Proceedings of the Geological Society, Session 1934-35, including the Anniversary Address of the President	i-lxxxiv

The Council desire, in view of the present financial stringency and of the desirability of publishing in the Quarterly Journal all suitable papers with the least possible delay and at the lowest possible cost, to draw the attention of Fellows and other authors of papers to the necessity of reducing manuscripts and illustrations to the minimum, consistent with clear presentation of the subject-matter. Authors who have in view the submission of papers to the Society should apply for the printed 'Instructions to Authors' which the Secretaries will forward, with such other information as may be necessary.

The Editor of the Quarterly Journal is directed to make it known to the Public that the Authors alone are responsible for the facts and opinions contained in their respective papers, and for the correctness of their references.

CONTENTS

	PAGE
10. S. W. WOOLDRIDGE and C. J. C. EWING. The Eocene and Pliocene Deposits of Lane End, Buckinghamshire	293
11. J. A. DOUGLAS and W. J. ARKELL. On a New Section of Fossiliferous Upper Cornbrash of North-Eastern Facies at Enslow Bridge, near Oxford	318
