

THE
QUARTERLY JOURNAL

OF THE
GEOLOGICAL SOCIETY OF LONDON.

EDITED BY
THE ASSISTANT-SECRETARY OF THE GEOLOGICAL SOCIETY.

VOLUME THE NINTH.

1853.

PART THE FIRST.
PROCEEDINGS OF THE GEOLOGICAL SOCIETY.

LONDON:
LONGMAN, BROWN, GREEN, AND LONGMANS.
PARIS:—FRIED. KLINCKSIECK, 11 RUE DE LILLE; BAUDRY, 9 RUE DU COQ,
PRES LE LOUVRE; LEIPZIG, T. O. WEIGEL.

SOLD ALSO AT THE APARTMENTS OF THE SOCIETY.

MDCCCLIII.

List
OF THE
OFFICERS
OF THE
GEOLOGICAL SOCIETY OF LONDON.

~~~~~  
**ELECTED FEBRUARY 1853.**  
~~~~~

President.

Prof. E. Forbes, F.R.S. & L.S.

Vice-Presidents.

Sir Charles Lyell, F.R.S. & L.S.
John Carrick Moore, Esq., M.A.
Prof. R. Owen, M.D., LL.D., F.R.S. and L.S.
Lieut.-Col. Portlock, R.E., F.R.S.

Secretaries.

R. A. C. Austen, Esq., B.A., F.R.S.
William John Hamilton, Esq.

Foreign Secretary.

C. J. F. Bunbury, Esq., F.L.S.

Treasurer.

D. Sharpe, Esq., F.R.S. and L.S.

COUNCIL.

R. A. C. Austen, Esq., B.A., F.R.S.	John C. Moore, Esq., M.A.
John J. Bigsby, M.D.	John Morris, Esq.
James S. Bowerbank, Esq., F.R.S. & L.S.	Sir R. I. Murchison, G.C.St.S., F.R.S. & L.S.
C. J. F. Bunbury, Esq., F.L.S.	Prof. R. Owen, M.D., LL.D., F.R.S. & L.S.
Prof. E. Forbes, F.R.S. & L.S.	John Percy, M.D., F.R.S.
G. B. Greenough, Esq., F.R.S. & L.S.	John Phillips, Esq., F.R.S.
William John Hamilton, Esq.	Lieut.-Col. Portlock, R.E., F.R.S.
J. D. Hooker, M.D., F.R.S. & L.S.	Samuel Peace Pratt, Esq., F.R.S. & L.S.
William Hopkins, Esq., M.A., F.R.S.	D. Sharpe, Esq., F.R.S. and L.S.
Leonard Horner, Esq., F.R.S. L. & E.	Capt. Richard Strachey.
P. N. Johnson, Esq., F.R.S.	S. V. Wood, Esq.
Sir Charles Lyell, F.R.S. & L.S.	

~~~~~  
**Assistant-Secretary, Curator, and Librarian.**

T. Rupert Jones, Esq.

### ORIGINAL COMMUNICATIONS.

|                                                                                                                                                                                            | Page     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| ARGYLL, The Duke of. On the Granitic District of Inverary, Argyllshire .....                                                                                                               | 134, 360 |
| AUSTEN, Mr. R. A. C. On the Series of Upper Palæozoic Groups in the Boulonnais, with a Note by Mr. D. SHARPE .....                                                                         | 231      |
| BAIN, Mr. A. G. On the Geology of South Africa. (Deferred.) ..                                                                                                                             | 5        |
| BELL, Dr. T. L. Further Account of the Boring at Kotah, Deccan; and a notice of an Ichthyolite from that place .....                                                                       | 351      |
| BIGSBY, Dr. J. J. On the Geology of Quebec and its Environs ..                                                                                                                             | 82       |
| BRODIE, The Rev. P. B. On Insect Remains in the Tertiary Clays of Dorset .....                                                                                                             | 53       |
| — On the Insect Beds in the Purbeck Formation of Dorset and Wilts; and a Notice of the Occurrence of a Neuropterous Insect in the Stonesfield Slate of Gloucestershire. (Postponed.) ..... | 344      |
| — On the Occurrence of Insect Remains in the Kimmeridge Clay of Dorset .....                                                                                                               | 51       |
| COLES, Mr. H. On the Skin of the Ichthyosaurus .....                                                                                                                                       | 79       |
| DAVIDSON, Mr. T. On some Fossil Brachiopods, of the Devonian Age, from China .....                                                                                                         | 353      |
| DAWSON, Mr. J. W. On the Albert Mine, Hilsborough, New Brunswick: with a Note on the Fossil Fish from Albert Mine, by Sir P. de M. G. EGERTON .....                                        | 107      |
| DE LA CONDAMINE, The Rev. H. M. On a Freshwater Deposit in Huntingdonshire .....                                                                                                           | 271      |
| EGERTON, Sir P. de M. G. On the Affinities of the Genera Tetragonolepis and Dapedius. Palichthyologic Notes, No. 4 .....                                                                   | 274      |
| — On two new species of Placoid Fishes from the Coal-measures. Palichthyologic Notes, No. 5 .....                                                                                          | 281      |
| FLEMING, Dr. A. On the Geology of part of the Sooliman Range..                                                                                                                             | 346      |
| — On the Salt Range of the Punjaub .....                                                                                                                                                   | 189      |
| FORBES, Prof. E. On the Fluvio-marine Tertiaries of the Isle of Wight .....                                                                                                                | 259      |
| FRERE, Mr. H. B. E. On the Geology of a part of Sind .....                                                                                                                                 | 349      |

|                                                                                                                                                                                                                                                                                                              | Page   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| GAVEY, Mr. G. E. On the Railway Cuttings at the Mickleton Tunnel and at Aston Magna, Gloucestershire. . . . .                                                                                                                                                                                                | 29     |
| HARKNESS, Prof. R. On the Silurian Rocks of Kirkcudbrightshire. . . . .                                                                                                                                                                                                                                      | 181    |
| HENEKEN, Mr. T. S. On some Tertiary Deposits in San Domingo; with Notes on the Fossil Shells, by Mr. J. C. MOORE; and on the Fossil Corals, by Mr. W. LONSDALE . . . . .                                                                                                                                     | 115    |
| HUNT, Mr. T. C. Notice of the Occurrence of an Earthquake Shock in the Azores . . . . .                                                                                                                                                                                                                      | 1      |
| JUKES, Mr. J. Beete. On the Occurrence of Caradoc Sandstone at Great Barr, South Staffordshire . . . . .                                                                                                                                                                                                     | 179    |
| LYELL, Sir C., and Mr. J. W. DAWSON. On the Remains of a Reptile ( <i>Dendropereton Acadianum</i> , Wyman and Owen) and of a Land Shell discovered in the Interior of an Erect Fossil Tree in the Coal-measures of Nova Scotia; with Notes on the Reptilian Remains by Prof. Wyman and Prof. Owen . . . . .  | 58     |
| M'COY, Prof. F. On the Supposed Fish Remains figured on Plate 4 of the 'Silurian System' . . . . .                                                                                                                                                                                                           | 12     |
| MORRIS, Prof. J. On some Sections in the Oolitic District of Lincolnshire. . . . .                                                                                                                                                                                                                           | 317    |
| MOTLEY, Mr. J. On the Geology of Labuan . . . . .                                                                                                                                                                                                                                                            | 54     |
| MURCHISON, Sir R. I. On some of the Remains in the Bone-bed of the Upper Ludlow Rock . . . . .                                                                                                                                                                                                               | 16     |
| NELSON, Capt. R. J. On the Geology of the Bahamas, and on Coral Formations generally . . . . .                                                                                                                                                                                                               | 200    |
| ORMEROD, Mr. G. Wareing. On Pseudomorphous Crystals of Chloride of Sodium; with a Note on the occurrence of similar Crystals, by Mr. W. W. SMYTH. . . . .                                                                                                                                                    | 187    |
| OWEN, Prof. On a Batrachoid Fossil in British Coal-shale . . . . .                                                                                                                                                                                                                                           | 67     |
| PRESTWICH, Mr. Joseph, Jun. On the Structure of the Strata between the London Clay and the Chalk in the London and Hampshire Tertiary Systems: Part 2. (Postponed.) . . . . .                                                                                                                                | 282    |
| RAMSAY, Prof. A. C. On the Physical Structure and Succession of some of the Lower Palæozoic Rocks of North Wales and part of Shropshire; with Notes on the Fossils, by Mr. J. W. SALTER . . . . .                                                                                                            | 161    |
| RAWLINSON, Mr. R. On Foot-tracks found in the New Red Sandstone at Lymm, Cheshire. . . . .                                                                                                                                                                                                                   | 37     |
| RIBEIRO, Senhor Carlos. On the Carboniferous and Silurian Formations of the neighbourhood of Bussaco in Portugal; with Notes and a Description of the Animal Remains, by Mr. D. SHARPE, Mr. J. W. SALTER, and Mr. T. Rupert JONES; and an Account of the Vegetable Remains, by Mr. C. J. F. BUNBURY. . . . . | 135    |
| SALTER, Mr. J. W. On Arctic Silurian Fossils . . . . .                                                                                                                                                                                                                                                       | 312    |
| — and Mr. W. T. AVELINE. On the Caradoc Sandstone of Shropshire. (Postponed.) . . . . .                                                                                                                                                                                                                      | 359    |
| SEDGWICK, The Rev. Prof. A. On a proposed Separation of the so-called Caradoc Sandstone into two distinct Groups; viz. (1) May Hill Sandstone; (2) Caradoc Sandstone . . . . .                                                                                                                               | 1, 215 |

## LIST OF THE FOSSILS FIGURED AND DESCRIBED IN THIS VOLUME.

[In this list, those fossils, the names of which are printed in Roman type, have been previously described.]

| Name of Species.                                                                   | Formation.                  | Locality.                    | Page. |
|------------------------------------------------------------------------------------|-----------------------------|------------------------------|-------|
| <b>PLANTÆ.</b>                                                                     |                             |                              |       |
| Calamites .....                                                                    | Old Red ? or Carboniferous? | Lerwick, Shetland            | 49    |
| <i>Pecopteris leptophylla</i> . Pl. vii. f. 11.                                    | Carboniferous.              | Val de Candozo, Portugal.    | 144   |
| Root-like tubular bodies. Woodcut.                                                 | Pleistocene ...             | Bahama .....                 | 211   |
| Seed-like bodies in the Ludlow Bone-bed, structure of the. Woodcuts.               | Upper Silurian              | Gamage Ford and Hagley.      | 10    |
| Annularia<br>Neuropteris<br>Odontopteris<br>Pecopteris<br>Sphenophyllum<br>Walchia | } species .....             | Carboniferous. Portugal..... | 143   |
| <b>ZOOPHYTA. (5.)</b>                                                              |                             |                              |       |
| <i>Aulopora tubæformis</i> . Pl. xv. f. 16.                                        | Devonian .....              | China .....                  | 358   |
| <i>Didymograpsus caduceus</i> . Woodcut.                                           | Hudson River Group.         | Lauzon Cliff .....           | 87    |
| <i>Disteichia reticulata</i> . Pl. vii. f. 8. ...                                  | Lower Silurian              | Bussaco .....                | 146   |
| <i>Synocladia Lusitanica</i> . Pl. vii. f. 9. ...                                  | Lower Silurian              | Bussaco .....                | 147   |
| — <i>hypnoidea</i> . Pl. vii. f. 10. ....                                          | Lower Silurian              | Bussaco .....                | 147   |
| <b>ANNELIDA. (3.)</b>                                                              |                             |                              |       |
| <i>Cornulites epithonia</i> ? Pl. xv. f. 15.                                       | Devonian .....              | China and Europe.            | 358   |
| <i>Serpulites perpersus</i> . Woodcut .....                                        | Upper Silurian              | Whitfield .....              | 15    |
| <i>Spirorbis omphalodes</i> ? Pl. xv. f. 14.                                       | Devonian .....              | China and Europe.            | 357   |
| <b>MOLLUSCA. (45.)</b>                                                             |                             |                              |       |
| <i>Crania obsoleta</i> . Pl. xv. f. 13. ....                                       | Devonian .....              | China and Europe.            | 357   |
| <i>Cyrtia Murchisoniana</i> . Pl. xv. f. 6-9.                                      | Devonian .....              | China and Europe.            | 355   |
| <i>Leptæna Beirensis</i> . Pl. viii. f. 8. ....                                    | Lower Silurian              | Bussaco .....                | 156   |
| — <i>ignava</i> . Pl. viii. f. 9. ....                                             | Lower Silurian              | Bussaco .....                | 157   |
| <i>Orthis Berthoisi</i> . Pl. viii. f. 4. ....                                     | Lower Silurian              | Bussaco .....                | 154   |
| — <i>Bussacensis</i> . Pl. viii. f. 3. ....                                        | Lower Silurian              | Bussaco .....                | 153   |
| — <i>exornata</i> . Pl. viii. f. 2. ....                                           | Lower Silurian              | Bussaco .....                | 153   |
| — <i>Munda</i> . Pl. viii. f. 5. ....                                              | Lower Silurian              | Bussaco .....                | 154   |
| — <i>Ribero</i> . Pl. viii. f. 1. ....                                             | Lower Silurian              | Serra de Mucela...           | 152   |
| <i>Porambontes lima</i> . Pl. viii. f. 6. ....                                     | Lower Silurian              | Bussaco .....                | 156   |
| — <i>Ribero</i> . Pl. viii. f. 7. ....                                             | Lower Silurian              | Bussaco .....                | 156   |
| <i>Productus subaculeatus</i> . Pl. xv. f. 12.                                     | Devonian .....              | China and Europe.            | 356   |
| <i>Rhynchonella Hanburii</i> . Pl. xv. f. 10, 11.                                  | Devonian .....              | China .....                  | 356   |
| — <i>Guennamensis</i> . Pl. xv. f. 18. ...                                         | Devonian .....              | China .....                  | 359   |
| <i>Spirifer Cheehiel</i> . Pl. xv. f. 17. ....                                     | Devonian .....              | China .....                  | 358   |
| — <i>disjunctus</i> . Pl. xv. f. 1-5. ....                                         | Devonian .....              | China and Europe.            | 354   |

| Name of Species.                                                     | Formation.       | Locality.                                     | Page. |
|----------------------------------------------------------------------|------------------|-----------------------------------------------|-------|
| <i>Astarte excavata</i> ; var. <i>compressiuscula</i> .              | Lower Oolite.    | Gloucestershire & Lincolnshire.               | 343   |
| <i>Ceromya similis</i> . Pl. xiv. f. 2.....                          | Lower Oolite.    | Ponton, Lincolnsh.                            | 340   |
| <i>Cypricardia Beirensis</i> . Pl. ix. f. 16.                        | Lower Silurian   | Bussaco .....                                 | 152   |
| <i>Cyprina nuciformis</i> . Pl. xiv. f. 3 ...                        | Lower Oolite.    | Ponton, Lincolnsh.                            | 340   |
| <i>Dolabra?</i> <i>Lusitanica</i> . Pl. ix. f. 3 ...                 | Lower Silurian   | Bussaco .....                                 | 151   |
| <i>Leda Escosuræ</i> . Pl. ix. f. 8.....                             | Lower Silurian   | Bussaco .....                                 | 151   |
| <i>Lima Pontonis</i> . Pl. xiv. f. 1 .....                           | Lower Oolite.    | Ponton, Lincolnsh.                            | 339   |
| <i>Modiolopsis elegantulus</i> . Pl. ix. f. 15.                      | Lower Silurian   | Bussaco .....                                 | 152   |
| <i>Næra Ibbetsoni</i> . Pl. xiv. f. 6.....                           | Lower Oolite.    | Essendine and Ketton.                         | 342   |
| <i>Nucula Beirensis</i> . Pl. ix. f. 11, 12...                       | Lower Silurian   | Bussaco .....                                 | 150   |
| — <i>Bussacensis</i> . Pl. ix. f. 13, 14...                          | Lower Silurian   | Bussaco .....                                 | 151   |
| — <i>Ciæ</i> . Pl. ix. f. 5 .....                                    | Lower Silurian   | Bussaco .....                                 | 149   |
| — <i>Costæ</i> . Pl. ix. f. 4 .....                                  | Lower Silurian   | Bussaco .....                                 | 148   |
| — <i>Eschwegii</i> . Pl. ix. f. 10 .....                             | Lower Silurian   | Bussaco .....                                 | 150   |
| — <i>Ezquerræ</i> . Pl. ix. f. 7.....                                | Lower Silurian   | Bussaco .....                                 | 149   |
| — <i>Mæstri</i> . Pl. ix. f. 9 .....                                 | Lower Silurian   | Bussaco .....                                 | 150   |
| — <i>Ribeiro</i> . Pl. ix. f. 6 .....                                | Lower Silurian   | Bussaco .....                                 | 149   |
| <i>Redonia Deshayesiana</i> . Pl. ix. f. 1...                        | Lower Silurian   | Bussaco .....                                 | 148   |
| — <i>Duvaliana</i> . Pl. ix. f. 2 .....                              | Lower Silurian   | Bussaco .....                                 | 148   |
| <i>Tancredia angulata</i> . Pl. xiv. f. 5.....                       | Lower Oolite..   | Ponton, Lincolnsh.                            | 341   |
| — <i>axiniformis</i> . Pl. xiv. f. 4 .....                           | Lower Oolite..   | Gloucestershire, Lincolnshire, and Yorkshire. | 341   |
| <i>Cylindrites turriculatus</i> . Pl. xiv. f. 8.                     | Lower Oolite..   | Ponton, Lincolnsh.                            | 342   |
| Land-shell. Pl. iv. ....                                             | Carboniferous.   | South Joggins ...                             | 58    |

| <i>Cheirotherium Kaupii</i> .....                                        | Trias .....    | Lymm, Cheshire..  | 37 |
| <i>Dendrerpeton Acadianum</i> . Pl. ii. }<br>f. 2-7; Pl. iii. f. 1-3, 8. | Carboniferous. | South Joggins ... | 58 |
| <i>Dendrerpeton?</i> Pl. iii. f. 4-7, 9 ... }                            |                |                   |    |
| <i>Ichthyosaurus</i> . Structure of skin.<br>Pl. v.                      | Lias .....     | Tewkesbury .....  | 79 |
| <i>Parabatrachus Colei</i> . Pl. ii. f. 1.....                           | Carboniferous. | Carlake? .....    | 67 |

## EXPLANATION OF THE PLATES.

---

PLATE

|                                                                                                                                                       |               |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 1.—RAILWAY CUTTINGS at Mickleton Tunnel and at Aston Magna; to illustrate Mr. Gavey's paper on the Sections of the Lower Lias of Gloucestershire..... | To face p. 29 |
| 2. } REPTILIAN REMAINS, from the Coal-shale of Carluke and the Coal-                                                                                  |               |
| 3. } measures of Nova Scotia; to illustrate the papers by Sir C. Lyell, Mr. Dawson, and Prof. Owen.....                                               | 62            |
| 4. FOSSIL LAND-SHELL, from the Coal-measures of Nova Scotia; to illustrate the paper by Sir C. Lyell and Mr. Dawson.....                              | 62            |
| 5.—ICHTHYOSAURUS SKIN, to illustrate Mr. Cole's paper .....                                                                                           | 81            |
| 6.—GEOLOGICAL MAP of the Quebec district, to illustrate Dr. Bigsby's paper .....                                                                      | 82            |
| 7.—FOSSIL CRUSTACEANS, CORALS, AND PLANT. }                                                                                                           |               |
| 8. } FOSSIL SHELLS.                                                                                                                                   |               |
| 9. }                                                                                                                                                  | 160           |
| To illustrate the paper, on the Geology of Bussaco, by MM. C. Ribeiro and D. Sharpe.                                                                  |               |
| 10.—GEOLOGICAL MAP, to illustrate Mr. R. A. C. Austen's paper on the Upper Palæozoic Rocks of the Boulonnais.....                                     | 231           |
| 11.—TETRAGONOLEPIS AND DAPEDIUS, to illustrate Sir P. Egerton's Palichthyologic Notes, No. 4 .....                                                    | 279           |
| 12.—CTENACANTHUS HYBODOIDES, to illustrate Sir P. Egerton's Palichthyologic Notes, No. 5.....                                                         | 280           |
| 13.—DIAGRAM SECTION AND MAPS, to illustrate Mr. Trimmer's paper on the Pleistocene deposits of S.E. England .....                                     | 293           |
| 14.—FOSSIL SHELLS, to illustrate Prof. Morris's paper on the Oolites of Lincolnshire .....                                                            | 344           |
| 15.—FOSSIL SHELLS, to illustrate Mr. Davidson's paper on Chinese Devonian fossils .....                                                               | 359           |
