensis* sp. nov., 281-82 fig. & pl. xxii.
- DIX, (Miss) E., 211.
- DIXEY, F., the Tertiary & Post-Tertiary Lacustrine Sediments of the Nyasan Rift-Valley, 432-42 & pls. xxx-xxxiii.
- DIXON, E. E. L., 95, 788-89.
- Dolerites in Central Spitsbergen, 159-61; of Snowdon, 400-15 figs. & chem. anal.; of Saltern Cove area, 497-99.
- Donors to Library, lists of, xv-xx.
- Dorypyge* Flags, 563.
- DOUGLAS, A. J. A., 315.
- DOUGLAS, J. A., 35-36; re-elected Secretary, xxv; communicates C. S. Elton's paper, 163.
- Downtonian beds of Woolhope Inlier, 513-19 fig. & pl. xxxix.
- Drefach (S. Wales), Carb. Limest. betw. Meinciau and, 53-64 figs.; C. L. betw. Llandeibie and, 64-68.
- DUNN, E. J., trust-fund founded by, x.
- DUNSTAN, B., vii, cvii.
- Dwangwa Gravels (Pleistocene), 440-41.
- Dwyka Shales (Upper), U-shaped worm-burrow from, cvi.
- Echinocystis* (& *Palæodiscus*), 574-603 figs. & pls. xliv-xlvi.
- *pomum*, 581-88 figs. & pls. xliv-xlv.
- EDWARDS, J. H., 618.
- EDWARDS, W. N., exhibits O. R. S. plant-remains, iii, 208.
- Efenechtyd (Denbigh), Salopian rocks at, 697.
- Elberfeld (Westphalia), Devonian plants from, iii.
- Election of Auditors, v; of Council & Officers, xxv; of Fellows, ii, iii, iv, vi, cv, cvl, cviii, cx; of For. Members & For. Correspondents, cxi.
- ELLES, G. L., 120, 426, 575, 710, 734, 757, 759.
- ELTON, C. S., the Nature & Origin of Soil-Polygons in Spitsbergen, 163-93 figs. & pls. x-xii, 194.
- Encrinurus magnituberculatus*, 548-49.
- Enville Series, conglomerates of, 604-21 figs. & pls. xlvii-xlviii.
- Eoorthis* aff. *vicinani*, 124 & pl. iii.
- Epidosites of Snowdon, 409-11 figs. & chem. anal.
- Epidotized grit of Gwastadnant, 361 fig., 362.
- Estimates for 1927, xxxiv-xxxv.
- Ethelbert's Camp (Hereford), sect. through ridge E. of, 510.
- EVANS, J. W., 94, 340, 446, 500, 652, 787-88.
- EVENS, E. D., 785.
- Exhall, see Arley.
- FABRY, R. J. C., 426.
- FALCONER, J. D., 446.
- Famennian of Saltern Cove, 499.
- FARMER, Sir JOHN B., 429-30.
- Faulting in Snowdon area, 423-24; in Comley area, 566; in district S.W. of Ruthin, 706-708; see also Tectonics.
- FEARNSIDES, W. G., 120, 145-46, 426, 428, 573, 735, 759; exhibits slate with curving cleavage, &c., iv.
- FELL, G. P. & P., 426.
- Fellows elected, ii, iii, iv, cv, cvl, cviii, cx; names read out, i, cxi; number of, xxi-xxiii.
- Felsites of Snowdon, 391-400 fig. & chem. anal.
- Felspathic granite of Mourne Mts., 659, 663-65 & pl. li.
- Fethaland (Shetland Is.), 625, 630-31.
- Fetlar & Unst (Shetland Is.), serpentine, &c. of, 623-25 w. map, 630.
- Ffynnon Cadachog (S. Wales), vert. sect. in Lr. Limestone Shales at, 52; sect. descr., 53-54.

- Ffynnon-Tudur area (Denbigh), Salopian rocks of, 722-23.
- FINLAY, R. N., exhibits photos. of reconstruction of original continental cap of 'sial,' cviii.
- FLECK, H., lix.
- FLEET, W. F., 621.
- Flinty rhyolites, massive, of Snowdon, 368-70.
- Florence Bay (Nyasaland), 439.
- Folding & thrusting in Snowdon area, 415-17, 419-23 figs.; in Comley area, 567 fig.; in district S.W. of Ruthin, 705-706: *see also* Tectonics.
- Foreign Members, list of, xxvi; elected, cxi; For. Correspondents, list of, xxvii; elected, cxi.
- Fortis, prehistoric, in Tubuai Is., 295.
- Four Crowns, *see* Marotiri.
- Four-foot Vein (Coal Measures), *Carbonicola*, &c. in, 243.
- FRAMES, M. E., lix.
- France (N.), sequence of lamelli-branch zones in C. M. of, 247-51 w. vert. sect.
- Frasnian of Saltern Cove, 499.
- Gabbro in Shetland Is., 632-33 w. chem. anal.; in Kenya Colony, 794-95.
- Gallt-y-llan (Snowdon), sect. to Llyn Gwynant, 376.
- GARDINER, C. I., the Silurian Inlier of Woolhope (Herefordshire), 501-29 figs. & pls. xxxviii-xl, 530.
- GARDINER, E. J. L., 786.
- Garwood Land (Spitsbergen), 147 *et seqq.*
- GEORGE, T. N., the Carboniferous Limestone (Avonian) Succession of a Portion of the North Crop of the South Wales Coalfield, 38-93 figs. & pl. ii, 95.
- GIBBY, D., 449.
- Gilberries Heath (Shropshire), *Pentamerus* Beds of, 741 & pl. lvi.
- Gissocrinus* (?) fr. Leintwardine, v.
- Glanraon Slates (Llandeilo) of Snowdon, 353, 358-60.
- GLENDAY, V. G. (& J. Parkinson), the Kateruk Series & Associated Rocks of the Northern Suk Hills (Kenya Colony), 790-99 w. map & pls. lix-lx.
- Glyptopomus kinnairdi*, 781.
- Goniophora* (*Cosmogoniophora*) *decorata* sp. nov., 540 & pl. xlii.
- GOODYEAR, (Miss) E., receives Lyell Award, li.
- GORDON, W. T., 259.
- GOSSLING, F. N., 195.
- Gosslingia breconensis* gen. et sp. nov., 198-203 & pls. xiii-xv.
- Graigola Vein (Coal Measures), *Anthracomya*, &c. in, 245.
- Grammysia* (*Grammysioidea*) *mlearni* sp. nov., 543-44 & pl. xlii.
- Granites in Central Spitsbergen, 156-57; of Mourne Mts. (Ireland), 653-88 figs. & pls. li-liii.
- Granophyres of Snowdon, 391 *et seqq.*
