GEOLOGICAL SOCIETY OF LONDON
LIST OF THE OFFICERS AND COUNCIL

Elected February 18th, 1938

PRESIDENT
Prof. Henry Hurd Swinnerton, D.Sc.

VICE-PRESIDENTS
Prof. William George Fearnsides, M.A. F.R.S.
Prof. William Thomas Gordon, M.A. D.Sc. F.R.S.E.

SECRETARIES
Leonard Hawkes, D.Sc.

FOREIGN SECRETARY
Sir Arthur Smith Woodward, LL.D. F.R.S. F.L.S.

TREASURER
Frederick Noel Ashcroft, M.A. F.C.S.

COUNCIL
William Joscelyn Arkell, M.A. D.Sc. D.Phil.
Frederick Noel Ashcroft, M.A. F.C.S.
Edward Battersby Bailey, M.C. M.A. D.Sc. F.R.S.
Maurice Black, M.A.
Alfred Joseph Bull, M.Sc. Ph.D.
Prof. Arthur Hubert Cox, D.Sc. Ph.D.
Wilfred Norman Edwards, B.A. F.L.S.
Prof. William George Fearnsides, M.A. F.R.S.
Prof. Thomas Neville George, D.Sc. Ph.D.
Prof. William Thomas Gordon, M.A. D.Sc. F.R.S.E.
Leonard Hawkes, D.Sc.
Robert George Spencer Hudson, D.Sc.

ASSISTANT SECRETARY AND EDITOR
Arthur Greig

LIBRARIAN
Norman Ernest Pettitt, B.Sc. A.L.A.

CLERK
Miss E. D. Eastwood, F.L.A.

ASSISTANT IN LIBRARY
Miss C. M. Goodey

STANDING PUBLICATION COMMITTEE
Prof. H. H. Swinnerton, President

Dr. L. Hawkes
Prof. W. B. R. King

Dr. W. J. Arkell
Dr. A. J. Bull
Mr. W. N. Edwards
Prof. O. T. Jones

Mr. F. N. Ashcroft, Treasurer
Sir A. Smith Woodward, Foreign Secretary

Mr. F. N. Ashcroft, Treasurer
Dr. W. F. P. McLintock

Prof. C. E. Tilley
Prof. W. W. Watts

Prof. Cecil Edgar Tilley, Ph.D. B.Sc. F.R.S.

LIST OF THE PLATES IN VOLUME XCIV

Plate I. The Lulworth crumple at Stair Hole 52

II. (1) Dip-section of Broken Beds in west side of Pondfield Cove, Worbarrow. (2) Strike-section of Broken Beds in east side of Lulworth Cove 52

III. Dip-section of the Broken Beds at Bacon Hole, near Mupe Bay 52

IV. Small-scale folding of incompetent shaly bands in the Cypris Freestones, Lulworth Cove 52

V. (1) Grooved shear-planes of groups 1 and 2, near Red Hole. (2) Fracture-cleavage in Middle Chalk, Worbarrow 52

VI. (1) Group 5 fault, St. Oswald's Bay, with drag-joints. (2) Group 4 fault, Man o' War Cove, showing dragged bedding in hanging wall 52

VII. (1) Altimetric curves of summit-levels for Cornwall. (2) Altimetric curves for Cornwall, the Brittany peninsula, and the Armorican massif 78

VIII. Altimetric curves of summit-levels for Cornwall and Devon, and the range of the platforms established by Barrow and Dewey, Green, Gullick, and Macar 78

IX. Altimetric curves of summit-levels for the Lake District 78

X. Altimetric curves of the 40-feet groupings for South-West Scotland, the Cheviot area, the Lake District, North-West Wales, South-West Wales, and Devon and Cornwall 78

XI. Altimetric curves of the 50-feet grouping every 25 feet for the same areas 78

XII. Geological map of the Kerry district, Montgomeryshire. Scale: 2 inches to 1 mile 156

XIII. Map of the contorted beds in the western part of Clun Forest. Scale: 1 inch to 1 mile 156

XIV. (1) Drift map of the Stour and part of the Severn valleys (Hampton Loade to Lincombe); scale: 1 inch to 2 miles. (2) Gradient diagram of the same reach of the Severn. (3) Gradient diagram of the Stour. (4) Drift map of part of the Severn Valley, Hampstall Ferry to Tewkesbury; scale: 1 inch to 2 miles. (5) Gradient diagram of the same reach 238

XV. (1) Drift map of the Severn valley, Tewkesbury to Awre; scale: 1 inch to 2 miles. (2) Gradient diagram of the same reach. (3) Gradient diagram of the reach from Awre to the Severn Tunnel 238
LIST OF THE PLATES IN THE VOLUME

PLATE XVI. (1) Diagram of the gradients and thicknesses of the Severn terraces. (2) Diagram of the gradients and thicknesses of the terraces of the lower Severn and Warwickshire Avon. 238

" XVII. Serial sections across the Severn valley. 238

PLATES XVIII & XIX. Microphotographs of Tertiary volcanic rocks of central Victoria. 318

PLATE XX. Burgundia tutcheri sp. nov. 328

" XXI. Burgundia tutcheri sp. nov., B. tutcheri var. huttonae nov., B. trinorchii, and B. cf. semiclathrata. 328

" XXII. Blocks from the boulder-bed of the Red Measures of the Menaian region of Carnarvonshire. 344

" XXIII. (1) View of one of the ‘organ-pipes’ in the Tertiary rocks of Peru. (2) Close-up view of breccia in the same rocks. 358

" XXIV. Fairly undisturbed beds resting on pseudo-boulder clay, Tertiary, Peru. (2) Pebbles from a conglomerate distributed throughout brecciated clay, Tertiary, Peru. 358

" XXV. (1) Contorted slickensided shale, in the same rocks. (2) Section near Carro La Virgen, Peru. 358

" XXVI. (1) Large sandstone dyke at Jabonillal, Peru. (2) Close-up view of the base of the Potreros conglomerate at Quebrada Sichas, near Cabo Blanco, Peru. 358

" XXVII. (1) Almost undisturbed beds resting on breccia in Quebrada de Pozo de Cabo Blanco, Peru. (2) Close-up view of the base of the same section. 358

" XXVIII. (1) A core from the clay and sandstone series above the Clay Pebble-bed of Ecuador, showing sealing-wax flow. (2) Flow structure in a sandstone below the Clay Pebble-bed. 368

" XXIX. (1) Band of thin clay and sandstone seams which has collapsed, allowing the mass above to slide over that below; Tertiary of Ecuador. (2) A thicker sandstone in the same series, also collapsed. 368

" XXX. Photographs of collapsed sheets, showing gliding flow, in the Tertiary rocks of Ecuador. 368

" XXXI. (1) Continuation of the second of the two sheets shown in the previous plate. (2) Protuberances at the base of a sandstone seam, cut off by sliding. 368

" XXXII. (1) Breccia sheet in beds of sandstone and clay, Tertiary, Ecuador. (2) A sandstone dyke, cut off abruptly above. 368
LIST OF THE PLATES IN THIS VOLUME

Plate XXXIII. (1) Boulder of dark greywacke showing ice scratches from the Bain Boulder-bed, north-west of Akbari. (2) View of the Bain Boulder-bed closing round the pitching anticlinal axis north of Akbari.

XXXIV. (1) Termination of the Bain Boulder-bed in the Hucha tangi, north of Shekh Budin. (2) View of the Marwat grits and the Bain Boulder-bed south of Hill 1658.

XXXV. Geological map of part of the Salt Range arc and the adjacent country. Scale: 1 inch to 8 miles.

XXXVI. Vertical sections of the Upper Tertiary freshwater formations of the Salt Range arc and the adjacent country. Scale: 1 inch to 10,000 feet.

XXXVII. (1) Geological map of the Marwat Kundi range and Shekh Budin; scale, 1 inch to 2 miles. (2) Horizontal section from Shekh Budin to the southern border of the Bannu plain; scale, 2 inches to 1 mile. (3) Horizontal section across the central region of the Marwat Kundi anticline; scale, 2 inches to 1 mile.

XXXVIII. *Tetraspis* cf. *kiaeri* and *Oedicybele kingi* sub-gen. et sp. nov.

XXXIX. Geological map of the district around Llan-santffraid ym Mechain, Montgomeryshire. Scale: 1 inch to 1 mile.

PLATES XL–XLIV. Fossils from the Baton river beds (Devonian), New Zealand.

XLV & XLVI. Volcanic rocks from Turkana, Kenya Colony.

PLATE XLVII. Sketch of Turkana, showing the localities from which specimens were collected. Scale: 1 inch to 13 miles approx.

XLVIII. (1) Prismatic jointing in keratophyre, Aber-soch road, Llanbedrog. (2) Prismatic structure in porphyritic soda-rhyolite at Carneddol.

XLIX. (1) Fluxion structure in soda-rhyolite, hill south-east of Carn Saethon. (2) Fluxion structure in felsites at Y Garn, Pwllheli.

L. Geological map of the country around Pwllheli, Llanbedrog and Madryn, Carnarvonshire. Scale: 1 inch to 1 mile.
